

A. M. & D.

(Continued from Page Seven)

this is definitely the case. This being said, the subject of manners can be dropped completely. The manners are sometimes dropped as well, but as I said, the subject is better dropped at this point. Censors, you know.

Now for the subject of morals. Really, to be quite frank, (Ed's Note: And from the foregoing, this girl is not Anne, but Frances) this topic is rather a difficult one. Shall I say then, that some Foresters have morals, and some have not. Since I cannot speak for the whole faculty, I am unable to give percentages and I refuse to give percentages on the basis of those Foresters with whom I have been associated. It might prove incriminating.

Let me say then, that Foresters have morals, just as they have manners — of a type all their own. Some have more than others. In fact, some even (like Aesop) tell stories involving them. So, enough said on the subject. Forestry forever, Amen.

"For Those Who Prefer Quality"

Foresters Hold Social

(Continued from Page One)
of two French Canadian poems by W. H. Drummond. (Note—Perhaps "Bud" has up and coming competition here.)

The most technical side of the program was handled by "Jersey" Babcock, who acted as projectionist for the evening. Mr. Babcock showed five very interesting films.

Last but not least was the tasty lunch which helped to fortify the Foresters, their wives, or girl friends, for the homeward trek.

Before concluding this article special mention must also be made of "Rorie" MacLeod who acted as master-of-ceremonies. No one could have performed the task with more efficiency. Congratulations are also in order to Bob Marston and Roger Bider, Freshman Foresters for their smooth handling of the coffee urn, sandwiches, and sugar cubes.

Foresters Hold

(continued from page one)
were called upon to express their views. Both of these gentlemen pointed out that the arguments had indicated that ownership in itself did not necessarily mean better care of our forest lands but that there are many other factors involved.

The Forestry Association is ex-

tremely grateful to Prof. Smith and Dean Gibson for their very generous help and cooperation.

How Paul

(Continued from Page One)

and the boys had work to do and he didn't want them to be away sliding down hills when there were trees to be felled.

So don't believe those stories about Igor what's his name... Paul Bunyan invented skiing. Ask anyone west of the Atlantic.

Foresters Give Most Blood at U.B.C.

VANCOUVER, (CUP) — Forestry students topped all other faculties in U.B.C.'s recent blood drive by donating 400 per cent of their quota. This was announced Wednesday when Red Cross officials released figures to The Ubysey.

Nurses at UBC ran second to foresters by donating 238 per cent and they were followed by engineers who gave 111 per cent. Despite their early lead arts students fell to fourth place by donating only 51 per cent of their quota.

Trailing the field were physical education students with 35 per cent and home economics students with seven per cent.

Part of the large crowd that attended the annual Fall Formal, high-point in the Campus autumn social calendar, held recently in the Lady Beaverbrook Gymnasium. The dance was one of the most successful to date, although the usual over-flow crowd was somewhat thinned. Music was supplied by Morris Watson's Orchestra, and the Gym was decked artfully for the event by the members of the Social Committee.

The Defence Research Board is

interested in students in the following fields:

- | | |
|---------------------------------|------------------------|
| Aeronautical Engineering | Geology |
| Aerophysics | Hydrodynamics |
| Bacteriology | Mathematics |
| Biochemistry | Maths & Physics |
| Biology | Mechanical Engineering |
| Chemistry | Metallurgy |
| Chemical Engineering | Meteorology |
| Civil Engineering | Physics |
| Climatology | Physiology |
| Economics and Political Science | Psychology |
| Electrical Engineering | Radio Physics |
| Electronics | Servo-mechanisms |
| Engineering Physics | Slavonic or Russian |
| Geography | Statistics |

The Defence Research Board is prepared to offer financial assistance to a limited number of high-ranking students who are completing their university training this year in the listed fields. A successful applicant will receive \$163 per month while attending university, and will be offered a position in his own field upon graduation. Preference will be given to students doing post-graduate work.

When a candidate is notified of the approval of his application he will also be advised of the grade, salary and location of the position he will take up after graduation. He will then be given the opportunity of accepting or rejecting the offer. Students accepted on this basis will be required to remain with the Board for a period of four years after graduation.

Upon selection, the assistance will be made retroactive to the date of application. Those who receive this assistance from the Defence Research Board may not accept DVA benefits or part-time employment with the university.

In addition to the above, 150 scientists are required for Research Development, Intelligence and Operational Research positions. The summer programme of the Board will be announced later.

Application forms may be obtained from the university placement officer.

Apply to: Director of Research Personnel, Defence Research Board, Department of National Defence, Ottawa, Ontario.

S.C.M. Selling Student Directory

One of the most valuable annual publications, the Students Telephone Directory made its appearance on the Campus this week. On Monday, with a minimum of fanfare, the priceless booklet went on sale at the same humble two bits per copy, and sales were going well at Brunswickan press time.

The Campus listing, published yearly by a Committee of the S.C.M., this year made up of Everett Smith and Joe Titus, includes in its information the names, home addresses and Fredericton addresses and phone numbers of all members of the students and faculty; campus phones; write-ups and lists of executives of campus societies, and other valuable data.

Sale of the directories is going on this week at the Library, the Observatory, and at the Tuck Shop on Albert Street. The number of copies printed this year is down about 100 from last years, but they are not scarce as a commodity. Students have been advised to avail themselves of the booklet while the open sale is on, however. S.C.M. officials point out that for the modest outlay of 25 cents, the service rendered by the booklet is more than compensation.

Mary Needler to Present Folk Records

A musical programme of special interest will be presented in the Art Centre, Sunday, December 3 at 8.30. Mary Needler will give a programme of folk music selected from her library of recordings. The programme will consist of French, Welsh, English, Scotch and German folk-songs. Miss Needler will

also give the commentaries. A special Christmas programme has been arranged for the last Sunday in the term.

The Philosophy of Life

He comes into the world without his consent, and goes out again against his own will.

When he is little the big girls kiss him; and when he is the big the little girls kiss him. If he is poor he is a bad manager; if he is rich, he is dishonest. If he needs credit, he can't get it. If he is prosperous everyone wants to do him a favor. If he is in politics, it is for graft; if he is out of politics he is no good to his country. If he doesn't give to charity, he is stingy cuss; if he does, it is for show. If he is religious he is a hypocrite; if he takes no interest in religion, he is a hardened sinner. If he gives affection, he is a soft specimen; if he cares for no one, he is cold blooded. If he is young there is a great future for him; if he lives to an old age, he missed his calling.

"If you save money, you're a grouch;

If you spent it, you're a loafer

If you get it, you're a grafter

If you don't get it, you're a bum—

So what the heck is the use.

"It's easier to have real harmony in the home when somebody is willing to play second fiddle," says The Star-Phoenix, Saskatoon.
