SYSTEM OF STUDENT GOVERNMENT OBSOLETE

CHANGE DEEMED NECESSARY BY STUDENTS INTERVIEWED

Macleod, Nonnenman, Martin and Creighton Express Opinions—Student Body Mainly Disinterested—Quorum Not Obtained at Two Separate Meetings of Union

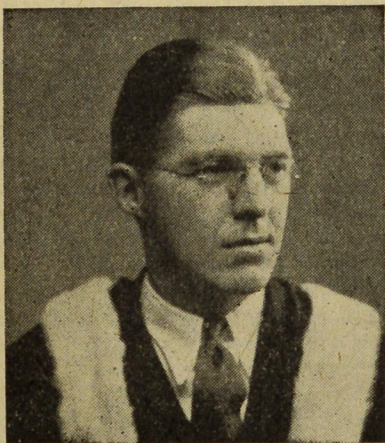

That a change in the system of student government at present in use at the university is vitally essential, is the general opinion of several of our leading students and officials approached by the Brunswickian during the past week. "The present system is inadequate", was the statement made by C. J. Macleod, President of the Student's Union and Student's Council. A rather extensive survey carried out by our correspondent revealed that such was the viewpoint of a large number of the students who take an active interest in the student government of the College. "The Union is a useless piece of governmental machinery", stated Kenneth Nonnenman, Vice-President of the Union in a recent interview. Loring Martin, a graduate of the university in the class of 1933, states that "the Union is more or less of a farce", and advocates a representative form of student government such as was proposed last spring. In this he is heartily endorsed by J. Campbell Creighton, president of the Debating Society, who is an ardent adherent of the representative form of student government and who was foremost in the ranks of those who drafted up the form presented before the Student's Union in the spring.

The inquiry commenced by the Brunswickian into the matter of a change in the form of government in use at the University was occasioned by the growing lack of interest in the Union and its functions by the general student body. This condition of affairs has become particularly noticeable during the past few weeks; and in an attempt to hold a meeting of the Union on Friday last and again on the following Monday, President Macleod found that it was impossible to get a quorum, that is one-third of the 310 students who have signed levy slips, at the meeting. Approximately seventy students appeared at the Forestry lecture room for the meeting on Friday and on Monday, only about forty students put in an appearance.

It appears therefore, that student attitude is one of complete indifference. A great many students are present in the university however, who are vitally interested in student government and who

Who has watched the operation of the Union for six years and feels "that the Union is more or less of a farce."

NORM. LAIDLAW WAS AWARDED SCHOLARSHIP

G. Norman Laidlaw of Halifax, Senior student in Arts at Mount Allison University was selected as New Brunswick's Rhodes Scholar for 1934 at a meeting of the Scholarship selection committee in Saint John Saturday.

Laidlaw is well known at this university as a member of various Mount Allison Athletic teams which have entered into intercollegiate competition. He has played on the basketball, track and

Prowler Shot and Killed Rugby Star

Toronto, Ont. — Grappling with a burglar at the rear of his home in this city last Thursday night, Johnny Copp, popular student at Toronto University and star player in two Senior Intercollegiate Rugby Championship teams, was shot through the abdomen. He was rushed to the hospital immediately where he was given a blood transfusion in an

rugby teams and, in addition, has distinguished himself in inter-class debating and the Little Theatre. At Mount Allison he is specializing in modern languages and during the course opened to him through the Rhodes Scholarship, he will study modern languages and economics. Mr. Laidlaw is 20 years of age.

U. N. B. Dramatic Society Scores Hit With Three One-Act Plays Friday

"A King's Hard Bargain", "Suppressed Desires", and "What Money?" All Have Successful Presentation — Dr. Wright, Robyn Bayley and Mrs. B. S. Keirstead, the Producers.

(Special — The Daily Mail.)

Debating Society President

H. CAMPBELL CREIGHTON

"The Union is a useless and superfluous body, and a hindrance to good student government"

DR. W. J. WRIGHT SPOKE BEFORE SCIENCE CLUB

"The Carboniferous System of N. B." was the subject of an address delivered by Dr. William J. Wright, Provincial Geologist, before a meeting of the Scientific Society held in the Forestry and Geology building yesterday afternoon.

In his address Dr. Wright referred particularly to sub-divisions of

"A King's Hard Bargain", produced by Dr. R. H. Wright, Ph.D., "Suppressed Desires", produced by Robyn H. Bayley, and "What Money?" written and produced by Mrs. B. S. Keirstead, provided excellent entertainment for a large audience which filled the auditorium of the Normal School last Friday night to witness the one-act plays annually presented by the Dramatic Society of the University of New Brunswick. The production should be considered as a personal triumph for G. A. Samsom and the Dramatic Society, the members of the cast of each play, and the tri-producership of Dr. Wright, Robyn Bayley and Mrs. Keirstead.

"A King's Hard Bargain"

"A King's Hard Bargain" which was probably the most impressive of the three plays due to its clean-cut dramatic situation and the sharp development of a character, held also a surprisingly excellent stage presentation and some fine acting on the part of Messrs. Harold Walker, S. Rommell Charles Scotcher and Donald Jamer. The dream scene in which it is revealed to blustering loyal Pagett (Don Jamer) that "Orlibert" Shillitoe (A King's Hard Bargain): "a man what takes the king's hard money but shirks the king's hard duty" (S. Rommell) has actually sacrificed an easy death for himself in order that his two companions, a

the system and summarized the work done in the province by the various geologists since 1912. He stated that the information which he was imparting was partially derived from the literature dealing with the work done, conversational experience; part of which was derived from the literature scattered throughout various publications, but the greater part of which has never been published.

Dr. Wright stated that this summary should prove of great assistance to students of the carboniferous system.

Merry Christmas
