to be good students, he continued. In the United Kingdom only those who are good students are allowed to carry on university work at all. In the President's own words "Your first and primary obligation is to be a student. Learn your profession here; do the best possible job in whatever field you are engaged." Continuing, the speaker supported student recreations, such as athletics and dances, to the full, cautioning however against diversion of energies from the main object: learning the fundamentals of your profession.

The members of the Officers Training Corps said he, have a double obligation to fulfill. They must be continually diligent in their military studies to best serve their country. Women at the University should aim, primarily, at physical fitness and secondarily, at technical or professional efficiency.

Canadian Campus Mount Allison

By Mickey Reid,

On a hilltop overlooking the Tan-tramar Marsh and River in New Brunswick rise the buildings of Mount Allison University. In 1840 the cornerstone of the first building was laid, but the centennial celebration had to be postponed because of war conditions. The red stone of the ivy-covered walls was obtained from the university quarry a short distance from the college. From the campus borders spread out the homes and foundries of the town of Sackville.

Now that the university location has been described, let us turn to a brief description of the campus itself. Associated with the University are the School for Girls and the boys' Academy. The men and women live in separate residences with the commercial students occupying Allison Lodge and "The Cottage." Mount Allison is a small college, the enrolment never going above five hundred students from all parts of the world.

Most of the buildings are clustered on top of the hill. On one side of York Street is the former four storied Men's Residence recently destroyed by fire and the gymnasium, and before them lie the upper and lower football fields. Across Lansdowne Street from the playing field is the skating rink, its roof bearing signs of graduating classes gone but not forgotten. On the other side of York Street are the remaining buildings, those on the hill being set away from the street by the tennis courts. Charles Fawcett Memorial Hall stands as a bulwark at their feet to prevent the encroachment of the town onto the campus. Beside it lies the "L. C." pond, no longer used for initiation, and the fountain.

The Conservatory of Music and Allison Hall, the women's residence overlook the lawns and pathways leading to the pond.

Behind Allison Hall are the Science Building, the Library, and Centennial Hall in which the chapel is located. The class of '36 on graduation donated the bell, and although chapel attendance is no longer compulsory a great proportion of the student body still climbs those three flights of stairs every morning for the brief service. Owen's Art Gallery, besides housing exhibition and teaching rooms for painting and drawing, has facilities for pottery work, basketry, metal work, weaving and other ap-

Badminton

fell to floor. I retrieved it, again I tried, bird eluded racquet. After five more noble attempts and no contacts, I smiled my most disarming smile and threw the thing over the net.

The game did not last much longer. My partner in a violent attempt to encircle me, and make up for my lack of cooperation slipped and turned her ankle.

Badminton may be a great game but, needless to say, I am in complete agreement with the doctors who state that it plays havoc with the delicate feminine constitution.

But — why don't you try the game? I have a good racquet, which has 'seen action' only once, for sale, loan, or hire!

FLASH: — Rumor has it that for the duration of the war badminton birds will be just about impossible to obtain, so the question raised by the title of this article, may be answered without reference to the article itself. The answer is, "no birds!" Now I don't feel so badly — other people besides myself will have useless racquets cumbering up their closets! —F.F.

classes in stage make-up for the benefit of any interested in that line. The tentative date for such classes is Sunday afternoon, but the definite time will be published at a later date.

In conference with stage and property men, Mrs. Springford stressed the fact that she expected whole-hearted co-operation on the part of all concerned, so that this Spring's production will surpass in every detail those staged in other years.

of her class when a Freshette.

The contestants for the vice-presidency of the Ladies' Society, Mary Murray and Eileen Crotty, waged a keen struggle and at the close of voting Miss Murray was declared elected. She has led a varied career "up the Hill", being secretary-treasurer of the Ladies' Society this year, representative of her class on the S. R. C. for two years and this Spring a member of the Girls' Basketball team. Eileen Crotty, an energetic student, was vice-president of her class as a Freshette, a member of the executive of the Delta Rho this year, and is scheduled to participate in an Intercollegiate debate against Mount St. Vincent this month.

The officers for the election were Earl Morrison, Returning Officer, Byron Matatall, Clerk, and Joyce Mavor and Elmer Tuffts, Scrutineers.

thought it advisable to defer until a later date the forming of a committee to look into the matter of Interclass sport.

In order to co-operate with the University Office the Council decided that it would advise all campus societies and committees that they inform the University authorities of any functions which they stage lasting after eleven o'clock at night; and furthermore the S. R. C. advised the same group that they carefully consider the urgency of having chaperones when they held events and if they were regarded as necessary, they should procure them.

The Council agreed that the names of those interested in acting as police, when athletic activities were staged in the Lady Beaverbrook Gymnasium, be handed into the secretary of the S. R. C. by today. For each large event the student policeman will receive two dollars, and, for smaller ones, less. Permission was granted to the Ladies' Basketball team to travel by train instead of by boat to Wolfville. Money to cover the extra expense incurred.
