Ryan States Sports Outlook

M. I. A. U. to Meet In Near Future

"We have the material and the facilities to make this a banner year in U.N.B. athletics", stated H. R. Ryan, University Physical Director, in a Wednesday interview, "but the situation is clouded by probable stringent curtailment of most athletic activities".

HOWIE RYAN

Mr. Ryan said that the question of intercollegiate competition would be decided by the forthcoming M.I. A.U. meeting, and that our sports program must necessarily be modified according to the decisions reached by this conference. Restrictive measures similar to those taken last year are expected.

Regarding the proposed local Rugby league, Mr. Ryan said that although no definite arrangements had yet been made, there seemed strong possibility that a five or six team league might be created. The probable entries would be two squads representing the university, two more from the Military Training Centre, and one each from No. 7 District Depot and Fredericton High School.

"Whatever happens", declared Mr. Ryan in conclusion, "I feel that we can build this inter-company, inter-platoon sports rivalry, into an interesting and useful competition for C.O.T.C. members".

Lawyer: "When I was a boy my highest ambition was to be a pirate".

Client: "You're in luck.....It isn't every man who can realize the dream of his youth."

The case was one of assault, the magistrate eyed the prisoner sternly.

"You maintain that you threw your wife out of the second storey window through forgetfulness?" he asked.

"That's right your worship", returned the prisoner. "We used to live on the ground floor and I forgot we'd moved up".

University Wins Track Meet

Track and field stars of the Army, Navy and Air Force descended on College Field during Encaenia week to compete against University and High School athletes in the annual Initiation Track meet. Team honors went to the Red and Black squad, coached by Howie Ryan, a former ace trackster of Acadia University. The individual high scorer was Burton of the "Y" depot R.C.A.F., Moncton, an ex-member of the British Empire Games Club of Montreal, who led the way with victories in the high jump and pole vault, was second in the hop step and jump, third in the broad jump and anchored the R.C.A.F. relay team which ran second to U.N.B. His teammate, Brown, with a pair of firsts and a second was next. Bob McLaughlin, U.N.B. track manager, took time out from his official duties to capture the mile and half-mile runs, which gave him a third place tie in the individual standing. In winning the 880 yard run McLaughlin had to make a last ditch effort and barely nosed out teammate Stan Spicer at the tape. Frank Vangastel attached to the R.C.M.P. in Fredericton, scored impressively by taking first in the century and 440 yard dashes, with U.N.B.'s lanky Ed Mitton trailing him closely in both events. An unexpected entry was Jackie Cunningham, a former St. John High School track star, representing the R.C.N. V.R. He eked out a close verdict in the 220 yard dash over Brown, the highly rated R.C.A.F. performer and member of the last Canadian Olympic team.

U.N.B. had representatives in every event despite the short time for spring training and the pressure of examinations. The eight man team from the R.C.A.F. in Moncton showed up particularly well and chalked up four firsts, four seconds and a third. The No. 70 Canadian Army (Basic) Training Centre aggregation brought out a number of promising athletes and garnered three firsts and a trio of seconds and thirds. Fredericton High School and No. 7 District Depot both had teams entered in the meet, but were unable to get into the scoring column.

Summary:

100-yard dash: 1st heat—1. Vangastel; 2. Elgee; 2nd heat—1. Mitton; 2. Holmes; 3rd heat—1. McNair; 2. Sparks; 4th heat—1. Dosne; 2. Burton; final—1. Vangastel, R.C.M.P.; 2. Mitton, U.N.B.; 3. McNair, U.N.B. Time 10.8 seconds.

220-yard dash: 1st heat—1. Cunningham; 2nd heat—1. McNair; 3rd heat—1. Brown. Final—1. Cunningham. (Continued on Page Three)

A. A. A. President Makes Statement

BOB McLAUGHLIN

Bob McLaughlin, President of the U.N.B. Amateur Athletic Association, stated in an interview this week that the future of intercollegiate athletics was still rather obscure.

"It depends on the stand taken by the Maritime University authorities, and the decisions which will be reached at the forthcoming meeting of the M.I.A.U.", he explained.

"At the moment the picture looks somewhat similar to last year with each team being limited to a maximum of two games away from home, but", he added "if this ruling is relaxed, you can be sure that the A.A.A. will take advantage of it. As far as inter-class and intramural athletics are concerned we expect to make them even more successful than last year".

YANKS AGAIN?

By Joe

At the time of writing, the St. Louis Cards have practically clinched the National League pennant. Hailed as a "wonder team" after one of the most spectacular stretch drives in baseball's history, they must now subdue those terrible New York Yankees to achieve baseball's highest honor. Their chances of turning the trick are held very lightly by most observers and you really can't blame the skeptics. The Yanks have simply steamrollered the various N.L. champs in their last fine tries, and many fans assume that they will hand the Cards the same rough treatment. We'll go out on the limb with the prediction that this year's St. Louis outfit will put an end to this sequence of "no contest" world series. For the Cards alone among the National League clubs (as witness their teams of '31 and '34) seem to possess the faculty of calling their pennant drives into the series play. If nerves and muscles are not too far gone after their fierce struggle with the Dodgers, they may keep right on rolling into a World's Championship. We'll give you even money.

"Will you guarantee the upholstery of this car?" demanded the prospective purchaser.

"Madam", replied the salesman, "the proof of the padding is in the seating".

Football Prospects Seem Bright

U. N. B. Squashes All Opposition

Just in case you'd be interested, your correspondent has chronicled the athletic successes of the old school at summer camp. The most notable triumphs were scored by our smooth, hard-fighting softball squad which was recruited after a couple of inter-platoon games.

In the first contest, U.N.B. edged Woodstock High School, 19-17, on the latter's diamond, after a bitter struggle. The "High" boys ran up an early lead which was overcome by the long distance hitting of the college players.

A team representing the town of Woodstock were easy victims on the camp field in the second game, in which the C.O.T.C. outfit coasted in the third game, also played on in with a 15-run margin.

In the third game, also played on the camp grounds, the U.N.B. boys had to be good to win against the snappy Military Depot nine, erasing a seven-run deficit rolled up in the early innings and going on to win 28-17.

The next two games were played at the camp with the old enemy, Mt. A., while frenzied rooters of both sides cheered their favorites on to greater efforts.

In the first game the Hillmen seemed demoralized when they gave up nine runs to the jubilant Mounties in the first inning. They soon opened up with a blistering attack of their own, however, and in three innings the score read 10-9 for U.N.B. The Red and Black then ran up a commanding lead, but barely choked off a last-ditch. Mt. A. rally to emerge the winners in a thrilling struggle, 19-18.

The second game was U.N.B. all the way with pitcher Keays in fine form and the fielders playing airtight ball behind him. A smashing 20-7 triumph was the result.

Immediately after this contest which was played on our last evening in camp, the boys resumed their series with the Woodstock squad. Carrying their offensive over from the preceding game, they drove ten runs across the plate in the opening frame, then hung on to win, 20-14.

The salient feature of U.N.B.'s play in all these games was the ability to come from behind after spotting the opposition big early leads, and the old "college try" was always very much in evidence.

The team:
Aubrey Lewis did a superlative catching job and hit hard on occasion;

Larry Harris was our consistent first baseman;

Doug Rogers, scrappy second baseman, was club's power hitter;

Dave Stothart, sparkling shortstop, made many brilliant plays and seldom failed to hit in the clutch;

Large Number of Freshmen Turn Out

"Prospects for a strong university rugby team are very good. It looks like the sort of a team U.N.B. had in years gone by". So said coach Ryan after the third football practice on Wednesday afternoon.

About thirty men turned out at each of the Monday and Wednesday practices, while a smaller number were present on Saturday's workout. In addition to members of last year's team, several Freshmen from leading provincial high schools are making their bid for a place on this fall's varsity fifteen. Most of the newcomers are fast, rugged and experienced players, who will probably fill positions vacated by graduation and make the "regulars" step to hold their places.

Coach Ryan felt it too early to appraise the struggle of the team in the different departments, but said the squad would be strong in all positions when the final varsity selections are made.

George McClintock played a cool, steady game at third base and in right field sparking most of the comebacks with first or second-inning homers;

Stan Spiced, in left, was dependable at bat and afield;

Morrie McDade, centre fielder, saved the day several times with brilliant catches, and was always dangerous at the plate.

Gerry Lockhart alternated between third and second, played fast defensive ball;

Bryce Keays pitched four complete games and half of the first and last set-to's. Despite this overwork, Bryce was consistently good, reaching top form in the second Mt. A. game.

Chub Clark, Doug Simpson and Todi Willis were capable subs who gave fine service when called upon.

The book lover went to the bad place. "I'm very fond of Burns", he told Satan. He was cast into the fire. Satan remarked coolly, "You won't want to stay in there Long fellow. You're Browning now and before long you'll be Milton".
