

Mount A. Co-eds Defeated U.N.B. By Two Points

The Mount A. Co-ed team inflicted defeat upon the University of New Brunswick Girls' team last Friday night at Sackville by 2 points when the score was 21-19 for Mount A. The first half, according to previous agreement, was played under girls' rules and it ended with the U. N. B. co-eds leading by one point. In the second half, which was played under men's rules, the co-eds lost their slight advantage, due to over-confidence in their ability to play what is commonly called a man's game.

The Mount A. Co-eds played a man to man game preventing our strong forward line from working in underneath the basket by their usual combinations. The long shots of the opposing team were very effective. Miss Sparling of Mount A. being high scorer for the game. Molly Burt, for U. N. B. also gave a good exhibition of shooting, contributing ten points to U. N. B.'s total. Mary Goodfellow played a splendid defence game blocking and checking with great effect.

Line-up

U. N. B.		Mt. A.	
Neill (f)	2	Toger (f)	0
Nugent (f)	3	Sparling (f)	14
Hanson (g)	0	Clarke (f)	4
Bell (c)	4	Stevens (f)	0
Burt (f)	10	Smith (c)	0
Palmer (c)	0	Miller (g)	0
Merrithew (g) 0		Fasbrooke (g) 0	
Goodfellow (g) 0		Kindle (c)	3
Total Score			
Mount A.	21		
U. N. B.	19

IMP'T MEETING ATHLETIC UNION

(Continued from page one)
den death game in Wolfville, as desired by Acadia, were rejected by the meeting.

Present at the Meeting

Nine Maritime universities were represented at the meeting, five by direct representation and three by proxy, giving a total of 14 delegates in all. President Ralph Lister of Mount Allison, was in the chair and Norman MacLeod of U. N. B., was appointed secretary for the meeting. The additional delegates were as follows:

- Prof. W. G. Jones, U. N. B.
Mr. McNeill, Acadia. (St. F. X. proxy).
Mr. Osborne, Acadia. (St. F. X., proxy).
Mr. Peebles, Mount A.
Mr. White, Mount A.
Mr. Duffie, St. Josephs.
Mr. Doherty, St. Josephs.
Mr. Fraser, Dal. (Proxy, Dal.).
Rev. Father O'Donnel, St. Marys.
Mr. Muggah, King's. (Proxy, King's).
Mr. Oyler, Dal. (Proxy, N. S. Tech.).
Mr. Fullerton, St. Mary's.

The Meeting

Prof. W. G. Jones moved that St. Joseph's be allowed to enter the Maritime Intercollegiate Union and be given a vote. The motion was seconded by Mr. Osborne and passed the meeting. Discussion then centered about the time and place of the N. S. Intercollegiate final between Acadia and Dalhousie. Dalhousie asked for home and home games but Acadia, referring to the minutes of the meetings of 1929 and 1931, requested that one game be played and that in Wolfville.

A motion by Mr. Oyler, to the effect that the N. S. play downs this year be home and home games between Dal. and Acadia, in Halifax and Wolfville, and that these rulings go into effect this year and continue, as regards the Halifax City League and the Acadia—St. F. X. group, was seconded by Mr. Fraser and discussed by the meeting. The motion was rejected by a six-vote majority.

It was moved by Mr. Oyler and seconded by Mr. Fraser that Acadia and Dalhousie play off on neutral ice. This motion was also defeated.

The third motion by Mr. Oyler suggested that in the future, the N. S. Intercollegiate hockey play downs be settled by home and home games between the winners of the Halifax City group and the St. F. X.—Acadia group. The motion, seconded by Mr. Fraser, was put to the meeting and lost.

Moving on from this problem, Mr. Muggah brought up the ques-

TWO SESSIONS OF PARLIAMENT

(Continued from page one)
by Helen Neill and seconded by Ken Nonnenman, that the Mock Trial be held after the Junior Tea. The motion passed the meeting.

Discussion now centered about the problem of a Mock Parliament. It was the general opinion of the Council that a Parliament should be held, but how it was initially organized was conceded to be a mystery. The general consensus of opinion was that up to the present date such parliaments had "flowered in the wilderness alone". It was decided, at any rate, to give the affair all the opportunity possible for flowering and the dates for the elections and two meetings of the house were set as March 9, 10 and 17, respectively, upon a motion by Arthur Odell.

With respect to the Mt. A.—U. N. B. Hockey situation, President MacLeod stated that word had been received from Mount Allison, requesting a sudden death game to decide the already decided N. B. Intercollegiate Championship. It was moved by Odell and seconded by Nonnenman that U. N. B. play no more hockey with Mt. A. this winter. The motion passed.

The meeting closed with a discussion on the possibility of having an Encoenia group taken and a brief comment on the College Rink. With respect to the Encoenia group it was the opinion of the Council that Junior and Senior students should have their pictures taken free of charge in view of the fact that they paid for the last pictures taken which were destroyed in the Harvey's Studio fire. Freshmen and Sophomores, it was conceded, should pay for their pictures in the usual way. A committee consisting of J. W. Baker, Arthur Odell and Ken Nonnenman was appointed to look into this matter.

The rink question, brought up by W. B. Haselton, was to the effect that a certain amount of damage had been done in the club house during the period of activity at College Rink. President MacLeod requested that Mr. Haselton investigate the matter and present a report on damage done, at the next meeting of the Council.

tion of the annual meeting of the organization for the purpose of discussing play-off difficulties, and moved that notices be sent to all Maritime universities previous to the meeting for this purpose. Mr. McNeill seconded the motion which was then discussed and passed.

Mt. A.—U. N. B. Problem

Discussion now moved along to the disagreement between U. N. B. to exist when the two teams went on the ice for the extra twenty minutes of play. He proposed that the game be replayed on neutral ice, each team defraying their own expenses. Considerable discussion followed with debate on both sides of the question. Proceedings were brought to a climax however, with a motion by Norman MacLeod and seconded by W. G. Jones, "that, in view of the fact that an agreement existed among the three New Brunswick colleges to play in the event of a draw, 10 minutes overtime in all league hockey games, that the final twenty minutes of overtime played by Mt. A. and U. N. B. in Sackville be set aside and the game be declared a 1-1 draw."

The motion was carried 10 to 6, and Mt. A. with respect to the overtime question. U. N. B. held that the final twenty minutes of overtime in the U. N. B.—Mount A. game of February 6, at Sackville, should be disregarded in view of the fact that an agreement existed previous to commencement of the series between U. N. B., St. Joseph's and Mount A., that tie games within the league should be played ten minutes overtime only. Bearing out U. N. B.'s contention, Manager Duffie of St. Joseph's, exhibited correspondence exchanged between himself and Manager Smith of U. N. B., and also with Manager White of Mount Allison, which showed that such an agreement had existed between the colleges. D. O. White for Mount A., admitted that such an agreement had existed but that it had ceased

every century. At this rate in a million million years the average winter temperature in Fredericton will be 90° below zero; and unless by that time, man finds some way of moving to Venus which is much nearer the sun and will be habitable by that time (except for want of oxygen) the end of life will be at hand.

There is the possibility of stellar collision, but this is so slight it need not be considered.

The state of the sun itself has to be considered. The sun, with the other stars shares the possibility of wandering into, what is called, a space of instability. Astronomers see the sun nearing one of these spaces which would mean probably a shrinkage of its volume by one-one hundredth, and great loss of luminosity. This condition however is very remote and not as dangerous as a calamity which happens to about six stars in the galaxy per year. The star becomes about 1000 times as bright and then fades away. Should this happen life would simply be scorched out, and the unfortunate part is that we do not know what causes the condition. However the laws of probability give 50,000 million years before this happens to the sun.

The end of life or the world in the common sense may be brought about by any of these conditions, but taking them all into account there is still probably tens of thousands of millions of years left.
