Vol. 62. No. 1

WELCOME

The Brunswickan joins with other organizations on the campus in extending a cordial welcome to all new students of the University. Although the war has changed the environment of the University somewhat, yet all the campus organizations are expected to be functioning this year with as much if not more vigour than in the past. Notices of the meetings are posted in advance on the bulletin boards in the Arts Building and the freshmen should pay particular heed to these notices and so become acquainted with the various societies at their initial meetings.

We are glad to see such a large freshman class. Of the total registration you, the new students, are one of the largest to ever register at the University.

Athletics are to be carried on as last year, and it is to be hoped that such a large class will respond to the appeal of President MacKenzie to participate in sports as much as possible.

May you make the best use of the present and gird yourselves for the inevitable struggle to come.

Faculty

Simultaneously the Brunswickan, on behalf of the student body takes great pleasure in welcoming to the University five new faculty members. Prof. MacPherson, a man of wide training and experience, comes from the University of Toronto to fill the vacancy created by the resignation of Prof. Burton S. Keirstead, who has joined the staff of McGill University.

A brilliant man and former graduate, Dr. Habeeb returns to fill the vacancy in Physics caused by Dr. MacLaughlan, who has gone to Mount Allison.

Another former graduate Miss MacBride returns to take over some of the courses given by Dr. William S. Hoar in Biology. This same department is to be strengthened by a local citizen, will act in the capacity of assistant in Education and Physiology.

We wish you every success in your appointments and hope that you will enjoy the confidence of all.

R. C. A. F.

No salutation would be complete without a word of welcome on behalf of the student body to members of the Royal Canadian Air Force. Students are proud to have the opportunity of sharing its educational facilities—but not initiation ceremonies—with the men of the Air Force.

However we hope your stay on the campus will be a pleasant one and that when you leave you will be imbued with a greater knowledge of radio technology.

Improvements

During the summer months considerable improvements have been made in the Arts Building on the walls and woodwork of the main hall-ways. We feel this has been a much needed improvement. Although placing of the bulletin boards in the narrow part of the hall-

U. A. T. C.

The students have at last been granted the opportunity to train in two branches of the armed forces. This plan has been followed in many large Canadian universities such as McGill, for quite some time and already squadrons are well advanced in training.

All students should realize the great opportunity that is made available to qualify for appointment to a commission in the Royal Canadian Air Force in such branches as Medicine, Radio, Signals, Air Navigation, Aeronautical Engineering or Armament.

For those interested in aircrew, students will be able to evade Manning Depot and Initial Training School.

While not discouraging C.O.T.C. we advise those who have definite intention of joining this branch of the service to think twice before Not enlisting in the U.A.T.C. Why should a person who plans to join the R.C.A.F. upon the completion of his course spend his time training in the C.O.T.C.? He can save his country time and money. We also urge anyone who has definite plans to join the army to remain in the C.O.T.C.

New Insurance

The Students' Representative Council is making a special effort to introduce to the students, accident insurance. We understand that this insurance covers any accident or injury which might be sustained or incurred by the bearer of the policy during the academic year. Not only does this provide protection while at college but also on the way to and from home during the college year. The insurance covers more than this. The student will be reimbursed if he sustains an injury at home during such vacations as Christmas and Easter.

To the freshmen the policy might seem strange yet the plan was tried in a limited way last year. A small number invested and a few of these were well rewarded. The remainder of the students ignored it and some were unfortunate enough to be confronted with the problem of paying large doctor bills.

To those who are interested in playing in a rough sport nothing better could be offered. You never know at what time some serious injury may happen to you. The premium is exceptionally low considering that the reimbursement is so high especially for co-eds.

Because of a reasonable premium, a correspondingly high reimbursement, and an opportunity for claim for accidents or injuries received anywhere the Brunswickan wholeheartedly supports the plan and hopes for a large number of policy holders.

way tends to block the passageway we see another advantage in that it removes the ugly looking appearance of the bulletins from the main walls of the hallway. The painting of the woodwork and walls has added a better touch to the hallway. In the basement is to be found another improvement—that of the lockers. Of a neater appearance and sturdier construction than the old ones, the lockers should provide a better place to leave coats etc.

The parking space in the past in front of the Gymnasium has been in a deplorable state. We are glad to know that the ground is being levelled off and a proper place made for parking cars. In the past it has been exceptionally difficult for those attending dances etc. to find convenient parking space but in the ensuing years this difficulty will be much alleviated.

We understand this grading is part of a major innovation to the campus in general as soon as it is possible to obtain labour and materials.

"Sitting this one out?"
"Yes. Just waiting for a Sweet Cap!"

SWEET CAPORAL CIGARETTES

"The purest form in which tobacco can be smoked"

The Inquiring Reporter

WHAT DO YOU THINK OF THE FRESHETTES?

From a purely psychoanalytical point of view I think that they need advice. (phone 1407 ask for Jake)

HORACE JACOBSON

A couple of them look promising.

ROY WATT

There is a pretty low batting average there.

MICKEY MACKAY

I think they're as charming a bunch of girls as ever washed our dishes or cleaned our kitchen.

SHEILA LEMONT

Oh, they could bear watching.

EILEEN WRIGHT

Kind of cute, will improve with age.

JOYCE MAVOR

I wish the Sophettes would stop playing around with them and give us a chance.

BOB EVANS

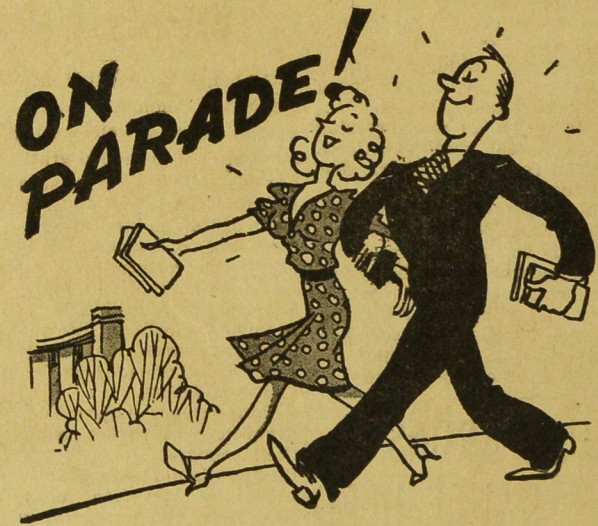

—(pause, deep thought?)— oh they're dandy.

JIM FETTES

Banknotes are said to be made from old shirts. We always wondered what happened to those we lost at the races.

What is a cynic?
A man who knows the price of everything and the value of nothing.

• MILITARY TERMS ILLUSTRATED •

ANOTHER term begins. New friends to be made and old friendships renewed; fresh avenues of study to be explored — another satisfying period of social contact and intellectual experience lies ahead.

If we can be of assistance to you during the present term, or in the future, we hope you will not hesitate to call and talk things over.

Students' Accounts Welcome!
