OUT OF THE MOUTHS OF BABES

Conversation in Residence between Senior and Freshman

Senior, seeing freshman knock at certain door on ground floor, "Who is there?"

Fresh—"McNon-er-something."

S: "Who?"

F: "McNon-er-something, I don't know what it is, sir, but he is a junior and he was in the residence last year?"

S: I don't know anyone of that name here last year."

F: "Well, sir, he sits at so and so table and he eats a great deal."

S: "Is his name MacNaughton?"

F: "Oh, yes, sir, how did you guess?"

He: "So your father demurred at first because he didn't want to loose you?"

She: "Yes but I won his consent. I told him that he need not loose me, we could live with him, and so he would not only have me, but a son-in-law to boot."

He: "H'm! I don't like that last expression."

Mrs Noah: "Look here, Noah, if you insist on taking in mice, I am not coming into your old ark."

"Madam," he said, "will you please get off my foot?"

"Why don't you put your foot where it belongs," she replied shortly.

"Don't tempt me, madam, don't tempt me," he countered.

Einstein who knows so much about space, might devote a little of his time to finding some of it for parking.

"The vacuum is nothing shut up in a box."

"The equator is a menagerie lion running around the centre of the earth."

"May I ask, Mr. Paderewski," said a sweet young thing, "who is the composer of that selection you played last? It is indeed wonderful."

"Beethoven," answered the pianist.

"Ah, yes," she replied, "Wonderful. Is he composing now?"

"No, madam," replied Paderewski gravely, "he is decomposing."

DID IT EVER OCCUR TO YOU

One company now has a trade in policy which allows a credit of from 10c. to 15c. on old pairs, and another company is putting perfumed oil into its thread to give its product a pleasant odor.

Handkerchiefs were first manufactured at Paisley, Scotland, in 1748, when \$80,000 worth was made.

One pound of honey sometimes represents about 300,000 miles of travel by the bees that produce it, tests indicate.

The deadliest menace of the African jungle is the swarms of driver ants, flying armies of several million blind black insects about one-half inch long which attack, kill and eat humans, serpents and animals—even elephants.

A Chinaman usually has three names, the first being his clan name, the second designating his generation and the third being his given name; and no two Chinamen have even had the same three names in the same order.

The most powerful amplifier in existence, recently perfected in Berlin, can carry a voice with perfect clarity for more than twelve miles.

ENGINEERING STORES AWAY TO GOOD START

The Engineering stores thus far have been unaffected by the general depression. The Freshman Class in drafting has kept Bill Akerley and Herb Smith on their toes handing out scales, paper, pins, and what not.

The stores which are run as a subsidiary unit of the Engineering Society provide the student engineer with equipment at a minimum of cost. Any profit which may result from the operation of the stores is used to swell the account of the Engineering Society.

The spending of the funds of this society is entirely controlled by its members, the Engineering students. Two years ago a moving picture machine was purchased; in other years the money has been used to partly defray expenses of Engineering banquets. The manner in which it will be used this year rests entirely with the student body.

ANSWERS TO CORRESPONDENCE

Freshman Forester: "We regret to inform you that we have no particulars on hand, regarding 'waterproof shoe-packs.' However, we understand that Mr. Arnold Peck is in a position to supply the necessary information. He can be seen at the Beaverbrook Residence, between 9 a.m. and 7 p.m."

Curious: "No, Johnny Lambert has no interest, at least financially, in the Capitol Theatre. I believe he is going to be an usher, after receiving the necessary preliminary training. In order to pursue this vocation more thoroughly, he has transferred his residence from Marysville to King St."

Admirer: "So far as we know Henri Clavette has no intention of leaving college to become a member of Parliament. Dame Rumor has it that he has had several tempting offers from both parties. Should Henri leave, there will be a bitter fight between Charlie Simms and Doug. McAndrews for the vacancy thus resulting."

Freshmen—Roderick c.; Fradsham p.; McKnight 1b.; Holme 2b.; Keenan 3b.; Patterson s.s.; Armstrong 1f.; Bain c.f.; Chalmers r.f.; Richards; Benson; Currie.

Umpire, Carl Watson.

SOPHETTES—FRESHETTES

Playing in midseason form the Sophettes easily defeated Marj. McMurray and the Freshettes to win their league opener 18-7.

For the winners no one was particularly prominent all playing superb ball. Marj. McMurray lead the attack for the defeated nine, and but for two bad innings turned in a fine pitching display.

The lineups were:
Sophettes—Owens c.; Neill p.; Palmer 1b.; Cremin 2b.; R. Hanson 3b.; Burr s.s.; Kane 1f.; MacDonald c.f.; Bayley r.f.

Freshettes—Russell c.; McMurray p.; MacLeod 1b.; L. Hanson 2b.; Simms 3b.; Smith s.s.; Smith 1f.; McCain c.f.; H. Hanson r.f.
Umpire, Ted Coffey.

Japan uses 80% of its total forest production for firewood.

NOTICE TO ADVERTISERS

Change of copy must be handed in to McMurray's Printing Office not later than the Saturday previous to the Thursday in which the copy is to appear.

DEATH DEALING DEVICE FOUND FOR C. O. T. C. USE

Marvelous new invention by U. N. B. Student!

This invention will probably be used when the C. O. T. C. goes to war.

The invention is a bullet which will go around corners. The principle is the same as that of the curve on a baseball. The lead instead of being the usual shape is the shape of a musket ball. The powder is placed in only one-half of the bullet and in this way a spin is put on the bullet which makes it curve. But instead of curving only slightly like a baseball, it is spinning so fast that it will probably make a curve of about 60 degrees when it is perfected. It will only curve about 59 degrees at present. The side in which the powder is, is marked by a cross. The cross is placed on the opposite side from the way you wish it to curve.

When this invention is completed the inventor (recently proved an imbecile by Dr. Kierstead's Intelligence Test) will turn his microscopic brain to the task of magnetizing bullets so that they will be attracted by medals and consequently kill all the enemy generals who wear them.

Both these inventions will be donated to the C. O. T. C.

PERSONAL

We have it from a most reliable source that J. D. Kingsley has reformed—not before it was time. What part does Agnes play in this reformation?

We wonder where Scotty Thomas was Monday night? Rumour has it that some person stole his wife.

JOHN F. WALKER LOST IN WILDS OF YORK CO.

During a survey, a party of Foresters had been wending their way through the dense tangle of the campus jungle when they suddenly discovered that Mr. John F. Walker, of the Senior Class, had disappeared from their midst. The party experienced much concern for his safety and made many conjectures as to the cause of his sudden vanishing. Some suggested that he had, perhaps, become tangled in the treacherous swamp through which they had just passed or had fallen a prey to the wiles of Minnie Woohoo, who was known to be loose in the woods at the time. After much weeping, wailing and whooping, Chief Flieger dispatched one of the intrepid members, Russ. Jones, to go in search of the lost Johnnie. In a few hours Russ. returned to report that he had discovered Johnnie's remains, namely, his foot-prints headed for home. And a sigh of relief was heaved by all.

HAIL THE CAMPUS TRAMS

The Brunswickan takes great pride in welcoming to its realm the annual influx of campus vehicles. Per these is the Mercedes Phaeton, alas haps the latest and most dignified of "Zilch the puddle jumper," whose proud owner is none other than our own Herbert Smith. Its low, trim trim lines and long lithe hood hide beneath an engine of tremendous horsepower and this threshing beast is to be entered in the next Indianapolis Speedway classic. Herb invites inspection and has promised a drive to any "promising" Freshette.
