

Welcome Back

The University of New Brunswick's reputation for excellence in teaching is a long-standing one. The use of technology in the courses we offer increases every year, and we are obligated to ensure that you become proficient in the use of these tools to prepare you for the future. A majority of professors expect assignments that are handed in for grading to be written and formatted in a clear and concise manner on a computer. Many professors also use Internet technology to post lecture notes, hold after class discussions and maintain a wealth of information of their own World Wide web sites or newsgroups. As a result, students must acquire a more sophisticated understanding of today's technology. With the knowledge and experience you develop over the course of your university education you will also gain the skills that will be necessary in your future career.

Though the University continues to make computer equipment available for student use in labs across campus, we recognize that it is impossible to make the most up-to-date hardware and software available to everyone at the moment they need it. Computer labs are often booked for instruction during the day and structured lab times are sometimes difficult to fit into your busy schedules. Long lineups at peak periods are not uncommon in public facilities and during these periods computer access is limited. Students with access to their own computers have a definite advantage over those using public facilities. If you do not have free and easy access to this technology you may be depriving yourself of some of the advantages your classmates have.

The Campus Computer Centre at the University Bookstore strives to negotiate aggressive pricing for computers that meet the recommendations of the university. The products we have to offer are guaranteed to meet the needs of today's busy students. As well, through the university's

Computer Sales Centre, I.T. Services department, and a host of other initiatives, the university as a whole offers a program of services that will ensure that your use of technology is as painless as possible.

Browse through this paper to discover some of the products and services we have to offer you. Visit our web page at www.unb.ca/bookstore/ to find the latest products and prices we have to offer. Drop by and visit us. Our staff is anxious to help you in any way we can.

Discounts on Microsoft Titles [Exclusively for UNB & STU Students]

We realize that certain software packages are vital to your educational needs, so, through Microsoft's Student Select Licensing Program, we are able to offer further discounts (beyond even the normal Educational Discounts) on Microsoft Office 2003 for Windows (Standard or Professional), Microsoft Office 2004 for Mac, and on the upgrade to Microsoft Windows XP Professional (the standard operating system supported on campus). See us to purchase your copy today.

Prices as of Summer 2004 (May be Subject to Change)	Commercial Price	Educational Price	UNB/STU Student Price
Office 2003 Professional	\$745.00	\$265.00	\$99.95
Office 2004 Mac	\$575.00	\$210.00	\$94.95
Windows XP Pro Upgrade	\$299.00	\$139.95	\$109.95

Also available: Microsoft Frontpage 2003, Microsoft Student 2006, Microsoft Project 2003 Standard, Microsoft Visio 2003 Standard, Microsoft Onenote 2003

Campus Retail Canada (CRC) is a non-profit collective of more than 30 university and college owned computer stores serving the needs of more than 1 million students and 100,000 teaching and support staff from coast to coast.

CRC members serve a computer retail market that is exclusive, dynamic and sophisticated. Customers are highly educated and technologically savvy, and their computer purchases are driven by one primary motivation—education. They rely on their campus computer store to do more than sell them a product. They demand experienced and knowledgeable staff who can identify their needs, provide sound advice and help them find a solution that's right for them.
