MILLER'S

"IDEAL" Incubators & Brooders

Starting with one 400-egg machine, we now have capacity in these
Wonderful Hatchers to set 6000 eggs at one time.

Two years ago, we were using several of the best known makes;
now every machine is a Miller.

The per cent. hatch is greater and the chicks are bigger and
stronger. These machines are built of California redwood, double-
walled, heavy copped tanks, and are
equipped with the famous Miller Auto-
matic Turning Trays, which do away
with all hand turning.

They cost 20 per cent. less than other
machines of similar quality, and are per-
haps the best machine on the market at
any price.

Mr. L. R. Guild and other well known
poultry breeders including Agricultural
Colleges, use Miller Machines exclusively.

MILLER COAL and OIL BURNING BROODERS will bring every
chick to maturity. They are noted for their safety, low fuel cost and
simple operation.

We can supply other makes of Incubators and Brooders, and
A COMPLETE LINE OF POULTRY SUPPLIES.

AFTER MARCH 15th we will have for sale—
BABY CHICKS and HATCHING EGGS

from Quality Banded Rocks and White Leghorns. Write for
circulars and price lists.

CHARLES ERB, Sussex, N. B.

Fewer gypsies are to be found in
Europe and the United States in re-
cent years than ever before. The rea-
son is that there are so many oppor-
tunities for light work at good pay
that they have deserted the highways
and gone into factories and homes.

Gypsies are to be found in almost ev-
ery country of the globe, but their or-
igin never has been explained satisfac-
torily. Roumania has about 200,000,
Turkey a like number. Hungary and
Macedonia each claim 100,000, Russia
60,000, Spain 40,000, England 12,000;
France 2,000 and very few in U. S.

PASSED AWAY

Samuel A. McLeod.

Samuel A. McLeod, High Sheriff of
Kings county, died at the home of his
brother, W. H. McLeod, on Thursday
evening last, March 4th, following a
stroke of paralysis. The deceased,
who had been ailing for some time,
and confined to his home for several
months, for a week prior to his pass-
ing was able to be out driving and
made several trips to his office.

He appeared to be greatly improved
in health and his sudden passing was
unexpected.

He was one of the town's most high-
ly respected citizens and was greatly
esteemed throughout the county and
province.

The deceased who was 73 years of
age, was a son of the late Jonathan
and Charlotte McLeod, and was born
at the homestead, Lower Millstream.

He graduated from the U. N. B. in
June, 1876, and for a time taught
school at Dorchester, and other places,
finally coming to Sussex where he be-
came principal of the Sussex schools.

Mr. McLeod resigned as principal of
the Sussex schools to be associated
with Geo. W. Parker of Saint John, in
the insurance business, and later on
he purchased the insurance business
of the late T. Edwin Arnold, of Sussex,
and continued it until a few years ago
under the firm name of Arnold & Mc-
Leod.

In February, 1916, Mr. McLeod was
appointed High Sheriff of Kings Co.,
to fill the position made vacant by the
death of the late lamented, Sheriff
Fred W. Freeze. He discharged his
duties in connection with this office
in a highly creditable manner and
commanded the respect and confi-
dence of the public.

His wife was Miss Julia Roach, who
predeceased him a few years ago.

The late Sheriff is survived by three
brothers, William H., of Sussex; Her-
bert, of Missoula, Montana; and
Thomas, of Washington, also one sister,
Mrs. G. L. Corbett, of Saint John.

The funeral which was held on Sat-
urday afternoon from his late resi-
dence, was largely attended, many
from outside districts being present to
pay their last token of respect. Among
those in the funeral procession from
out-of-town were Rev. Milton Ad-
dison, Petticoe; A. B. Foster, Geo. W.
Parker, D. H. Weir, Lt.-Col.
Weyman, William McDougall, of Saint
John; G. O. Dickson-Ott, Archie Brit-
tain, John Frost, Thomas A. Peters,
J. William Smith, M.P.P., Isaac Camp-
bell, E. C. Weyman, of Hampton; A.R.
Wetmore, Clinton; J. E. Keith, Norton,
and others.

The funeral services at the house
and grave were conducted by Rev.
Canon Shewen, Rector of Trinity
Church, assisted by Rev. A. V. Morash,
of United Church of Canada. Many
beautiful floral tributes were in evi-
dence.

The pall bearers were Hon. J. A.
Murray, George B. Jones, M.P., Judge
W. B. Jonah, W. F. Lutz.

Interment was made in the family
lot in Church of England cemetery,
Sussex Corner.

Lemont Nodwell

The death of Lemont Nodwell oc-
curred at his home, Norton, Tuesday
evening, March 9th, after an illness of
a few days, caused by an accident re-
ceived while in discharge of his du-
ties at the roundhouse, where he had
been employed as night watchman for
the C. P. R. for a number of years.
His sudden passing came as a great
shock to the community.

He leaves to mourn a wife and six
children. Three daughters, Mrs. James
Williams, Saint John; Lillian, who is
in training at the Meridan Hospital,
Meridan, Mass.; Mrs. Clifford Mason,
of Saint John; and three sons, Theo-
phy, of Marion, Mass., and Sylvan and
Vene, at home. He is also survived by
two sisters, Mrs. Wilfred Carson and
Mrs. Fayes, both of Titusville, and one
brother, John Nodwell, of Advocate
Harbor, N. S.

The funeral was held at Hampton
on Friday after arrival of the Mar-
time express from Norton and was
conducted by Rev. C. S. Young. In-
terment in the family lot.

The two eldest sons of the deceased,
Aubrey and Hallett, made the supreme
sacrifice in the late war.

W. H. March

Many friends in Kings county and
throughout the province, will learn
with regret the death of W. H. March,
of Grouveneur, Sask., which occurred
on February 26. Mr. March went to
Hampton when a young man, when
he went west with his family. He had
been in poor health for the last year,
but the end was wholly unexpected.

He leaves a widow, three sons, J.
Thomas, of Averoid; Harold, of Grif-
fin, and Robert, of Grouveneur. Also
one daughter, Mrs. Ada B. March, of
Saint John; one brother, J. Thomas
March, of Nauwigawauk. Six grand-
children also survive.

Burial took place at Regina on Mon-
day, March 1.

RACING ROUND THE WORLD.

Two American are about to attempt
to journey round the world in less time
than the feat has yet been accomplish-
ed. They are Linton Wells and Ed-
ward Evans, of Detroit, and they are
now arranging their time-table and
making preliminary tests at certain
points.

They will use airplanes for some
stages, motor cars for others and the
fastest boats and trains in opera-
tion for others. The record now stands
at 35 days, 11 hours and 42 minutes.
It was made by John Mears, of New
York, in 1911, and was hailed as a
marvel when accomplished, but now
with much swifter means of transpor-
tation there is no doubt that the fig-
ures will be eclipsed, if no accident
occurs.

It was Jules Verne who first
set the adventurous to speculating on
this sport when he wrote "Around the
World in Eighty Days." His hero,
Phileas Fogg, made the attempt to
win a great wager and he succeeded,
but only after enough adventures to
fill an absorbing book. He had to con-
tend not only with the natural phys-
ical difficulties of the effort but against
the machinations of the villain in the
piece. Up to that time nobody had

SUSSEX

ever gone round the world in eighty
days, and so far as we know there had
been no effort made to establish a re-
cord. But the novelist calculated ac-
curately the time in which the journey
could be accomplished in his day. A
man could have done what Phileas
Fogg did, but it was not a man but a
woman who actually made the experi-
ment. This was Nellie Bly, the best
known newspaper woman so far to ap-
pear on the American Continent.

She was sent out by Joseph Pulitzer
in 1889 to equal or surpass the record
of Phileas Fogg, and she made the trip
in 72 days, six hours and 11 minutes.

The whole world followed her journey
with interest and the performance
was a great circulation builder for Mr.
Pulitzer. Her record remained stand-
ing until 1903 when it was eclipsed
by Henry Frederick who covered the
course in 54 days seven hours and two
minutes. In 1900 Andre Jaeger-
Schmidt made a much more creditable
performance by setting the time at 39
days, 19 hours and 42 minutes. The
days, 19 hours and 42 minutes. The
next attempt was that of Mears, and
it further cut the record. In fact, it
seems that everybody who tries suc-
ceeds. The reason is that the per-
formance is planned in advance just
as Jules Verne planned for Phileas.

It is a matter of mathematics rather
than of athletics, though the schedule
is subject to derangement by accident.
Messrs. Wells and Evans are planning
to girdle the earth in about three
weeks. Their main reliance for their
expected dash will be the airplane in
which they will fly across Siberia and
Russia. The liners in which they will
cross the oceans are those used by
Mears. So long as their nerves re-
main good and worrying over their
time-table does not make them unfit
for travel, there is little reason to
doubt that they will do what they plan
to do and become what might be called
"obscurer celebrities."

Parliamentary under Secretary to the British Department of Education, one of
the speakers at the National Council of Education which will hold its third
triennial conference at Montreal April 5-9.—(C.P.R. Photograph).

THE ARRANGING OF MARRIAGES.

(Lady Nott Bower in London Mail)

What are the duties of parents con-
cerning the marriages of their child-
ren? In different countries you will
find widely diversified answers to this
question. Not long ago a most inter-
esting discussion took place in a Swiss
hotel between English and French mo-
thers on this subject. The English
and Americans criticized somewhat
harshly the business-like way in which
marriages were often arranged by
French parents.

The French mothers replied some-
what warmly, first by reminding their
critics that the happiness of the chil-
dren was quite as dear to French par-
ents as to English, that point seemed
to have been overlooked. The French
mothers urged that parents knew
their children's characters and weak-
nesses and tendencies, and would con-
sider and understand how best to
select the right partners for them.

They stoutly denied that money and
position alone influenced their selec-
tion of suitors or brides.

They also declared that pressure
was never put upon sons or daughters
to accept spouses who were personally
distasteful to them. It was admitted,
however, that the element of choice
was being more definitely recognized
at the present time, and several mo-
thers maintained all they aimed at do-

ing was to introduce into their home
circle only such suitable men as de-
sired to marry and could do so with
propriety in their circle.

Surely, they said, this is kinder to
the children than your English fash-
ion, which leaves all to chance and
may land your inexperienced son with
an odious wife of undesirable antece-
dents, or your daughter with a broken
heart through the frivolous trifling of
an unprinciples young man without
serious intentions.

The Midland G. B. Free Press tells
a story of a Scotchman wishing to
know his fate at once, telegraphed a
proposal of marriage to the lady of
his choice. We doubt if a real thor-
oughbred north of the Clyde would use
the wire when a postage stamp would
serve the purpose. The rest of the
story, however, is as follows. After
spending the entire day at the tele-
graph office, he was finally rewarded
late in the evening by an affirmative
answer. "If I were you," suggested
the operator, when he delivered the
message, "I'd think twice before I'd
marry a girl that kept me waiting all
day for an answer." "Na, na," retort-
ed the Scot. "The lass who waits for
the night rates is the lass for me."

Owing to the dry atmosphere, not a
single infectious disease is known in
Greenland.
