Viewpoint

A recent decision will allow students to sit on the Board of Governors. Do you think these students should be appointed by the SRC president or elected by the students? Why?

Bob Carr Arts 1

Elected by the students. The Board of Governors is an important one and I feel that the students of UNB should be allowed to make their own decision on who should sit on this board.

Rick Bowers C.S. 3

They should be elected by the students. One person should not have the authority to appoint them.

John DeWitt Teaching 4

Elected by the students. It's for the students so they should be elected by the students.

Wendy Green Arts 1

Elected by the students. The SRC president might be prejudiced and the students have to have some say in the government.

Deena Harris Phys. Ed. 2

Elected by the students. I think that if you do it by the student body you are going to get a better representative. The SRC president, by himself, could have a tendency to be prejudiced. I think you get a better variety of students if you let students make their own decision.

Les Sebastian Business 4

Students should elect who they want. It's for their benefit.

Chuck Crawford Science 3

Elected by the students.

Linda Simpson Arts 1

Elected by the students. The SRC could be biased and would not have all the students opinions.

Susan Butterfield Arts 3

They should be elected by the students since they will be representing the students.
