

Dr. Mott

(Continued from Page One)

and as President of the World Alliance of the Y.M.C.A., he rendered a service of incalculable and abiding world value.

Thirteen books, which have commended a wide circulation, together with scores of other publications, dealing with religious, social, ethical and educational problems have come from his pen, and the most of these have been translated into several languages.

Within the last five or six years, Dr. Mott has journeyed extensively throughout Eastern Asia, Africa, and the Near East; and within the past three years, he has made no less than five trips to Latin America, covering the entire Southern Continent in conference with the religious leaders.

The Student Christian Movement in the Maritime colleges is fortunate in having this rare opportunity to meet the founder of the W.S.C.F. and one who has had and still has such vital contacts with future Christian leaders of all lands.

Dr. Mott will address the university during his stay at U.N.B. Also in attendance will be Mr. Hugh MacMillan, General Secretary of the S.C.M. in Canada.

Preliminary Budget

(Continued from Page One)

Basketball:

Transportation and meals are to be itemized and presented at the next meeting. A warm discussion about sweat shirts livened the meeting.

A.A.A.:

Inter-class crests and shields explained.

She: "Why in the world did women take up knitting, anyway?"

He: "To give them something to think about while they are talking".

Work on Year Book

(Continued from Page One)

executives and/or teams as soon as possible after they have been chosen.

Jack Turnbull is the Photo Editor again. Already his pleas for pictures are being posted. The more pictures he gets, the more Hodge Podge pages. Last year, by resorting to everything short of murder the staff managed to obtain enough to make up fifteen pages in all, and it is hoped that this year the editors will have more. The success of the year book depends upon the amount of cooperation the staff gets from the student body. So let's have those pictures. If you haven't taken any yet, dust off the camera, and start taking snaps in your rooms, on the campus, at COTC.....anywhere.

Unless they are absolutely unprintable we will print them, and the more of your own snaps that are in the book, the more interesting your copy will be.

Last, but far from least, is the Business Manager, Frances Kitchen, who is responsible for the advertising, and all other financial arrangements. Her job is one of the most difficult, and most thankless, of them all, and here again the students generally can help by mentally resolving to get a copy this year, and in this manner help to make the bookkeeping of this issue more Black than Red.

Roughly, that's the setup. A team that must click as well as our Rugby Team clicked last Monday. But the members are all tops, and there is every sign that they will work together to produce what will be the best Year Book this Campus has ever had, and on looking through past issues, that's saying something.

Why does a horse hold his head down on Tuesday?

(Answer to this neck's weak)

Former Grad. Speaks

(Continued from Page One)

station CFNB now has its transmitter located at Lincoln, about four and one-half miles from the centre of the city.

"For better broadcasting", said Stan, "the antenna should be five-eighths the height of a wave length, but due to the great cost involved, CFNB could not erect such a tower. However with a tower 300 ft. high, ground waves can be picked up by local radios. Since this is the chief concern of the local station a 300 ft. tower was found to be high enough."

"Prices are tremendous for commercial broadcasting," he continued, "for a one hour programme over a large station the cost would be \$10,000."

"Radio stations today are in dire need of tubes. Because of this before the end of the war several of the smaller stations may have to close down", he said.

At the close of the meeting Herbert Loane moved that a vote of thanks be extended to Mr. Cassidy for his inspiring address.

Siesta in the Lab.

(Continued from Page Three)

view. Yes, yes, I see it! Lots of little circles with things wiggling in the centre? Oh—wrong again eh—Well in that case I'll just take a gander at Bill's sketch. He always was good at picture drawin' and with a little imagination you sure can turn out lively looking celery.

But look at the clock! Time I was out of this joint, but before I go I'm goin' to eat a hunk of this stuff. Oh boy, is this ever good—maybe I can swipe one more piece.....Got it!

Say, what's everyone lookin' at me so queerly for? You say the celery's been sitting in that slimy stuff all day? No, it can't be true, it can't be true, it can't be true—But it is! Oh.....OH.....I'm poisoned! Help, somebody, help.....

But every one had gone home.

Sporting Spotlight

(Continued from Page Four)

little action between the U.A.T.C. and C.O.T.C. In our opinion it would be a swell idea to have a little athletic competition between the two forces. It would start up a new interest in sport in the college and give many more a chance to enter into athletics. This will go hand in hand with Canada's War Policy of building up its young men so that when they join the armed forces they will be in A-1 physical condition. It is the hope of this column that such an inter force league will be set up for every sport U.N.B. students take part in.

A couple of short jottings and we will close for this week.

The campus of St. Frances Xavier has been in mourning for the past week due to the death of Butch Mury. An outstanding athlete, Butch came to his end in a tragic car accident. One of the most popular students on the campus, he was known and dreaded in all Maritime colleges due to his great performances in the field of sports. Many U.N.B. students join in this tribute to a great guy.

A word of praise is due Mount Allison's former track star, Don Norton. He joined the R.C.A.F. this summer and cleaned up in three events in the two all-Canadian service track meet held recently in Montreal and Halifax.

We note through Mt. A.'s campus paper, The Argosy, that they have on hand, another crackerjack football team. Well, so have we, and a couple of weeks' time will tell who's tops. The feature sports editor also expresses extreme confidence in Mt. A.'s hockey and basketball outlook.

Letters to the Editor

(Continued from Page Five)

Sincerity to know that co-eds can be very attractive also in the so-called "drab shades" of brown, black and navy blue. And have you all heard, this is the day and age of plenty, we can all go forth with our pockets oozing superfluous cash and just buy and buy and buy (flattering and smart fashions of course).

My dear author, is your guarantee of A.R.P. whistles, pushing, etc., in the Tuck Shop well backed up, have you carefully checked your assertions? Because if you have not (and I don't think you have)—be ware, for when we co-eds come teetering into that familiar place on our high heels and in our gala robes, we shall demand six, not five, men to fight over who buys our cokes. Furthermore you might ask these men to raise themselves out of the chairs they so doggedly and continually sit in, and this accomplished, tell them to offer their chairs to each and every co-ed who appears in the vicinity.

I shall not criticize the boys as the Feminine Advisor did, for after all, it is always up to the girls to take the lead, why we girls would not and could not think of asking the boys to do anything over-exerting or too drastic. No, no boys, wait until the co-eds put their best foot forward, then drag yourself along in our wake.

But why bother to go on explaining to "Sincerely Yours", why waste paper, pencil and valuable time? We, as co-eds, dress comfortably and quite smartly, perhaps not like a mannequin. We keep ourselves in good physical condition, perhaps not quite perfect. We have a great deal more college spirit than the men and we are as intelligent as the co-eds on any other campus. So, if our noble critic does not like us, we really shall not worry for we have no intentions of dashing off to clothe ourselves as he deems we should, nor of correcting that which needs no correction.

Sincerely yours,
B. D. '45.
