THROUGH the CAMPUS KEYHOLE

E DUCATION consists of something more than learning to solve problems. A man is not necessarily educated if he can define an ampere or is conversant with a hydrocarbon or two. Such things as these are fundamentals, merely the lower rungs in a great ladder. This university, like most universities, is full of uneducated men. The Campus abounds with men and women who in their own particular line are doing excellent work....But more uninteresting creatures have never been met.....What is the cause of all this?.....Don't you realize that there is another and an all-important side to education?

The building up of the character. The giving of interest and dignity to life. Where is your dignity? Where is your mature interest? "Mature interest", if only I could make these written words express the contempt I feel. Where is your "background"? Where can I find from among you, an original thinker? You demand a scandal column! Well this week the scandal column actually purposes to reveal a scandal! A scandal that is certainly not only local. My remarks are general. And what is this scandal? Why you, yourselves, your minds, your amusements — practically everything about you but your own particular line of work is scandalous. Am I or am I not right when I say that your rooms are littered with "Movie Gems", "Adventure" magazines, everything that is putrid in a universe of worthless periodicals. Why by the very pictures on your walls, the books you read, the movies you enjoy, the music you listen to — you stand condemned as useless in a world that is looking to you for culture. Specialization without culture is as helpless as a tree without water. Can't you see what I'm driving at? You understand nothing but the course you are taking. Never have you had an abstract thought. The verities of life have passed miles above your heads. Mean and petty personalities are your only conversation, and your only interest. Your minds are warped, and in the university you have found only that from which the university hoped to take you. I'm burning up! I'm repeating myself, I know it. But by my very stumblings I hope the points are becoming clearer to you. It is my contention that Priestly, Galsworthy, Chesterton, and de la Roche are merely names to you. The mention of Beethoven conjures up only the Minuet in G. You flock to see "The Gold Diggers of 1933" and misinterpret "Cavalcade". Oh you don't understand that's all.

RESIDENCE CABARET TO FUNCTION AGAIN

The first Residence Dance of the year is to be held on the evening of November 17, and will be carried out on the same lines as the final one of last year. Only Residence men and their ladies will be present at this function.

The committee in charge of the event is headed by George Gorman and expects to run the dance along the general lines of a cabaret; a procedure which proved very pleasing and successful last year. It is expected that "Brick" Jones' orchestra from Saint John, will provide music for the occasion.

C. O. T. C. NOTES

by
H. TEMPLE HATCH

Eight men who are members of the Contingent attended the Camp School of Signals, conducted at Camp Borden, Ontario, during the summer just passed. Major W. G. Jones has just received the Camp Report, and we understand that every man received an excellent report. Capt. W. K. Coombes, Capt. H. N. Harris, Cdt. D. E. Coombes, Cpl. E. R. Brannen, Cdt. D. J. Brewer, Messrs L. K. Brown, J. H. Fulton, and J. M. Thomas were the men who represented the unit at this camp, and they are to be highly commended for their excellent work.

Ranges shot at last Saturday's shoot were the 200, 500 and 600. The scores were as follows:

First Class.				
	200	500	600	total
Nason	32	34	32	98
Cameron	34	33	29	96
Kitchen	31	32	31	94
Brown	30	32	31	93
Sutherland	30	33	29	92
Corbett	30	34	28	92
Box	32	31	27	91
R. Likely	27	32	30	89
MacPherson	33	23	31	87
Copeland	24	30	33	87
Second Class				
	200	500	600	total
Sansom	30	34	32	96
Odell	22	34	29	85

Mr. Alvin Gorman, formerly on the strength of the contingent, has accepted a commission in the North Shore Regiment.

With Armistice Day only a few days off, all eyes are turned to the D. C. R. A. Shoot which is scheduled for that day. The question is, will the team again be victorious, and keep the challenge Cup in the precincts of old U. N. B. Well, here's hoping, and we're all counting on you, men, go to it and BEST OF LUCK.

As the season is now fairly well advanced, we understand that there are to be several changes in the training schedule of the contingent. With the D. C. R. A. shoot on Saturday, the Outdoor season will come to an end. Next week the foot-ball season will close. As a direct result of this, there will not be the Monday evening parade for the football players, and they will therefore take their places in their regular faculty platoons. It is intimated that the Sophomore Company is to be divided into two sections. The whole contingent is then to be divided into platoons and sections, each with its full complement of officers and N. C. O's.

S. M. I. Clark's Classes in Musketry have been cancelled. At first sight this may appear as a loss, but when it is pointed out that this is done only to make time for the Indoor shooting which is to commence shortly, it takes on another light. The Annual Classification shooting is to commence earlier this year. This will prove a decided advantage as it will eliminate the rush and confusion which always results in leaving this part of the training until the end of the season.

We are looking for a good turnout for the Armistice Day parade. The contingent has, in the past, always made an excellent showing on its public appearances and we trust this standard will be maintained.

Another Chapter Closed In Univ. Of Man. Shortages

Winnipeg.—Less than two weeks after the death of his former chief, John A. Machray, in the same prison infirmary, Alexander Ramsay Ross, 53, an accountant at University of Manitoba when shortages of \$10,000 were revealed in his books, died today at Stoney Mountain penitentiary. Ross was serving a two-year term for theft of university funds. Machray had been sentenced to seven years for theft of more than \$500,000 of the university's trust funds.

Average Athlete Is Not a Dumbell

(From L. A. Junior Collegian)
Exonerating the belief that the average athlete is a "dumbell", recent tests made at the Milwaukee Teachers' College show that he is neither brighter nor duller than the non-athletic type.

The survey was made from psychological tests given in the College last year and proves that there are bright and dull athletes, just as there are bright and dull non-athletic students.

In the freshman-sophomore groupings, athletes showed a median score of 78 and non-athletes scored 82. However, the junior-senior groups showed the same median score of 61 for both groups.

"The belief that athletes are inferior mentally to non-athletes," expressed one of the survey professors, "is based mainly upon the fact that athletes do not study as hard as other students. This is due to the fact that their interests lie mainly in athletics."

Harpo Marx says things are so tough the motorists are picking up hitch-hikers and robbing them.
