GEO. D. JOHNSTON

Greetings Freshmen—and welcome—lets see you do your part in the greatest athletic year we've had yet.....Here we are once again and the lid is off the 1933 football season.....Burdo will likely be back shortly with his little silver whistle.....Herbie Goodspeed is manager of the squad—the best man for the hardest position on the team”.....“Bus” McLenahan is of course out there talking to the coach about this man and that.....the freshmen are showing that annual intelligence which urges them to turn out for football.....both collegiate and inter-collegiate tennis tournaments are on the way.....a Maritime Intercollegiate Tennis Championship would be O. K.....rumours that either a “Larry” or a “Burgoyne” would have “Nels.” Crutchfield or his brother “Gordie” in his brood this year, have recently been denied by the younger Crutchfield.....it seems that Nels. is Captain of the McGill 1933-34 squad.....but hockey rumours are queer things.....the annual fall golf tourney will soon be under way.....no. 3 fairway was scorched to quite an extent during the August dry spell but looks O. K. again.....our Prof. Turner attended the Maritime Golf Tourney at Charlottetown this summer and carried off the record for the Course.....with Prof. Turner and also Prof. “Bill” Argue playing a lot this summer, the faculty team will probably give the student aggregation more than a worry.....almost any summer morning Turner '35 could be seen getting in his 18 holes.....Mac Watson, ex '35, will probably be hitting that little white ball in Florida this winter.....incidentally his absense leaves a gap in the backfield this fall.....“Sparky” Lodge seems to find the Devon-F'ton highway bridge a great place to keep his mile in condition.....“Vince” Sadovsky had a great summer, as far as his swimming

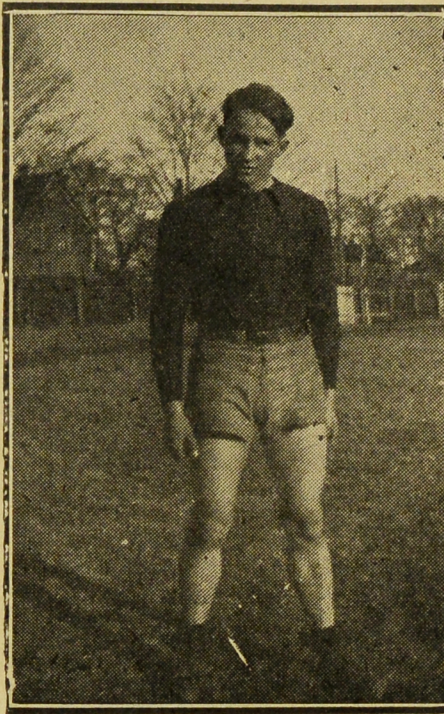

goes—he was high man at the A. & B. meet.....Prof. Catley did not swim the Hellespont this year.....“Bus” McLenahan played good ball this summer with the F'ton Imperials, clouting out some long ones.....Craig Hyslop took a summer course at U. of M. and in addition got some extra instruction on athletic coaching, especially basketball.....since Boone left Burdo seems to need a new full-back each year; now “Oshie” Beatty is gone.

Once again Mt. A. looms ominously on the horizon... She has usually been the highest hurdle in the path towards the Maritime Intercollegiate Championship and undoubtedly she will prove just as annoying this year. However despite the rumours,—or perhaps the fact,—that more Caledonians are to help out the Garnet and Gold, we are as fearless as ever—but

ED. “BUS” MCLENAHAN

who will captain the Red and Black team through the coming football Season.

not careless.

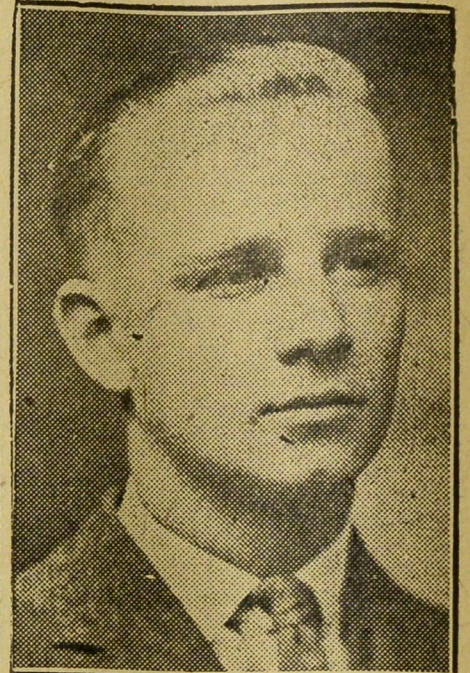

It is an annual understanding that approximately sixty per cent. of the “fence climbers” at our football matches are high school students. It is hard to blame them—their is a heritage received from scores of preceding classes—we used to do it ourselves! That does not mean that the trespassers are justified, however, and they should be corrected. There has been a rather good suggestion made. Why not offer to the F. H. S. students a special pass at a cost which will both suit their purses and help fill ours with cash that would otherwise be lost. We need it—our coffers could readily accept it, and regardless of the price the college would at least be sure of something.

New interest is given this season' McTier cup struggle by the entry of Dalhousie University. For some years the Yellow and Black Haligonians have presented good football teams which, however, it appears, have just missed the high standard set by their teams of a few years back. This fall will disclose their wares in a league which calls for the best rugger in Canada, that is Eastern Canada, for the British Columbia teams are too far away to allow an accurate comparison of playing ability.

One of the most important figures in Maritime Rugby is now to be found at the training field of Dalhousie University. “Jerry” McArthur whose brilliant Caledonian fifteens are so hard to forget, has accepted the position of coach at the Halifax College. He has been most successful of late in turning out real teams—teams whose success depends on teamwork and undoubtedly his presence at Dal. and his absence elsewhere will somewhat modify the results of the N. S. football playdowns.

The McTier Cup play-offs “come to us” this year. This is a big helping factor. Even discounting the tales which came to us from Glace Bay—not tales, let it be (Continued on Page Seven)

ASS'T COACH

EARL B. HICKSON,

Former star three-quarter at U. N. B. who is to assist Coach Burden, now confined to his home through illness.

INTER-COLLEGE TENNIS ON WAY

U. N. B., Mt. A., Acadia and Dalhousie were all named last year as the outstanding contestants for the Maritime Intercollegiate Tennis Championship. The final round of the Tourney is to be held at Truro where the N. B. winners meet the N. S. champs. The prospects for a U. N. B. vic- (Continued on Page Five)

PROF. TURNER NEW ENGLAND TITLE HOLDER

Prof. E. O. Turner of U. N. B. ranking golfer of the Fredericton Golf Club, won the left-handed golf championship of New England for 1933, when he bested E. C. Crane, unattached, on the 18th green. He was playing for the Oak Hill Country Club of Fitchburg, Mass., and not until he had reached the 18th hole did he have his opponent beaten. However he birdied the last hole, sinking a beautiful 25 foot putt.

Besides annexing this title Prof. Turner shattered the course record for the Belvedere club at Charlottetown in the Maritime Amateur Golf Tournament held in August. Playing this round he shot eleven par holes, and turned in five birdies to defeat Dickson of Halifax, five up and four to play.

HICKSON TAKES ASSISTANTSHIP

While “Burdo” is winning his battle against a case of rheumatic fever Earl Hickson, formerly of U. N. B. has accepted the position of assistant coach. Coach Burden is having his wishes carried out satisfactorily by his assistant, who at one time, during the seasons 26-27, played himself for the college fifteen as well as for the hockey squad.
