Our Policy: Good Merchandise at Reasonable Prices.

NEWS OF THE WORLD IN BRIEF

The eleven months old child of Mr. and Mrs. Barry Wilson, of North Tay, met with a fatal accident on Wednesday afternoon when it fell into a bucket of water. The mother was out of the house for a short time, leaving the baby in charge of an older brother. When he saw the accident he ran out to tell his mother, who rushed in, but was too late to save her baby's life. The funeral was held on Friday afternoon. The service was conducted by Rev. Mr. Markham, rector of St. Thomas' church, Stanley.

Events in the coming fortnight will decide whether there should be peace or war in the British coal industry. The position, although less serious,

has much similarity with the position last July when another crisis was threatened and was only averted by the government providing a state subsidy to enable the mine owners to pay wages which the owners claimed were not justified by the economic condition of the industry.

Serious rioting, growing out of agricultural disputes, occurred Sunday, at Satyamangalam, 250 miles southwest of Madras. Six policemen were badly injured and a number of rioters were arrested. Order finally was restored and the authorities have forbidden gatherings of more than 4 persons.

At Ottawa, Cabinet council held a lengthy session Saturday extending over two hours. At the conclusion it

was officially stated that there was no announcement to make. Government legislation and a number of routine matters were, it is understood, under consideration. Appointments to fill the senatorial vacancies in Alberta and Nova Scotia, and the naming of a successor to the late Justice M. P. Hackett, formerly of the Superior Court of Quebec, is still pending.

Louis Vogel, the aged German who had been passed from place to place in the province during the last week or two, by the various municipal home authorities, because his place of residence was in doubt, died suddenly on Saturday afternoon in the Municipal Home at Fredericton. He expired as he sat on a chair. He arrived from Woodstock Thursday night in a very

TELEPHONE 272

weak condition. Previously he had been in St. John. He had left Fredericton some time before, after objecting to being kept in the Municipal Home. Vogel was a native of Germany but left that country in his youth and had lived in this province the greater part of his lifetime. He resided at Southampton, St. John, and other places at the various times. Early in the stages of the Great War he was arrested as a spy, but was liberated in a short time.

On Monday, Elbert H. Gary, chairman of the United States Steel Corporation notified stockholders at their annual meeting in Hoboken, N.J., that no stock dividend could be safely declared at this time, but indicated that such a payment was possible in future.

The appeal of the Home Bank shareholders from the decision of Charles Garrow, K.C., Master of the Supreme Court, who held them liable under the double liability clauses of the Bank Act, came before Justice Middleton, Toronto, and was formally dismissed with costs, without prejudice to any order which the master might make as to costs under the statute.

A violation of the law, drunkenness, and illicit trade have resulted from sale of liquor and legalization of the provincial government control and sale of beer and wine in Canada, Mrs. E. A. Boole, of New York, president of the National Women's Temperance Union, asserted before the Senate Sub committee at Washington, Monday, in advocating the strengthening of the Volstead Act.

Under the present arrangements the Amundsen-Ellsworth Polar dirigible Norge, will leave for Spitzbergen about noon next Saturday. The Leningrad Geographical Observatory has arranged to transmit by wireless meteorological bulletins from Russian station through out the flight. Visitors continue to swarm to the big hangar at Trotsk, near Leningrad, to view the Norge.

Duquesne Gardens, home of the Pittsburgh Pirates, National Hockey League team, was damaged by fire on Tuesday. The blaze, which caused an

estimated loss of \$30,000, was confined to the ground floor, where the skating rink is located.

The new immigration law is published Tuesday in Diario Oficial, thereby becoming effective. The law requires a tax on all incoming aliens and registration of all aliens; it prohibits the entrance of aliens pursuing a calling in Mexico, which may be applied to ministers of the gospel.

EXPEDITION INTO ASIA WAS A GREAT EXPERIENCE FOR THE ROOSEVELTS

With the safe return of the Roosevelt expedition and their party after nine months spent in the wildest and least known regions of Central Asia, the Russian Pamirs and Eastern Turkistan one of the most remarkable scientific expeditions was brought to a close. After sweltering under skies where the thermometer registered 115 degrees they went into a land of perpetual snow and ice, travelling for weeks in an altitude of 15,000 to 18,000 feet in the most severe cold weather land where Kipling says "the miles stand end on end." It was a great experience and the Roosevelt boys enjoyed every moment—as one would expect them to.

The Roosevelt returned with 80 specimens of large animals and 650 birds, and it is said that few of these specimens are to be found in any museum in the world today.

They secured four Ovis Poli, the ancestors of the common sheep of today, the goitered gazelle, Siberian Roe, Thibetian Antelope, Asiatic bear, Asiatic Wapiti, Yarkand stag, Tian Shan Ibex, and Tian Shan Sheep. One of the Ovis Poli has horns 54 inches long. They look like Rocky Mountain sheep only they are much larger. The horns on one of the Tian Shan Ibex measured 59½ inches. The Asiatic Wapiti is a cousin of the American Elk. Colonel Roosevelt could not understand how the Thibetian Antelope lived in the country where they shot it.

When the hunters crossed the Karakoram Range they went into what

Cook's Regulating Compound

A safe, reliable, regulating medicine for women. Sold in three degrees of strength No. 1, 2, 3. No. 2, 50¢; No. 3, 75¢. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. THE COOK MEDICINE CO. Toronto (formerly Walker). The Proprietary and Patent Medicine Act.

might happily be known as "no man's land." The country was exceedingly rough, difficult to make any speed, and because of the high altitude refreshing sleep could not be had. In 10 days travel in this region the Roosevelt did not see a blade of grass or a tree. They do not think anything ever grew there or that anything ever will. Descending the Karakoram was even more difficult for beasts than for men for 14 yaks, ponies and donkeys were lost—20 percent of the numbers taken. The country is so wild that one of the donkeys was killed and eaten by wolves within 80 yards of the tents occupied by the Roosevelt and the wolves did such a clean cut job that no one knew about it until it was all over.

All the specimens will be displayed in the Field Museum in Chicago. The Roosevelt were very much elated over the success they had with American arms and ammunition on the trip, especially at the end when they hunted tiger in India for six days and secured eleven of them and also two rhinoceroses—Peter P. Cerney, editor of National Sport Syndicate.

Th ten children of Isaac I. Forbes, LeRoy, Ill., tip the scales at something over a ton, and with one exception, each weighs over 200 pounds. Mr. Forbes was one of a family of eleven Kentuckians. Six of the children are boys and four girls.
