

COME ON RED! COME ON BLACK!

Rugby Team Shapes up As New Season Opens

As students once more wend their weary way to and fro across Queen Square they may cast a casual glance toward the old and sacred College Field. Once more the old battleground has come to life and amid whistles and shouts of "Scrum down" and the like, the pigskins can be seen floating majestically through the air back and forth across the broad expanse of our fine rugby field.

Let's wander over behind the fence and see what is going on there. It is not the old and sacred College Field, but a new one, not like football, but track practise. Don't be alarmed, my friends! This is football practise and then some. Before the actual scrimmages commence Howie Ryan puts his young hopefuls through a strenuous session of running and physical training each day. Let's stay around awhile and see what develops as the afternoon fades out. After the physical training we hear the familiar whistle and then the scrumage and backfield are split up for concentrated training. Let's follow the scrum up for a while. What goes here? Why, we have a brand new scrum shaping up this year. If we think back we realize that we no longer have the Mark, Bob McLaughlin, Bob Cole, Andy Anderson and Terry Dalton. However we see those old rocks O'Brien, Dohaney, Mackay and Doc Fleming staggering about backed by lots of new life such as Bev Boulton, Boog Young, Roy Finnegan, George Bond, Jack Wicks, Ed Wallace and many other very promising players. This year we are pleased to see that these lads are being watched by that very able man with the cigar in his mouth.

No, we are not referring to Winston Churchill this time, but none other than Shorty Clark. We all can say we are glad to see him back in action. As we look on, Shorty puts his boys through their paces with stress on dribbling and handling loose balls.

Now let's go to the other end of the field and see what Howie has in store for us. We don't notice so many new faces in the backfield. There goes our new captain and anchor man, Doug Simpson, backed by his brother Mouse, Ced McDiarmid, Eric Bell, Ed Reid plus many newcomers such as Jake Coveney, Jim Ross, and last but far from least Coot McNair. Say, we wonder who that guy is away back by the posts. Looking more closely we see that it is none other than our original stone wall defence, Stan Spicer. After watching for a while the general opinion is that Howie is going to produce another flawless backfield, even hindered by the loss of Arnie McAllister, Myers and Elgee.

As we stroll about we feel very confident with regard to our rugby team this year. Take it from us, students. Once more you are going to have a mighty fine team and we wonder as we leave the field how well you, the students, will back the gang this year. With such a fine record as our rugby teams have behind them we say to you the student body—"Get in the fight and back your team this year as never before." Remember it is only part of the game to have a team. Support is ever essential! So bring out your bands, cheering sections etc. and let's have a banner year in rugby Up the Hill.

Varsity to Meet Army At College Field Tomorrow

ATHLETE OF THE YEAR

Arnie McAllister '43, last spring finally realized his main ambition in sports, to win the Sir Frederick Williams Taylor Award. This award is given to the most outstanding athlete of the year. The judges could not have awarded the gold medal to any student more deserving than Arnie, who had for four years a most outstanding scholastic and athletic career.

Before giving a quick summary of Arnie's athletic achievements it might be said that he was a boy who got more out of his college career than at least ninety per cent of us do. He was the private hero of many and certainly could be taken as our model during our stay "up the hill".

To begin with Arnie came to us as a Beaverbrook from Sussex back in '39. He finished up four years of smart hockey with a bang by captaining last year's team. He played varsity football for two years and

ARNIE McALLISTER

won a track letter twice. This gave Arnie eight letters and coveted athletic distinction upon graduation.

Besides varsity sports he was a star in interclass basketball, a smart boxer, played badminton and squash. All this isn't bad for one fellow, but along with this he was a prominent member of many campus societies and president of the S.R.C.

Arnie, who was the class valedictorian, is now a pip wonder at Brockville where it is rumored he is doing very well. We wish him luck in everything he undertakes and thank him for the fine example of young manhood which he gave us while he attended U.N.B.

FRESHMAN RECEPTION
TONIGHT 8.30
SEE YOU THERE

Back and side go bare, go bare:
Both feet and hand go cold;
But belly, God send thee good ale
enough.

Whether it be new or old.
—John Still

AMBITION
I had ambition by which sin
The angles fell;
I climbed and, step by step, O Lord,
Ascended into Hell.

RYAN STATES ATHLETIC RESUME

HOWIE RYAN

On behalf of the Physical Department of the University, I would like to extend a sincere welcome to the class of '47. To you I say 'We are facing a crisis'. Clearly it is our plain duty to see that the emphasis is placed on physical preparedness for any emergencies. Physical and mental fitness should be our duty and our responsibility. What are you going to do about it? The greatest asset of any nation is the health of its citizens, and there is no more urgent problem facing this nation than its future manpower. If our man-power fails, then all else fails.

Adequate physical educational facilities, C.O.T.C., U.A.T.C., and Red Cross training offer every student the opportunity to do their part. But, you must cooperate. Remember we are at war—total war which demands an all-out effort on the part of every student on the campus.

Programmes of health, physical education and recreation in colleges make important and necessary contributions to health and physical fitness, and hence to life, in times of peace and war. It is recognized that these programmes lay the best foundation for physical fitness and training upon which the armed forces build. With the present emergencies before us, and the number of armed force rejections, we must consider what the colleges should do in these areas of education.

We don't want dead heads—so get in there and do your part.

Athletics
U.N.B. looks to another exceptional year in Varsity, interclass and intramural sports. Football, the fall sport of the Maritimes, is well under way and some very promising games have been scheduled.

With badminton and handball at a minimum, stress will be placed on basketball (the major winter sport at U.N.B.) boxing, gymnastics and swimming. Compulsory C.O.T.C., U.A.T.C., co-ed gym classes and freshman swimming will also play an important role in the activity programme. As in the past we must keep alive the interest in team

This Year's Team In Good Shape

Tomorrow afternoon the Hillmen will make their initial appearance of the season when they stack up against No. 70 M.T.C. at College Field. From all reports the game should be a real command performance. This game will renew very strong competition between the two teams. In the past the red and black ruggers have quite regularly proven themselves more than a match for the boys from the army, but this year from all reports the army really has a rugby team. When the boys from Up the Hill hit the field tomorrow there will be a great many new faces in the lineup, so this opener will also be somewhat of a test for Howie Ryan's gang.

Little information is available regarding the probable army lineup but we can rest assured that they will produce once again this season a good, hard fighting fifteen.

Due to the fact that the U.N.B. aggregation is still being shifted about to iron out the rough spots, it will be difficult to issue any starting lineup. However there is always one way of finding out, so we would suggest that everyone come down to college field tomorrow afternoon.

This promises to be a very successful season on the rugby field for U.N.B. Coming up later will be games with R.A.F., Pennfield, H.M. C.S. Brunswick, Saint John and lastly of course the Mounties will be going on the black. Sounds like a pretty good schedule students, so let's have the whole-hearted support of everyone for tomorrow's grand opener.

Remember sports are for you. With your backing they will be a complete success. Without it! Well students I really think college would be a very dim place without any sport, in these days of war, when relaxation of some form is more essential than ever before. BACK THE ATTACK!

games because athletics participation is a normal way of developing physical fitness and social maturity and of educating young men and women for leadership.

Every student will have an opportunity for participation in some form of Athletics. So get into the swim now.

Sporting Spotlight

By Doc & Dave

Another college year has rolled around and many reliable faces are missing from the athletic picture. First of all, it's great to see so many former U.N.B.'ers back and also great to be able to extend a hearty welcome to so large a Freshman class. We look forward to seeing the class of '47 taking a prominent part in the athletics of future years and we know you will not let us down.

The preliminary budget meeting will probably take place next Wednesday. Watch the bulletin boards, Freshmen, and attend the meeting. After all, it's your money that's being spent. Go on up—give your opinion of certain matters and forever after hold your peace.

One of the big questions at the S.R.C. meeting will probably be: "Can Mr. Laskey take four boxers to the Boxing Meet in Halifax some time in November?" We'll not say much except we hope you'll back Mr. Laskey and give him a chance to show what our boys are made of. Charlie Bunker last year defeated the Maritime Champ in the tournament at the gym, so you see we've got the material here. Something new has been added, yes sir a smart boxer has come to wear the Red and Black this year. He's none other than Len Hooper, formerly of Prince of Wales College, P.E.I.

The Juniors and Seniors of U.N.B. remember Len from two years back when he put on the finest boxing exhibition of the tournament. Mr. Laskey's proposal is to take Len and Charlie along with two others to Halifax to represent the Red and Black in the tournament.Come
