

CHSR will air Sept. 16?

By CHRIS J. ALLEN

Hopefully our campus radio station, CHSR, will go on the air by Sept. 16. Director Bill Akerley has informed the BRUNSWICKAN that about \$12,000 were spent this summer on installing new goodies in their studios, located in the SUB.

Their main expenditures consisted of a new production control room and new cables to all the residences. A second hand control board has been purchased for their new facilities and at the present time they are trying up all the loose ends before air time.

In the past CHSR has used the NBTel cables to send their programming into the residences. This summer they laid about seven miles of their own cables in the steam tunnels to replace the old system.

CHSR is presently awaiting word from the CRTC on their application for a Carrier Current License, which was filed

on July 18. In the meantime they are progressing in the installation of all the necessary equipment for such a change but at present they cannot operate this legally.
