- 80GB 4200rpm Ultra ATA
- DVD+R Double Layer / DVD±RW Drive
- Memory Stick® media slot
- Microsoft® Windows® XP Home Edition

XBRITE™ Technology

The technology behind Sony's 15.4" Wide LCD XBRITE™ Display optimizes brightness, contrast, and viewing angle for superior picture quality while enhancing your overall viewing experience. With its redesigned multilayered glass panel, the XBRITE™ LCD allows more light to pass through, generating twice the light of a traditional LCD.

The contrast of the XBRITE™ LCD was also greatly enhanced, providing more vivid colour and image detail. The redesigned glass panel distributes light to all four corners of the screen evenly, letting you enjoy superb video at any viewing angle.

sophisticated power for all your needs

RB-Series

- Intel® Pentium® 4 Processor 3GHz with Intel® Hyper-Threading Technology
