REPORT ON FIELD CROPS OF CANADA

Ottawa, Oct. 24—A bulletin issued today by the Census and Statistics Office covers the crop conditions in Canada for the month ending September 20. It states that during this month disastrously wet weather continued to prevail over most parts of Canada, especially over the provinces of Quebec, Ontario and Manitoba. At September 30 large areas of grain, both in the east and west, were still either uncut or were exposed to the wet in stook. Much damage has been caused by sprouting and in the northwest provinces second growth has in numerous instances caused uneven ripening and consequent lowering of grade. Frosts during September in those provinces did some damage, but as a rule only late sown crops including flax, were seriously affected. In parts of Southern Ontario the ground is so wet that many farmers have abandoned the sowing of fall wheat for next year.

The estimates of yield published a month ago could only be regarded as of preliminary value, because in consequence of the bad weather and late season harvesting operations had made so little progress.

The new estimates of yield obtained from correspondents at the end of September confirm generally the previous estimates for most of the crops, but inasmuch as very little threshing had been possible and large areas of grain were still unharvested, it is feared that the final estimates after completion of the threshing, may turn out lower than the figures now given.

For spring wheat the estimated production is 188,816,000 bushels as compared with 182,904,500 bushels last year. For fall wheat the estimate is 16,868,700 bushels compared with 26,014,000 bushels last year, the total estimated wheat production being therefore, 205,685,300 bushels, as compared with 215,918,500 bushels in 1911, a decrease of 5 per cent. The yield per acre is 21.08 bushels for all wheat as against 20.77 bushels last year. Oats show a total production of 381,502,000 bushels, compared with 348,585,000 bushels last year, the yield per acre being 41.31 bushels compared with 37.75. Barley is estimated to yield a total of 13,895,100 bushels compared with 10,361,000 bushels last year, the yield per acre being 31.00 bushels against 28.94. The total production of rye is 3,086,000 bushels against 2,668,800 in 1911, the yields per acre being respectively 20.75 and 17.41 bushels. Of oats, barley and rye increases in total production as compared with last year represent percentages of 9.8 and 15. The estimated production of peas is 4,202,400 bushels of beans 1,106,800 bushels, of buckwheat 10,924,100 bushels, of flaxseed 21,143,100 bushels, of mixed grains 17,940,900 bushels and of corn for husking 13,218,400 bushels.

The average quality of these crops at harvest time, measured upon a per cent. basis of 100 as representing grain well headed, well filled, well saved and unaffected to any appreciable extent by frost, rust, smut, etc. is as follows: spring wheat, 83.70; oats 86.01; barley 84.48; rye 80.82; peas 66.81; buckwheat 80.87; mixed grains 90.59; flaxseed 88.86 and corn for husking 71.92 per cent. Of these crops wheat, oats, barley and flaxseed are above, while peas, beans and corn for husking are below the average quality for either of the two previous years. Rye is slightly below the average. Flax is well above the quality of both 1911 (75 per cent.), and 1910 (73 per cent.).

Root crops continue to show excellent figures as representing average condition during growth. The highest are potatoes 90.12 per cent., and the lowest corn for fodder 80.63 per cent., the last named crop having improved by over 4 points during the month.

ARCHIBALD BLUE,
Chief Officer.

FIRST POLISH COLLEGE TO BE DEDICATED

Cambridge Springs, Pa., Oct. 24—Preparations are completed for the dedication, here tomorrow of the first National Alliance College, the first college of the Polish National Alliance established in the United States. The students of this college are from all parts of the United States and Canada are expected to attend the dedication exercises tomorrow and President Taft will be the guest of honor and the principal speaker at the great Polish-American demonstration which has been planned for this memorable occasion. The Polish National Alliance in this country has a total membership of more than 100,000 and branches in many States. The college to be dedicated here tomorrow is non-sectarian in its character and will be maintained by the united effort of the thousands of members of the Polish National Alliance.

Address: THE COOK MEDICINE CO., TORONTO, ONT. (formerly Windsor).

MR. ROBERT BARR DIES SUDDENLY

London, Oct. 24—Robert Barr, the well known novelist, short story writer and humorist, died suddenly Tuesday night of heart failure, at his home at Woldingham, in Surrey. He had been ill but his death was entirely unexpected.

Robert Barr was first and foremost a cosmopolitan. A Scotsman by birth a Canadian by early association, an American by emigration, an Englishman by long residence, and a man of the world by travel, he had seen more kinds of life than most men in the ranks of authorship today.

He was born in Glasgow on September 16, 1850, the eldest son of Robert Barr. He was brought to Canada by his parents when five years old, the family settling at Wallace-town, Ont.

He was educated at the Toronto Normal School, where he took a first-class certificate as a teacher. He became a schoolmaster in Toronto and later at Windsor, Ont., and remained in the teaching profession until 1876, the year of his marriage to Miss Eva Bennett, of Raleigh, Kent County, Ont.

Then he drifted into journalism and became a member of the editorial staff of The Detroit Free Press. Here he found his true sphere, and his humorous sketches, under the pen name of "Luke Sharp," made him known to a wide constituency all over the United States and Canada.

In 1881 he was selected to start an Old Country edition of The Free Press which proved a great success, and from that until now he has resided in London or its suburbs. He was thus brought into contact with many well-known British authors with all of whom his geniality and wit made him a favorite.

For some time he lived with Rudyard Kipling in chambers, and with Jerome K. Jerome he founded The Idler in 1892, from which he retired a few years later to devote himself to story-telling.

BOOSTING ARKANSAS

Little Rock, Ark., Oct. 24—"Arkansas on Wheels" a special train containing an elaborate display of the agricultural and industrial products of the entire State, left this city today for a two weeks' tour of the leading cities of Oklahoma, Tennessee, Indiana, Kansas, Missouri, Illinois and Kentucky.

CONFERENCE OF CANADIAN PRINTERS

Montreal, Oct. 24—The second annual conference of Canadian printers assembled in Montreal today with delegates from all of the Provinces and some of the large cities of the United States. The meeting will last two days and will be devoted to the discussion of numerous subjects relating to the printing industry.

THIS DATE IN HISTORY

1877—Sir James Henry Craig appointed governor of Canada.

1847—Rev. John Etienne Bazin consecrated third R.C. Bishop of Indianapolis.

1852—Daniel Webster the famous statesman, died at Marshfield, Mass. Born at Salisbury, N.H., Jan. 18, 1782.

1911—Ida Lewis, the famous keeper of the Lime Rock lighthouse, died at Newport, R.I. Born there in 1841.

DELICIOUS "SYRUP OF FIGS" CLEANS YOUR TORPID LIVER AND CONSTIPATED BOWELS

Gently Cleanses Your Stomach, Liver and Thirty Feet of Bowels of Sour Bile, Decaying Food, Gases and Clogged-up Waste Without Gripe or Nausea

If headachy, bilious, dizzy, tongue coated, stomach sour and full of gas, you belch undigested food and feel sick and miserable, it means that your liver is choked with sour bile and your thirty feet of bowels are clogged with effete waste matter not properly carried off. Constipation is worse than most folks believe. It means that this waste matter in the thirty feet of bowels decays into poisons, gases and acids and that these poisons are then sucked into the blood through the very ducts which suck only nourishment to sustain the body.

Most people dread physic. They think of castor oil, salts and cathartic pills. They shrink from the after effects—so they postpone the dose until they get sick; then they do this liver and bowel cleansing in a

heroic way—they have a bowel wash-day. That is all wrong. If you will take a teaspoonful of delicious Syrup of Figs tonight, you will never realize you have taken anything until morning, when all the poisonous matter, sour bile and clogged-up waste will be moved on and out of your system, thoroughly but gently—no gripping—no nausea—no weakness. Taking Syrup of Figs is a real pleasure. Don't think you are drugging yourself: it is composed entirely of luscious figs, senna and aromatics, and constant use cannot cause injury.

Ask your druggist for "Syrup of Figs and Exlixir of Senna," and look for the name, California Fig Syrup Company, on the label. This is the genuine—old reliable. Any other Fig Syrup offered as good should be refused with contempt. Don't be imposed upon.

LIVE GEESSE FOR THE BOSTON MARKET

(Moncton Transcript.)
Freight trains over the Intercolonial Railway from Point du Chene are carrying some pretty noisy freight these days. Live geese are being shipped from Prince Edward Island to the Boston market in great quantities. The birds are sent by steamer from Summerside in crates, and are loaded on freight cars at Point du Chene, each car being converted into a moving tenement capable of transporting five hundred or six hundred of the bipeds.

Point du Chene is a quiet place enough ordinarily but just now the silence is broken by a stupendous honking and hissing, and the din of a trainload of live geese may be better imagined than described. And the noise continues all along the route.

The geese are being shipped to Boston consigned to a syndicate that is handling poultry on an extensive scale. The birds are not killed at once, but are kept for a while and fattened until they are sufficiently succulent for the palates of American epicures. Raising geese is a profitable occupation with the prices now prevailing.

By the addition of small amounts of molybdenum and chromium a German chemist claims to have produced an acid proof iron alloy.

OCTOBER 25

1415—Henry V. of England, with about 9,000 men, defeated about 60,000 French at Agincourt.

1555—Charles V. abdicated as emperor of Germany.

1779—Washington's army set into winter quarters at Morristown, N. J.

1810—George III., of England completed the fiftieth year of his reign.

1819—First general assembly of Alabama convened at Huntsville.

1856—Luxembourg ceded to Prussia.

1854—Forty-seven persons died in a collision on the Great Western Railway of Canada, between Chatham and Detroit.

1856—Publication of the playody first time in Birmingham.

1869—William W. Jellicoe of Iowa appointed secretary of war.

1900—The first Briton formally annexed the Turks as a slave.

THE DIAZ FORCES ENGAGED IN BATTLE

Washington, Oct. 23—The battle between the rebel forces of General Felix Diaz and the Mexican Government forces under General Beltran Impending for several days began at Vera Cruz at six thirty this morning. Commander Hughes of the United States cruiser Des Moines called this information to the Naval Department today but gave no further details.

Motion pictures of American scenes, exhibited in Belgrade, have led to a demand for wearing apparel following American styles.

TO CONSUMPTIVES

And All Afflicted With Asthma, Bronchitis, Catarrh, Gripe, or any Lung or Throat trouble.

After suffering for years with a severe throat trouble which ran into Consumption, Rev. E. A. Wilson was cured by following plain rules of health and using Dr. Churchill's prescription. Wishing to help all sufferers he wrote, for free distribution, a full description of his trouble and the simple means he used to cure himself.

WILSON'S REMEDY (Dr. Churchill's prescription) has been doing its wonderful good work for over 40 years. It has been tried and proven, and is a household remedy in many, many homes to which it has brought health and happiness.

If you are suffering from any Lung or Throat trouble whatever, do not fail to give this invaluable remedy a trial. Send for Mr. Wilson's history of his own remarkable case which will be sent FREE, together with a \$1.00 package of the remedy, to all who write for it. Address: Wilson Remedy Co., Westwood, N.J., U.S.A.
