## THE MOCK PARLIAMENT

It is significant that in the last two years the Mock Parliament has undergone a change in policy. A change which admittedly is for the better. It is now regarded by many as the source of excellent ideas for the betterment of student affairs. Any prophesy as to the feasibility of the proposed change in student government and the "Utopian" budget, both of which met with approval at the last session, could be criticized, but it seems that in these suggestions we may have a possible cure for some of the ills of the Union. At any rate these proposals merit the attention of the students and each one should thoroughly acquaint himself with and understand the principles of these proposed changes in order that when and if they come before the Union a hasty decision will not have to be reached.

## How Student Levies Could be Reduced 50 p.c.

### A MODEL BUDGET

The following is an estimate for a fall budget as presented by Herbert Smith at Saturday's Mock Parliament. It places the ladies' levy at \$3.00 instead of \$5.00, the upperclass men's at \$4.00 instead of \$9.00, and the freshmen's levy at \$5.00 instead of \$10.00. This estimate is not intended as final or arbitrary, but is merely an attempt to show how our expenditures MIGHT be reduced if the quest for the MacTier Cup were dropped, and if a part-time athletic director for interclass games were hired instead of the present full-salaried official. With initial heading costs paid for this year the Brunswickan grant for next fall can take a \$50. reduction.
