The Lost World

Imagine a Lost World—millions of years old—and now found by a daring exploring party. Imagine this world still existing as in the beginning of time—with gigantic ante-deluvian monsters roaming it—ape men—prehistoric men living on it—fighting at every turn for existence—fighting the monsters who would devour them. And it all happens in this tremendous love and adventure drama—and people from your own world were brave enough to encounter hardships and dangers to bring back this story to you. Without doubt the biggest motion picture achievement.

SIR ARTHUR CONAN DOYLE'S
stupendous story with
Bessie Love Wallace Berry
Lewis Stone Lloyd Hughes

Truly the marvel of the screen. It will hold you breathless, clinging to your seats—a picture you never will forget.

See the Giant Dinosaur Crashing Down the Streets of London

ABSOLUTELY ASTOUNDING

That's the only way we can describe it! Never before have you seen anything like it!

Imagine a group of explorers discovering a spot where the foot of man never before had trod. And this group of men and a woman trapped—imprisoned in this lost world.

Where ape men roam—where animals the size of 15 elephants, and flying reptiles the size of an aeroplane, monsters of 10,000,000 years ago still live, battling each other and this group of adventurers.

And after a series of hair raising adventures, escaping with a captured monster and carrying it back to London where it breaks its shackles and raises havoc in the city streets.

You forfeit your right to see the greatest entertainment the brains of man have ever achieved if you miss seeing "THE LOST WORLD."

And we offer you the chance to see it—to see its wonders never shown before—the eyes of the civilized world have never seen adventure and romance like this.

Seven years to bring it before you—seven years of hard work—but now this strange and sensational story LIVES before you.

The picture will be the sensation of the entire world.

The Greatest Attraction your eyes have ever beheld.
