SENIOR GIRLS TRIM JUNIORS

The Senior Girls obtained first place in the inter-class series by winning the last game from the Juniors on Wednesday afternoon. The Juniors put up a hard fight but would have made a much better showing if the forwards had marked their men. The Seniors missed the effective work of their regular guard, Ruth Hanson, whose position was filled by a Freshette. Verna DeWitt and Florence Nugent were high scorers for the Juniors and among the Seniors Molly Burtt's shooting was most accurate.

Line-up:

Seniors	Juniors
Palmer (c)	Bell (c)
Burtt (f)	Nugent (f)
Neill (f)	DeWitt (f)
Keith (g)	Simms (g)
Washington (g)	McCain (g)

Seniors — 21
Juniors — 15

CO-EDS INVITED TO JOIN LEAGUE

The Varsity Co-eds have been invited to place a basketball team in the Maritime Intercollegiate League

The one draw back to the other advantages which may be enjoyed in such a schedule is that the Co-eds have been coached, at their own request, according to men's rules.

As the intercollegiate competition is played under the dictum of the girls' rule book, this would necessitate a more or less complete change in style of play.

However, it is quite probable that the U. N. B. ladies will accept the invitation and play organized basketball, henceforth, something which they have desired for many years.

Next to prayer, fishing is the most personal relationship of man."—Herbert Hoover.

FINAL RESULTS OF FOOTBALL IN THE STATES

On Saturday the undefeated Army team, a 3 to 1 favorite, trounced the Navy, 12-7. The Cadets haven't lost to the Midshipmen since 1921. On the 52nd Harvard-Yale classic, held at Cambridge, the betting was 4 to 5, take your choice. Harvard avenged its 19-0 defeat of last year by taking the Blue into camp, 19-6. Other important games: Columbia 16, Syracuse 0; Princeton 26, Rutgers 0; N. Y. U. 7, Carnegie Tech 0; Chicago 39, Dartmouth 0; Purdue 19, Indiana 0; Southern Cal. 19, Notre Dame 0; Georgia 7, Georgia Tech 6; Tulane 26, Sewanee 9. Stanford's win over U. of Cal. 7-3, makes it practically certain that she will get the coveted invitation to represent the Far West in the Rose Bowl game on New Year's Day. By trimming Northwestern, 13-0, Michigan salted away the big ten title, while Arkansas clinched the Southwest crown on Friday when she downed Texas.

Only Four Score Years Since Last 'Wooden Wall' Built

Montreal, Que.—We have been so accustomed these days to fast ocean voyages by our modern steam-driven ocean greyhounds that it is practically taken as a matter of course. But it is not so far back, in fact, only 81 years ago, that the last of the "old wooden walls" of England of the days of sail left the launching ways for the water. This was the three-decker the "Duke of Wellington" which was launched in 1852 and took part in the Crimean War. When the little "Turbinia" darted in and out among the British fleet at Spithead, Eng., in a review in 1897 at a speed of forty-one miles per hour, then and there fast ocean travel was born and the eyes of the world were centred on the new method of propulsion, the steam turbine. To Canada goes the credit of having the first ocean liner equipped with steam turbines, the old "Victorian" of the Allan line, which was launched in 1905. The use of turbines in steamships is now general and the latest type of these are installed in the luxurious "Lady" liners of the Canadian National Steamships which ply the route between Canada and Bermuda, the British West Indies, British Guiana and British Honduras.

"No Nation can long persist in policies which conflict with organized public opinion."—Newton D. Baker.

COLD WEATHER GIVES FANS HOCKEY ITCH

With the weather gradually making us more and more hockey-conscious, the question of rink management being settled, and the formation of an intra city league completed, our thoughts naturally turn to the hockey prospects of our U. N. B. team.

By graduation, in its two well-known forms, we have lost two defencemen from our last year's smooth working sextet, Goodine and McKnight, both forwards, Keenan, Drury and a goal-tender, Richards.

We have left, George Johnston, flashy first string centres, as well as Bus McLenahan hard shooting right winger. From last year's second string forward line Dike Chalmers will be "in there" again on left wing with Did Burke at centre.

Pud Fradsham, experienced net minder, will again don the pads while a sturdy barrier will be thrown up in front of him consisting in all probability of Bob Chalmers, whose injured leg is fast improving, and Captain Ike Daughney, another veteran defenceman.

With these on hand, along with Herbie Goodspeed, Jimmy Dodds and some promising looking graduates from last year's Farm League, Coach Larry McLean, who has signed on the dotted line again for U. N. B., hopes to put a creditable team on the ice against Mt. A. and to provide stiff opposition for teams from Fredericton and vicinity.

DR. DOWLING

(Continued from Page One)
Resources of the World", in three large volumes, for the International Geologic Congress, in 1913.

The tablet, which has been presented the university is one of several cast from the original plaque, which was sculptured by Mr. Frank W. Gray, a member of the Mining Institute. A copy of this plaque is to be presented to each University in Canada where instruction in geology is given. The main memorial to Dr. Dowling is a cairn near Banff, in which locality Dowling did one of his major pieces of work. The entire memorial program is being undertaken by the Canadian Institute of Mining and Metallurgy.

FALL FORMAL

(Continued from Page One)
ed by about 150 couples, including several members of the faculty. Ken Jones' Orchestra furnished a program of 14 dances and three extras. This included three supper dances, during which refreshments were served. The first dance began at 8.30, and each succeeding one started sharply on the quarter hour. Everything went off smoothly; not even one single brick of ice cream was molested. Numerous favorable comments were heard on the dance, but the music did not come up to the standard anticipated.

Checking facilities were provided in the Physics Lab. by the Juniors. Latest report has it that the budget of the Junior Class is now balanced.

The chaperones were Mrs. C. C. Jones, and Professor and Mrs. C. W. Argue. The general committee in charge of the dance consisted of Chairman Art Odell, Marg. Fraser, Pat Pond, Pat VanWart and Chet Campbell. Chet was in charge of the refreshments.

S. C. M. MEETING HELD SUNDAY

A very interesting discussion on "What is Religion?" was carried out at a meeting of the Student Christian Movement group at the home of Dr. W. C. Keirstead on Sunday afternoon, November 26. It was the opinion of the group that religion involved some form of worship and that faith in a supernatural being was fundamental.

Miss Florence Manuel, president of the group was selected as a delegate to the Maritime S. C. M. conference to be held at Halifax during the Chrismas holidays. Misses Beatrice Goodwin and Helen Mullin were suggested as tentative delegates. Others will be selected at the next meeting.

The group will meet next Sunday afternoon at 3.30 at Dr. Keirstead's home. Discussion will be based on the existence of a God.

Freshmen and Sophomore students interested in such a discussion are especially urged to attend.

"Giants of North" Gang of Sissies, Statistics Show

(From Minnesota Daily)

Minneapolis. — Minnesota's far-famed "Giants of the North" are in reality a bunch of sissies when compared with the specimens of masculine perfection developed by Princeton, Yale and the other universities — it's been scientifically proven by Dr. Harold S. Diehl, director of the Health Service.

Long a legend the myth attributing super-men to the University was exploded in an article by Mr. Diehl, published in the current issue of "Human Biology." Minnesota men average 68.56 inches in height and 144.66 pounds in weight, as compared with Princeton men who averaage 69.56 inches.

A survey of 23,122 college men revealed that "college men attain their growth several years earlier than the rest of the population."

BADMINTON PROGRESSES VERY SLOWLY

Very few Badminton games were played in the Tournament this week. The games played, were, one ladies' singles and two men's singles; the results of which are,

Ladies' Singles

Hilda McBride defeated Dot Crousse.

Men's Singles

"Ted" Tweedie defeated "Bill" Godfrey 15-2, 15-12.

Mallory won from Odell by default.

H. Kirkpatrick defeated Cam MacLeod 8-15, 15-9, 15-11.

Dow Kitchen won from Miller by default.

FARM LEAGUES READY TO GO

The temperature is hovering near zero. Ice forms at 32 degrees Fahrenheit, 273 degrees absolute (for the benefit of the B. Sc.'s) and ice is what we need for ice hockey.

Ice hockey is what the Farm Leaguers play — or is it, "play at"? Be that as it may, the hour approacheth at which the College launches upon another schedule of brawls and laughs — the Farm League.

You know, of course, the embryonic Lepines, the Kilreas, the Cooks of our Antarctic Rink. A band of flashing constellations, a real Milky Way, composed of "Speed" Fletcher, Crowe, McElman, Godfrey and all are impatient to don the blades.

We have too a Shore, a Clancy, a Conacher and a Worters. They masquerade under the names of Ogilvie, Currie, Anderson and Colpitts.

Troubles and miseries, alas, beset some of the teams in this mighty league. Ogilvie dismally repeats that he cannot, even after hiring a masseur, hammer McElman into shape.

Ravin' Crowe claims that he cannot find a hockey stick which definitely fits his personality, or something.

But troubles or no, these valiant men are ready to do battle for the honors of the Farm League — Let's go, boys.
