

SPORTS

REPRESENTATIVES AWAY TO M.I.A.U. MEETING

Bunker, Football Coach Leave on Thursday

At a meeting of the A. A. A. on Tuesday last, Mr. Ryan, Athletic Director and Manzer Bunker, President of the A. A. A. were appointed to represent U. N. B. at the annual M. I. A. U. conference to be held in Halifax over the week-end. It is customary for the Faculty Advisor and one student to be thus delegated, but at the advice of Professor Burton Kierstead, who is the Faculty Advisor, this custom will not be followed this year. Many important subjects are to be discussed at the conference and it is expected that Intercollegiate sport will form a topic of major debate.

Earlier in the week Dr. MacKenzie met with the A. A. A., and made clear his position in relation to intercollegiate athletics and sport in general. The President expressed himself as being definitely in favour of continuing and promoting athletics in all branches on our campus insofar as time will permit. He acknowledged however, that with the rigid schedule of C. O. T. C. training, the time for sports would be greatly reduced.

At this meeting the subject of physical training for co-eds was brought up, and it was decided that plans would be started immediately subject to the approval of the ladies concerned.

Also discussed was the granting

President Speaks On Athletics

In his address on Monday of this week, President MacKenzie assured U. N. B. students, and athletes in particular, that he was not in favour of eliminating sports. Dr. MacKenzie declared that active participation in sports was one of the best ways to keep up morale. Here are the President's own words:

"Our first concern must be to ensure that we make the largest contribution of which we are capable to Canada's war effort.

"This means that we must be ready at any and all times to meet the calls that our country may make upon us, and that we be prepared to perform the duties required of us.

Our second concern must be for the maintenance of our own and the general morale. It is neither wise nor useful to allow ourselves to become grey haired or unfit through constant attendance upon the radio broadcasts and commentaries. We owe it to ourselves to keep ourselves healthy, fit and in good spirits. In this, physical training Athletics and the various college activities have an important part, and in this they contributed to the effectiveness of our war effort."

of swimming privileges in the Residence Pool to the ladies but nothing definite was decided.

When Mr. Bunker returns from the M. I. A. U. conference he will issue a complete statement regarding the stand of the Maritime Universities in regard to intercollegiate sports so that next week's Brunswickan will help greatly to clear up the present situation.

"What makes you think she doesn't like you?"

"She told me she thought there was a fool in every family."

"Well, what of it?"

"I'd told her a few minutes before that I was an only child."—Western Gate.

FOOTBALL

By Herbert Loane

After a very uncertain start the haze overhanging the football situation may be beginning to lift as the season opened the big question mark was C. O. T. C. and when practices could be held.

As this is being written word has been received that special arrangements are possible whereby football players may work in both C. O. T. C. periods and practices. If this plan goes through as anticipated it is just possible that U. N. B. may have a fairly interesting rugby season.

In any case practices have been held daily from the first day of the term, and an enthusiastic, keen bunch of boys have been hard at work. Athletic Director Ryan with the generous and able assistance of Professor Burton Kierstead, the Faculty Advisor of the A. A. A. has been giving the boys workouts two hours a day and those turning out are also taking an hour's P. T. in the evenings to hasten the process of "getting in condition." With such a short time at hand all haste is being used to field the team.

Graduation and enlistments have sadly depleted the list of last year's players but with a few experienced men such as Ralph Lockhart, Doug Simpson, etc., it is hoped to turn out a fairly formidable squad.

The Freshman class has provided the major part of material and several classy high school grads have been observed in action.

Arrangements are now underway to have several matches for the Red and Black rugby team but as yet plans are too indefinite to foretell.

If by any chance there should be any men around the campus who have played the game and who have not yet turned out for practice by all means get around to the field these afternoons and help out. Every available man on the campus is needed so let's see you out in your cleats and shorts.

Frosh Initiated By Sophomores

As of yore, the initiation of this year's Freshmen was begun on Monday morning, when they were assembled on College Field by the upper classmen. There the Sophomores, with the memory of last year's humiliation fresh in their minds, played the leading hand in the proceedings. Kneeling in subservient attitude on the grandstand, they listened to friendly words of advice and encouragement from their superiors. In the evening the frosh dutifully ap-

Profs. vs. Duffers In Golf Match This Week End

This year as previously, the Faculty and Students will partake in a friendly golf match during Saturday and Sunday.

We refer to the Faculty members as the Pros and the students as the Duffers, but then there is a little modesty in this statement and the encounter should turn into a very interesting battle.

Those wearing the Faculty colors are: Professors Turner, Sears, Argue, Flieger, Hagerman, and MacKenzie. Dr. MacKenzie will also be out battling for the Pros.

For the Duffers are: R. B. Grant, A. Baptist, K. Roxborough, R. Smith, D. Green, and W. Lockhart. Professors Sears and Argue will play against Grant and Baptist on Saturday afternoon while the remainder of the matches will be played on Sunday.

U.N.B. Takes Army In Track Meet

Last year's track team, supported by a good turnout of Freshmen, won an easy victory over the Army scoring 71 points to the latter's 37.

Ralph Lockhart, last year's best all round athlete in college was top notcher among the Red and Black, taking two firsts and a third. McNair and Simpson divided honors for second place with 8 points each. McLean and Holmes were outstanding for the army.

With last year's team intact, and a good supply of Freshmen talent, the U. N. B. fans should be able to see the best team in years produced this year. Mr. Ryan, the new Physical Director should do a great deal to promote both interest and quality in our team, as the team has greatly felt the lack of a coach in past years.

100 yd. dash—Dosne (U.N.B.)
220 yd. dash—McNair (U.N.B.)
440 yd. dash—Simpson (U.N.B.)
Shot Put—Ayer (U.N.B.)
Broad Jump—Lawson (A)
High Jump—Lawson (A)
Discus—McLean (A)
Pole Vault—Moore (U.N.B.)
Hop Step and Jump—Lockhart, (U.N.B.)
Mile Run—Jardine (U.N.B.)
Hammer Throw—Holmes (A)
Javelin—McLean (A)

Training to Begin Next Week

In an interview with The Brunswickan yesterday, Major W. Gordon Jones, Officer Commanding the U. N. B. contingent of the Canadian Officers' Training Corps, stated that as yet he could give no definite announcement as to the exact type of work that would be carried on this year. However, he stated that this year, as last, every male student of the University who is physically fit and a British subject will be required to take military training.

Registration of all new members of the unit, which was started Thursday, is expected to be completed this week, he said. Further medical examination of new recruits will begin the first of next week.

The Commanding Officer further stated that at a meeting of the officers of the unit it was decided that the first and second year students would do basic training with the work of the second year students slightly more advanced. No definite programme has yet been worked out for those who have obtained partial qualification or have completed the equivalent of sixty days training.

Major Jones said that the actual training will begin next week. Training will be five days a week and will last for slightly over an hour each day.
