NEWS OF THE WORLD IN BRIEF

A strike in all the great industries throughout Great Britain began at midnight on Monday. It affected close on to 5,000,000 workers, including more than 1,000,000 miners, who had already given up their labors in the coal fields.

A huge whale, which is probably the one that had been seen in the vicinity before, made its annual visit to Digby Basin, Saturday and was seen by several fishermen. The monster, judged by the men to be about one hundred feet in length, sported about the Gap for about an hour, then disappeared, going in the direction of Digby. It re-appeared later off the Life Saving Station, and after playing about, and scaring the lobster fishermen away from their traps, it headed toward the Bay and was seen no more.

Over 100 attended an enthusiastic dinner of Haliburton Club of King's College, Monday night in Commons Hall. The principal speakers were President Moore, of King's; President McKenzie, of Dalhousie; Andrew Merkle of the Canadian Press; Dr. Cameron, Dr. Stewart, of Dalhousie; and Dr. J. D. Logan. Among the guests were Archbishop Worrell and many prominent Halifax business men.

tion board and which was believed to have disposed of the controversy, broke out anew Monday when employees of A. E. Marois, Ltd., threw down their tools and walked out, declaring that they would not work at the new wage rates authorized by the arbitration board.

John Haas, 45, and six of his children, were burned to death in a fire which destroyed their home at Bellefleur, Monday night. Mrs. Haas, another son, and a three months old baby, were severely burned in escaping from the building.

Frank Ford, K. C., Edmonton, has been appointed a judge of the trial division of the Supreme Court of Alberta. He succeeds Justice McCarthy, resigned.

A resumption of the flow of British capital to Canada will probably follow any renaissance in the trade of the Old Country. In the opinion of Sir E. Howard, British ambassador at Washington, who is visiting Montreal. The investment of London financiers in the Dominion has suffered a notable decrease since the war period.

The trans-Atlantic passenger lines will make every effort to "carry on," despite the strike situation in Great Britain, it was indicated at their offices, Monday. All of them, however, fervently hope that the strike will not be of long duration. They fully appreciate the probability that the strike will ruin the Canadian and United States tourist traffic to England and that a majority of visitors to Europe will land at Cherbourg instead of Southampton.

The Nicaraguan congress on Tuesday declared the country in a state of war. The president was authorized to levy assessments against the citizens for \$500,000 to cover the war expense. The action of congress was taken to quell an uprising of Liberal revolutionists who last Sunday seized the town of Bluefields and seized the National Bank there. They are also reported to have occupied the small town of Rama. Government troops are reported on the way to the scene. The Washington Government has ordered a cruiser to Nicaragua, to safeguard the United States interests there.
