

HERE ARE YOUR CANDIDATES - VOTE WED. MARCH 13

These Chosen by Acclamation For Ladies Society Executive

PRESIDENT

CHARLOTTE VANDINE

This year's candidate for president of the Ladies Society is one of our most popular juniors, Charlotte Vandine. An honour student in History and French, Charlotte still finds time for lots of extra-curricular activities. Dramatics has been her main field, winning the coveted Bailey Cup in her Freshman year for her portrayal of Penny in "You Can't Take It With You". In her Soph and Junior years she did equally well in the roles of "the nurse" in "The Man Who Came to Dinner" and of "Anny" in "Arcturion and Old Laces". Her executive ability has been well proved holding the positions of secretary-treasurer and vice-president of the Dramatic Society in her senior and third years, respectively. In her Soph year also she was secretary-treasurer of the Ladies Society and this year holds the vice-presidency of that organization as well as of the Senior Class. The Brunswickian has also come in for its share of attention. In her Soph year Charlotte started as a proof-reader and this year was promoted to feature editor and was appointed to the Managing Board.

VICE-PRESIDENT

BETTY PRICE

Betty came to us from F. H. S. with a brilliant scholastic record which almost two years of Varsity have not dimmed. As women can, and often do, she changed her mind, and this year we find her among the Arts students. As one of last year's Freshman representatives, and this year as secretary to the S. R. C., she has proved herself to be capable and efficient. Interested in all activities "top the hill", in the "Tones" Sanctum of the Reading Room, on the dance floor, or playing Co-Ed Baseball (in which she shared both last year and this). Betty is one of the best-known, and best-liked, of our Co-Eds.

SECRETARY

FRANCES GRAHAM

Our very efficient vice-president of the Freshman Class this year and the beloved president of the Freshettes is good-natured Frances, who came to us from Woodstock. She graduated from Woodstock High in '41 and after graduating from Varsity in '42, joined the G. W. A. C. and was stationed in Ottawa until September when she came here. We are very fortunate in having such a president who takes us all under her wing and listens with sympathy to the troubles of all the Freshettes. Frances is a good sport, popular and well-liked by all and will certainly succeed in everything she does.

SENIOR DANCE HELD SAT.

The Seniors played host to hundreds of basketball fans at their dance held in the Gym last Saturday evening, bringing to a climax an exciting week-end.

Bobby-soxers and her cats from all corners of the province danced to music of the Merry-makers. Frequently interrupting the same were would-be enthusiastic yells for "Our High School".

A terrific crowd jammed the gym on the main floor, in the corridors and on the balconies, and broad were the smiles on the countenances of all the Seniors present as they watched the sheikhs roll in, and thought of the dreamily to the Senior Dinner which they sheikhs were going to buy. In charge of the sheikhs were Frank Horan, John Scott, Mac Mercereau and Bernie Hargrove, and so large was the crowd that the sheikhs had to be disposed of all the time they had. Stephen High's emblem was torn into small pieces by the time they reached the dance floor. The sheikhs were Bob Dyer and Tony Pellegriani, and an efficient job they did. Both sheikhs and sheikhs were in the able at the dance set up in one corner of the floor, and they went to work. The sheikhs were General Charles Weyman did a great job, and the sheikhs were the visiting high school students grand-windup to a grand tourney.

ALEX. BAPTIST

Alex. started "Up the Hill" in the fall of '43 and at once made "Varsity Hockey", where he was a valued player. Besides taking part in hockey, Alex was also on the Boxing team. In '41 and '42 he was rink manager and again took an active part in hockey and boxing. After the '43 term of '45 he joined the R. C. E. from which corps he has received his discharge. Alex, has distinguished himself by his blonde contribution to the library staff.

DAVE STOTHART

Dave came to U. N. B. in the fall of '41 as a Beaverbrook from Halifax, Nova Scotia, and has since taken a keen interest in both class and athletic activities. In his sophomore year he was class representative on the S. R. C. and vice-president of the A. A. A. but due to his enlisting in the R. C. A. F. did not

VICE-PRESIDENT

VERNON COPP

Vernon Copp, who came to U. N. B. last fall as a freshman from Saint John High, is the lone nominee for the vice-presidency of the A. A. A.

He has had broad experience in both athletics and club organization. In High School Vernon was a member of the football and track teams. He was president of the H. H. A. and vice-president in the A. H. C. and on a V. M. C. A. basketball team. Since entering U. N. B. he has taken a keen interest in campus organizations becoming assistant manager of the football team, a member of the U. V. and a boxing enthusiast. In addition Vern is a supporter of the S. R. C. and Arts Society, and is taking a Pre-Law Course in Arts.

Vern with his experience and enthusiasm will make a fine vice-president for the A. A. A.

Girls without principle draw considerable interest.

I had sworn to be a bachelor. She had sworn to be a bride. But I guess you know the answer.

(She had nature on her side.)

.....

"What do you mean I have baby hands?"

"They're just beginning to creep."

SECRETARY

JOHN FAULKNER

Introducing John Faulkner an Upper Canada lad from Ottawa. John is one of the many fellows who served with the Royal Canadian Air Force who can now be seen about the campus. He spent three and a half years in the service two of them in England and on the Continent as a pilot. Returning to Canada in August of last year he decided that the open spaces were for him. As a first year man in forestry he won his letter in Football last fall. During the cold weather he plays basketball and is now a member of the Senior Varsity team. From the record in his first year we may conclude that John is quite an athlete and deserves your full consideration when you select your next year's secretary of the A. A. A.

A love affair should be like a cigarette—mild but satisfying.

It is sweeter to be remorseful over past sins than regretful over lost opportunity.

.....

Tight clothing doesn't stop a girl's circulation, it increases it.

For S. R. C. President

ERIC TEED

Who on the campus hasn't heard of Eric Teed? With the possible exception of some of the students of Alexander it is pretty nearly certain that at some time or other in the course of your lives you've had your eye on Eric. He is one of those who have run across E.T. or some of his work. The Sophomore classes memory of him may not be pleasant because of the effort he put into their initiation. But now they have to admit it was all fun, and they would have done the same or worse if they had the chance.

Eric's interest in and knowledge of extra-curricular activities cannot be doubted if one reviews his record. His diversity of interests in all his years at U. N. B. has been far above average. In his freshman year he was one of its early members of the U. Y. and for his work with them he has been made a charter member.

In his sophomore year his interests broadened. He was an active member of the Pre-Medical Society and of the War Effort committee. He was also a member of the Brunswickian and an active member of the Chess Club.

During Junior Year the scope of activities broadened still further. It was this year also that he participated actively in student politics. At present he is an S. R. C. representative of the Junior Class.

To mention some of the more important positions that Eric holds on the executive of campus groups: for instance, president of the Yelkies Society, president of the Chess Club, president of the U. N. B. R. A. A. secretary-treasurer of the Dramatic Society, and secretary of the International Relations Club. Along with all this he still finds time to be the Editor of the Brunswickian.

Looking over the record of this more than worthy young man, when he finds time to go to college, Eric's academic ability is not to be questioned. He is a Junior Science student specializing in Geology, and having done top notch marks in his courses. He is also a member of the S. R. C. and knows all the ins and outs of that organization and its constitution. He advocates several items which will make for a better and more efficient student government. These include better organization of sports; better cooperation with managers of teams;

One Of These For S. R. C. Vice President

DON DOYANER

One of the many members of the class of '42-43 of Saint John High School who came to U. N. B. is Don Doyaner known to some as "Bones". He is one of the boniest this year, and is well known member of the Junior Class. Academically Don is a Pre-Med student taking a keen interest in the Pre-Med Society. His extracurricular activities are many and varied being a member of the Science Club, the Dramatic Society, the Ski Club and the Bowling League.

Last year in the days when the war was on and the Red Cross was appealing for blood donors, Doyaner was an active member of the committee which organized the students for this service. He was to head the student committee in this direction again this year but these things have gone by the board we hope. He was one of the organizers of the new campus society the U. Y. Club.

EMERSON A. MOFFITT

Emerson is a Junior Science man majoring in Biology and says he has hopes for Medical School.

Em, as he is known, came to U. N. B. in 1942 from Madam High School where he was president of his class. In his Sophomore year he was assistant manager of the basketball team and played Varsity hockey as sub-goalie. Emerson also played interclass and intramural basketball for his three years "Up the Hill" before joining up in the First Air Arm, where he took a pilot's course.

Since he came to U. N. B. Murray has been a member of the Vets Club entertainment committee. Also he is a member of the H. H. C. committee of the Fredericton Branch Canadian Legion.

We can certainly see that Murray has plenty of executive ability behind him and really makes a success of everything he starts.

MURRAY D. SELLEY

Murray started "Up the Hill" in 1932. He enlisted in 1940 and served overseas with the R. C. A. F. as a navigator holding the rank of Flight Lieutenant. In September 1943 he was attached to the R. A. F. C. in Florida as instructor and Liaison Officer with the United States Navy. He also served with the R. A. F. Ferry command on the Trans-Atlantic route and was finally honourably discharged in September 1945.

Since he came to U. N. B. Murray has been a member of the Vets Club entertainment committee. Also he is a member of the H. H. C. committee of the Fredericton Branch Canadian Legion.

We can certainly see that Murray has plenty of executive ability behind him and really makes a success of everything he starts.

A. A. A. President Needed Other Positions Filled

Alex. Baptist is a Junior Science student specializing in Biology and says he has hopes for Medical School. He is one of the boniest this year, and is well known member of the Junior Class. Academically Alex is a Pre-Med student taking a keen interest in the Pre-Med Society. His extracurricular activities are many and varied being a member of the Science Club, the Dramatic Society, the Ski Club and the Bowling League.

Which One Can Handle Our Budget Best?

Another chap from the fog-bound city to the south is Eric Hale who knows among the Sophomore class, with a few others, a great deal about the S. R. C. He came to us from the class of '44 of Saint John High School.

Eric is an interested and active member of the S. R. C. serving as the Sophomore rep. He is also a member of the S. R. C. committee which is studying amendments to the constitution. His interest in student government did not start after he came to college. He served in high school as treasurer of the Athletic Association so you see that he is well qualified for the job.

As on athletics he has been a member of the Boxing team for the last two years.

He is also doing some work in the direction of securing some of us jobs as he is a member of the newly formed Employment Bureau.

HALF'S PLATFORM

Amendment of the existing S. R. C. constitution to allow for (A) the election of a Treasurer and (B) the election of a Secretary. (C) the election of a Treasurer and (D) the election of a Secretary.

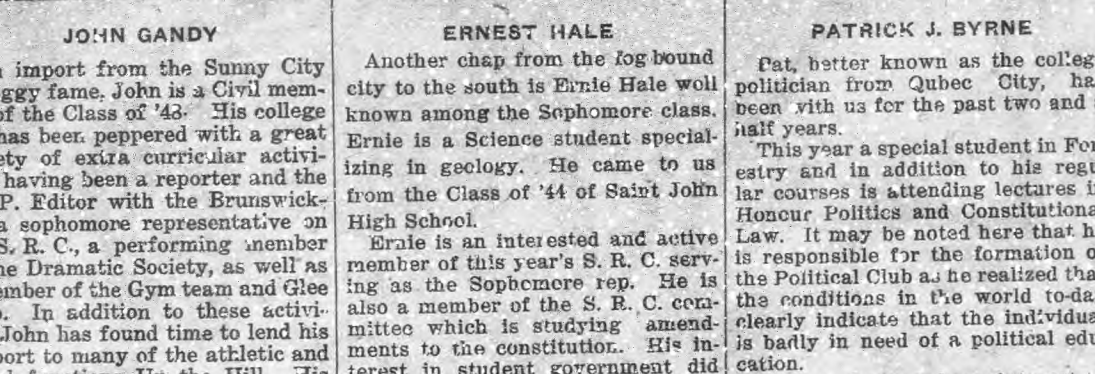

Establishment of permanent finance committee consisting of a member from each class and from Alexander College so that every student may have more to say regarding the spending of student levies.

Change or improvement of student's insurance.

Improvement of M. C. A. Committee.

More publicity regarding S. R. C. activities and consequently an endeavor may have more people to attend S. R. C. meetings.

The undersigned is (and will be) the coming year in a very hearty support of any improvements which will lead to a more efficient, systematic and democratic form of student government.

The undersigned is (and will be) the coming year in a very hearty support of any improvements which will lead to a more efficient, systematic and democratic form of student government.

For Council Secretary

KAY GOUGH

May we introduce to you one of our outstanding student leaders, Kay Gough, who is a Junior Science student specializing in Biology and says he has hopes for Medical School.

Kay is one of the boniest this year, and is well known member of the Junior Class. Academically Kay is a Pre-Med student taking a keen interest in the Pre-Med Society. His extracurricular activities are many and varied being a member of the Science Club, the Dramatic Society, the Ski Club and the Bowling League.

Last year in the days when the war was on and the Red Cross was appealing for blood donors, Kay was an active member of the committee which organized the students for this service. He was to head the student committee in this direction again this year but these things have gone by the board we hope. He was one of the organizers of the new campus society the U. Y. Club.

Stop - Press

U. N. B. lived up to all of our predictions in Sackville last night by winning over their old rivals, Mt. A. 38-25, in a very satisfactory result.

Halifax Navy looks good for Maritime Championship after walloping Saint John Beavers 5-1 in Saint John. Fredrick Chap took Bathurst to camp 7-4 in the second game, despite the clamour of Bathurst's management, before the series started that "we don't want the first game, anyway" ... make them R. B. Intermediates ... goes to show that U. N. B. had one of the best teams in province ... only Moncton and Saint John were too classy for them ... we stick to our guns as far as Saint John's ...

FRANCES BAIRASTO

Frances Bairausto comes from Fredericton High School where she was an outstanding student leader. During her high school days she was a member of the Student Association. Since her arrival at U. N. B. she has been an active student. She is a member of the U. N. B. R. A. A. committee and also playing for the Senior Varsity Basketball team. Her academic work is above par and her college future looks rosy from all sides, at least that's what Art Demers says.

DEAR DIARY - - -

OR
1946 + 20-OVERPROOF = 1966

(EDITOR'S NOTE)—It seems that George, in recording an emergency call to hurry immediately to the bed of a sick friend, arriving in no time with his canvas bag of flour and tomato juice he prescribes that it was another of the Soph. Engineers who had been out practising for the WASSAL. But this was a rather odd case. The poor "Suffering Soph" had indeed an acute attack of 20-overproof. His major symptom was the fact that he was living TWENTY years hence. It was this year in history that the Senate was finally decided on an improved method for travelling up the U. N. B. Hill. All the campus Engineers have been put to work on the great PROJECT. Even as George ("I am the single one") enters he finds his "suffering" friend (name upon request) busy recording in his diary Peeking over a drooping shoulder. George read the following account:

The great day in the history of the University had arrived, a emergency call to hurry immediately to the bed of a sick friend. Arriving in no time with his canvas bag of flour and tomato juice he prescribes that it was another of the Soph. Engineers who had been out practising for the WASSAL. But this was a rather odd case. The poor "Suffering Soph" had indeed an acute attack of 20-overproof. His major symptom was the fact that he was living TWENTY years hence. Arriving in no time with his canvas bag of flour and tomato juice he prescribes that it was another of the Soph. Engineers who had been out practising for the WASSAL. But this was a rather odd case. The poor "Suffering Soph" had indeed an acute attack of 20-overproof. His major symptom was the fact that he was living TWENTY years hence. It was this year in history that the Senate was finally decided on an improved method for travelling up the U. N. B. Hill. All the campus Engineers have been put to work on the great PROJECT. Even as George ("I am the single one") enters he finds his "suffering" friend (name upon request) busy recording in his diary Peeking over a drooping shoulder. George read the following account:

The great day in the history of the University had arrived, a emergency call to hurry immediately to the bed of a sick friend. Arriving in no time with his canvas bag of flour and tomato juice he prescribes that it was another of the Soph. Engineers who had been out practising for the WASSAL. But this was a rather odd case. The poor "Suffering Soph" had indeed an acute attack of 20-overproof. His major symptom was the fact that he was living TWENTY years hence.
