

SONS OF TEMPERANCE

TO THE RESUCE.

Lots of Work to do but
no money to carry
it out.

An Urgent Call to the
members to sustain
the S. of T. press
and assist
in

Distributing Temperance Literature.

A little money better
than a good deal of
sympathy.

We want more money and personal help on the part of the members to carry on this work we have undertaken in the interest of the Sons of Temperance.

We have been afraid the members would imagine we were publishing the JOURNAL for mercenary purposes and working for the order for the profits we could make out of the paper, and have not pressed for help as we should, and as a result we have been sinking hundreds of dollars yearly, and giving many hours of valuable time, which in our business has been equivalent to dollars and cents, to the work on the paper and writing letters to, and visiting branches of the order.

We are not in the least sorry for the time given or the money spent in the interests of the order, but we find we are hampered in carrying on the work for the lack of means—More money we must have for the work, and we cannot take it from our other business.

The field is too large, and the work too vast for our limited resources. We are giving weekly, hundreds of copies of the Sons of Temperance paper free to Grand W. P. & Grand Scribes and others, and are circulating thousands of circulars and doggers, all over the continent having special reference to the order.

We must advertise our order more with news-paper, circular and leaflet, and to do this those who have the good old order to heart must help us out with their means.

Oh! for a big-hearted, loyal and philanthropic member of the order who would come forward and say, "show me that you are in earnest in this work and I will help you to the extent of"—well! we will be modest—" \$100".

"One hundred dollars" you say "how far would that go." Brother! one hundred dollars will print ONE HUNDRED THOUSAND LEAFLETS, about the order! and how far will they go?

Two Hundred Dollars will put them among two hundred workers who will scatter them judiciously, where they will do the most good.

One Hundred Dollars would deliver into the hands of the members in any locality, TEN THOUSAND free copies of the TEMPERANCE JOURNAL, 8 pages brim full of the work the order is doing all over America.

Many members have not the time, or they may think they have not the opportunity to work in this temperance cause, or for the order, and they would prefer giving a little money to doing personal work, were they sure the money would go towards the right object. Any who decide to expend their offering in the way suggested above will be convinced that the money is going directly to inculcate the principles of Total Abstinence for the individual, and Total Prohibition for the state.

To carry out the work we have projected for the year will require \$5000. Shall the work stand still for lack of means to carry it on, brothers?

Every dollar will help us in the work to send out our temperance literature. If your heart is with us and you have a dollar or so in your pocket that seems to burn to do some good for those around you enthralled by the evils of drink, just write us and we will tell you some of our plans for building up the cause this year.

Baptist Convention and Our Temperance Work, &c.

DEAR EDITOR,—I need not tell you I enjoyed a peep into your "Sanctum Sanctorum," on my recent Convention visit, to your celestial city. It reminded the writer of the famed Saratoga, and the cure-all waters which we all seemed to so much enjoy. Can it be that your close proximity to the Convention influenced that body to take advanced ground on the temperance question? 'Tis affirmed that "mind operates on mind, even at a distance," and being near by them may have caused some affinity between the editorial brain, and the "wise acres" at the convention.

I am glad to report for the encouragement of your readers that this convention of Maritime Province Baptists, representing 44,000 church members, besides a large number of adherents,

1st. Appointed a large committee to report on the subject of Temperance, (of which the writer was pleased to be a member).

2nd. That they held a grand Temperance Mass Meeting on Sunday evening in the large City Hall, addressed by four of the ablest speakers and

3rd. That the Annual Convention sermon was on the subject of temperance, delivered by the Rev. J. E. Goucher (an old school mate of the writer's) who is one of the ablest preachers of the Convention. The subject was "The accursed thing in the camp."

It was voted to have the sermon printed in the organ of the body, also in the temperance papers of the Dominion, where possible.

Doubtless other religious bodies have taken, or will take, equally strong grounds along this line. My conviction is that if all the church members in the Dominion will unite with the determination to upset the liquor traffic, it would be as effectually accomplished as was the abolition of slavery in England and the United States.

May the "day-dawn" soon appear and this "death cloud" which has so long hung over Christian lands as a very death pall, be forever removed, and our long rum-bound captives go free.

The action of this Body means more than simple resolutions. It is high time christian voters demanded their rights.

Fraternally,
W. J. Gares.

Letter from Manitoba.

MR. EDITOR,—Year by year pass—We look over the world and see, "Licensed to sell Wine, Spirituous and Malt Liquors" on as many places, but not perhaps in the same locality as in years gone by. Why is this sir? For over forty long years have the old "Sons" been in the fight and yet to-day the battle rages. Why? For the same number of years have other branches of our Army been engaged along the line of battle and yet the sound of heavy firing is heard. Why is this? This battle seems to rage long and loud, but only those on our side fall. The enemy must have finers sharpshooters, better weapons, and more certain ammunition. Is this the reason? No! Our generals have failed. They seemed to have neglected the first principle of our warfare, viz: the destruction of the magazines. A fire-arm without a cartridge is of no use, but the complete destruction of cartridges and their places of manufacture render the use of all arms of the service of no use. This is so with us. In past years we have been content with the occupation of forts, places prohibiting the sale of liquor instead of direct marching on forts and arsenals and completely destroying them, or in other words, we have been chopping off the limbs of the tree and allowing it to remain in the ground to grow again next year. Or plainer yet, we have been dickering with laws prohibiting the local sale of liquor, while we should have been hammering at the foundations of the manufactories of the vile poison. As far as I can see, our past work has all to be gone over again, and this will continue to the end of the chapter, unless we prohibit the manufacture and importation of liquor.

Rest assured, sir, as long as liquor is made it will be sold. The only way to cut it off is to stop its manufacture. I don't see as a general

rule over this continent any general decrease in drunkenness. "Locally there may be, but generally there is not." Where then does our advance come in, we are yet in the same fort. The same enemy in front of us, the same unflinching fire poured on us, and we stand meekly inside and never make a raid on the magazines of the enemy, and blow them up. If we did, then we could get down to the bayonet charge—Moral Suasion—and route those whom we could not rescue or take prisoners. No sir, all this law business and of local option, Scott Act, etc., seems to hold us fast, seems to tie us up, seems to put us asleep on duty, and in the mean time the enemy recruits strength. Let us lay aside this past style of action and get right down to some general platform for the prohibition of the manufacture and importation of liquor. Don't accept anything else, don't be fooled by any more soft words as "this is a step towards what you want." "This is the edge of the wedge in," for often the wedge will fly out and a backward step is easily made. Surely from past experience we can see these half measures are no use and instead of wasting time and money on them in the future, we should strive for the only blockade to the traffic, viz: the cutting off of its supply.
