## Horrorscopes: Purrfect predictions for the desensitized and disenchanting

by Ashley Sanford

**Aries:** Your secret is out, and your dirty laundry will be aired in public. Luckily for you, you'll be in the wrong place at the wrong time and will miss the whole sordid affair. Either way, your hands end up cleaner than they were a week ago.

**Taurus:** However your week starts, it will finish in the exact opposite manner, and you have no one to thank but yourself. Well, yourself and Karma, but you can't blame a cosmic force for that little indiscretion involving you and the car exhaust, now can you?

**Gemini:** One half of your personal-

ity will have an out of body experience, but, unfortunately, you won't know which one. Next time, maybe you'll think twice before eating that can of expired olives. Consider yourself warned.

**Cancer:** Your misogynistic impulses get the best of you. Your roommates won't understand, but they're beneath you anyway (stupid feminists). Try using your interpretative dance skills to explain yourself. If that doesn't work, nothing else will. Sorry.

**Capricorn:** If you feel like you're being watched, it's not just your imagination. Instead of ignoring those unseen eyes, I recommend leaving the lights on and the doors wide open. You still owe me \$40, and I know where you keep your house key anyway.

**Leo:** First it was imperialism, and then it was anime. Since everything you believe in lets you down eventually, try believing in nothing. It's not like you can believe in yourself or anything.

**Virgo:** Birds of a feather flock together, and your current situation is no exception. But remember: chickens can run just as fast with their heads cut off.

**Aquarius:** I hope your gag reflex is non-existent and your spice rack is full of variety because you'll be eating your words as entrée, main course and dessert sooner than you think. And I don't recommend taking them raw.

**Sagittarius:** People will tell you on three separate occasions that you remind them of someone else -- they

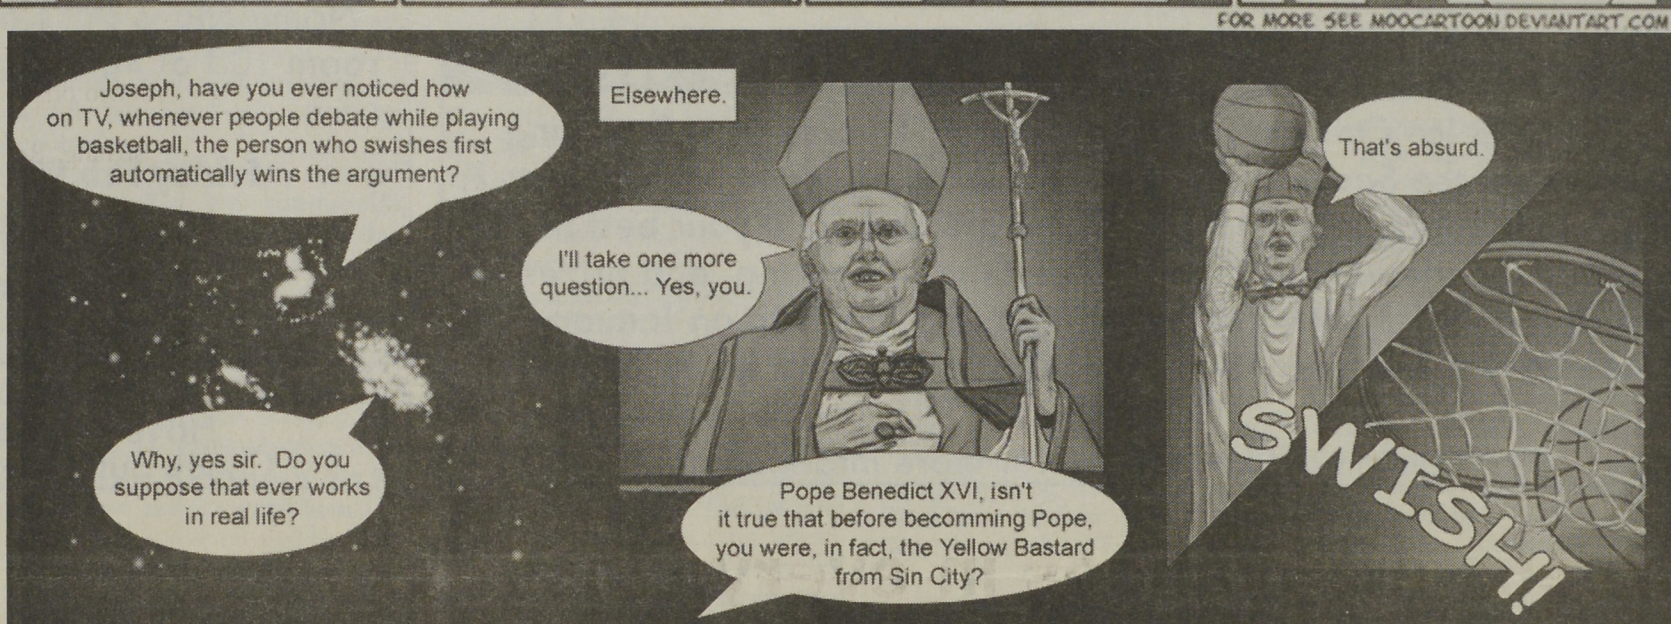

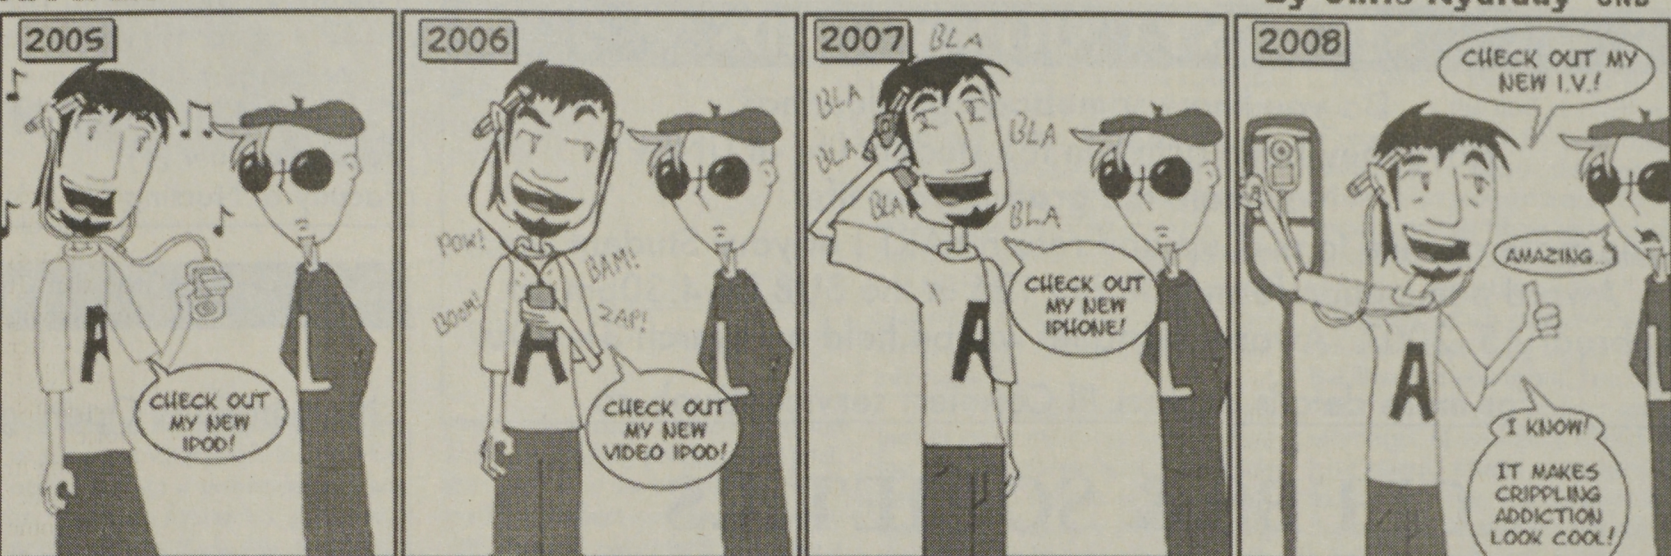

just can't think of whom. One of them is lying. It's your job to figure out why.

**Scorpio:** Someone you know, and quite possibly respect, has done you a huge injustice. The only answer is revenge. Start with the people who've seen you naked in last three weeks. And from what I hear, you better pack a lunch. This may take a while.

**Libra:** The only things I see in your immediate future are lots of intravenous drug use, violent sex, and a Danzig record on repeat, but this time I promise no cigarette burns. Come on, you used to love my parties.

**Pisces:** You should probably quit while you're ahead. As a matter of fact, I think you should pretend you never started in the first place. Legs just aren't made to bend that way. No matter how much yoga you do.
