The Student Union is YOUR Union. As your elected representative I will be your voice. I will be open to your input and listen to your opinions. I am willing to put aside my own views if necessary to better represent the views of my constituents.

I will work with the other members of the student union but will not be afraid to challenge and oppose motions that are not representative of the science faculty. I will make your Student Union work for you by dealing with issues that are relevant and important.

Make your voice heard.
