GEO. D. JOHNSTON

It was a swell exhibition for the first real workout.....but more men are needed at the field.....what men there are show up well.....We have seen many good men go haywire when they become captain.....this year however we evidently will be shown something new in U. N. B. Rugby.....Fanjoy of St. John showed us a better Trojan machine than the 1st game usually brings up.....with a little polishing, Did's brother Ed, will be darn good....."Bertie" showed his usual good judgment by his lenience to the smothered team.....not "smothered" in this case.....for Trojans were O. K.....but "fairly beaten".....also Bertie, looking quite swanky in referee's white shirt, was up to his old trick explaining the game to the Trojans.....but he can explain rugger to most teams around.....Trojan forwards packed and followed up well.....on the whole they were more impressive than their backs.....Nevertheless the lone Trojan try was result of beautiful open field work.....Burnside made a nice play.....when Hyslop spurted hard with the ball he gave the impression of momentum personified.....and not all weight.....in second period the Trojans seemed to concentrate on tackling the referee....."Snake" Chalmers played aggressively and was rewarded with a nice try.....he tries hard Bob does.....about mid way thru' second half the U. N. B. scrum picked up.....at one time in last period 12 of our team were men who came from F. H. S.....Nice improvement Freeze.....Trojan aggressiveness in back-field led to much off-side.....Trojan's got the only perfect drop out of the day.....Bus faked five and every time reaped results, three bringing tries.....when Hyslop made the convert we almost forgot Bus' try.....someone said that Bus was slicing too much on his converts and that maybe a mashie would help.....which brings up golf: the 1932 champ Dave Caughey is up there making 84's.....what a man....."Andy" Likely in spite of the recent loss of his appendix is playing nice golf.....the course is quite muddy in spots.....the tennis tournament is under way and some classy quarter finals are promised....."dark horses" are sure to show from the freshmen....."Ted" is back and in-

LAST MINUTE NEWS FLASH

A telegram has just been received from Mt. A. which necessitates almost impossible corrections in the news. It reads:

Arrangements between Dal. and Acadia cancelled, we play Dal. here on Sat., Oct. seventh, Acadia on thirteenth cannot play U. N. B. this year.

What a break! Any official Tennis Championship cannot be claimed without the right of U. N. B. to challenge.....and what a team we could have sent. Mt. A. and the N. S. universities should have adhered to the arrangements of the committee which provided for a Maritime Championship.

tramural sports are safe for 1933-34.....the swimmers got warmed up at the meeting.....good stuff, that enthusiasm should be rewarded.....also tennis and badminton, golf and boxing need money.....however dropping the football banquet is a debatable action.....Ted Coffey has received a letter from Mt. A. containing the first challenge for the N. B. Tennis championship. The letter found U. N. B. quite unready; the council had made no grant, the intra-mural tourney had scarcely begun and the

TENNIS ROUND UNDER WAY

The annual college tennis tournament got under way with a flying start this week, with the first round already played, and the second round under way. A keen interest is being taken in the tournament and if the weather remains favourable, the finals should be reached by this week end.

The summary—
A. Freeze defeated M. Cogle.
S. Thomas defeated C. Creighton.
N. McLeod won by default.
H. Austin defeated C. King.
D. Chalmers defeated R. Foster.
T. Duchene defeated B. Wallis.
H. Kirkpatrick defeated J. Bain.
G. Johnston defeated R. Freeze.
S. Thomas defeated D. "Toots" Gorman.

Upsets were scored by Chalmers, when he took Raymond Foster through; by Duchene, defeating Wallis; and by "Syd" Gorman. The brand of tennis is Thomas when he stopped Dave certainly ahead of that displayed last year in the college tournament.

tournament committee had not been appointed. Ted is now attempting to rush along the necessary arrangements and everyone concerned is asked to help.

Prof. Turner adds yet another win. He won the F'ton Club Championship from Risteen recently after a trudge of 36 holes. Its getting to be a habit with Earlo.....It seems that pre-season rumours are being discarded and whether the new ones are corrections or merely the same rejuvenated remains to be seen. "Mac" Watson, last year wing three, will probably go north now, instead of south—Toronto instead of Florida....."Spec" Peebles probably will be at Mt. A. this winter.....and Robertson, Miller and English, have changed their minds, that is, Robertson and English.....they will also face U. N. B. this pucky season.

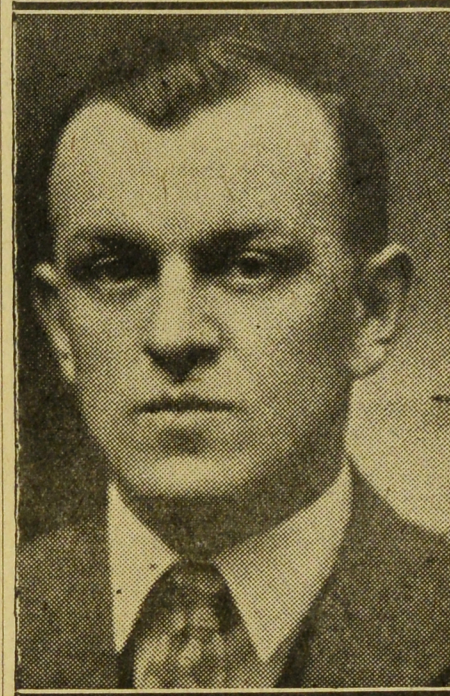

Two games were scheduled in inter class football on Saturday, one between the Sophomores and the freshmen, another between the seniors and juniors. After long delay, waiting for more players to turn up, Ted Coffey finally was forced to start a "pick up" game between a team composed mainly of seniors, and one made up of freshmen and sophomores. At that, there were barely enough for two teams. If inter class football is to be played, it is imperative that all classes give their support to Ted by turning out full teams. U. N. B. has been noted in the past for the large percentage of students engaged in interclass sport. Let us not lower the standard.

Egbert Cass, the perennial and dependable F. H. S. rugby coach is faced with the task of turning out a team capable of defending the N. B. interscholastic title, having only three men left of last year's team. This situation is reminiscent of the year 1927 when

McLenahan Leads U. N. B. To A Pretty 19-5 Victory

Capt. McLenahan Scores 14 pts. and Features in Good Back-field Exhibition; Scrum Light; Hyslop Grabs Limelight

CHIEF COACH

CLARENCE B. BURDEN

Who is optimistic regarding his chances of being with the Red and Black Football Squad in the near future.

Coach Cass moulded a championship squad around the "three musketeers", "Pat" Gunter, "Hap" Watson, and Harold Smith. Mr. Cass, in spite of the doubtful outlook, expresses himself as being "satisfied with the material on hand" as he has for the last dozen years.

The sports editor of "The Daily Mail" has very admirably expressed the whole situation when he writes, "We feel it in the air that another championship team is here in the making from the fact alone that we observe that the candidates for the squad are possessed of two arms and two legs."

Our old acquaintance, "Tiny" Herman, 260 pound footballer, has made his debut in gridiron circles at Ottawa. He plays in the forward line and he has our best wishes for his success.

Captain "Bus" McLenahan and Craig Hyslop shared the limelight when U. N. B. performing after a short week of workouts trimmed an improved Trojan squad 19 to 5 in the Rugby season's opener at College Field, Saturday.

The nineteen year old captain unleashed his 175 pounds of "tiger meat" to show his followers how to pile up points as he Kicked infield, faked passes, converted and broke through centrefield throughout the contest to total 14 of his teams points.

Hyslop added spice to the last try of the game, made by McLenahan, by converting successfully from a difficult angle. Bob Chalmers scored the other three points with a try from a packed scrum-mage on the visitor's line.

Always a threat due to his kicking, McLenahan never before displayed such try-scoring ability and fans found it easy to imagine the quiet captain breaking the century this year after his kick gets back its confidence and sureness.

He was a model to his fellow backs throughout the game, carried his ball well in front, always drawing the tackle before passing, kicking infield to follow up fast and breaking through his opponents to run straight through openings and score.

The Trojan try was scored in the
