**WILL ACCEPT A CHALLENGE  
FOR MARITIME PROVINCES**

Ottawa, Jan. 15.—While no challenges are in to date for the Stanley Cup's possession, trustee Wm. Foran stated today as the maritime province league appeared to be an organization of senior calibre, a challenge from the winners of that organization for the trophy would be accepted. Both east and west coast leagues are expected to challenge soon. On the principle that a team challenging for the Stanley Cup has an equal share of consideration with the holders, a series between the British Columbia champions and the defenders of the N.H.A. which is virtually assured this season will be decided under the rules of the two leagues. "It would be unfair," said Mr. Foran for us to insist on the challenging team

abiding by all the rules of the league of the defending team and though Mr. Ross and myself have not discussed the point, I will suggest in the event of a series between the champions of the British Columbia League and the winners of the N.H.A. that one game be played under the rules on one league and the second code existing in the other league. In other words have one game with seven men and the other with six men and if a third is necessary, play it half and half." Mr. Foran scoffs at the idea that any "fixing" is going on in the N.H.A. games and attributes the reversal of form of the reputed crack teams to be due entirely to the six man game which he styles as spectacular but lacking in scientific features of the old game.

**NEW BRUNSWICK AT  
SPORTSMEN'S SHOW**

New York, Jan. 29.—The forests and streams of New Brunswick and Nova Scotia, their game and game fish and guides will have a strong representation in the 1912 Sportsmen's Show, which will open March 1st on Madison Square Garden. The New Brunswick provincial government will have space in the Garden and various organizations will be represented, including the New Brunswick Guides' Association, the Provincial Guides' Association and the New Brunswick and Fredericton Tourist Associations. The general supervision of the combined New Brunswick exhibit will be up to W. H. Allen of Penniac, N.B., one of the most experienced men in hunting, fishing and camp life in the province. The New Brunswick will receive the public and their New York friends in a typical log cabin, decorated with trophies of the chase and things will be made lively by an assortment of wild animals in captivity, including deer, bear cubs, porcupines, beaver, maybe mink, otter and sable which, in view of the prevailing price for furs, may have to be exhibited within steel cages. Some of the New Brunswickers will arrive in New York ahead of the Sportsmen's Show opening to attend the dinner on February 26th of the Canadian Camp at the Hotel Astor. The feasibility of having a live moose to roam over the artificial mountains on the big stage where the trap shooting and fly casting tournament will be held is being considered by enthusiastic New Brunswickers.

**MAY SETTLE DIFFICULTY.**

There is a prospect that the difficulty in the New Brunswick Hockey League may be settled and the Fredericton team play at Chatham tomorrow. Chatham is showing a tendency to reconsider their decision concerning Mike Murphy.

**FOLKS PAST FIFTY  
MUST USE CASCARETS**

What glasses are to weak eyes Cascarets are to weak bowels—a 10 cent box will truly amaze you

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.

**CAUSTIC COMMENT ON  
THE BORDEN BANQUET**

The Article was Prepared under a Wrong Impression and was Consigned to the Waste Basket—A Revised Version

The following is supposed to have been written a short time ago as an editorial for a well-known religious paper. The editor had not been well and is supposed to have written it under the impression that the Borden banquet, with its abundant booze, was tendered to Sir Frederick Borden. Hence the transports of righteous indignation of the unbiased doctor.

The error being discovered in time, the article was consigned to the waste-paper basket, where it was discovered by a printer's devil, with Grit leanings, who, needless to say, has since come under the axe.

"This wretched man, this apology for a politician, repudiated by the electors of his county, spurned by public opinion and driven out of public life by an indignant electorate, dares to hold publicly his orgies in the city of Halifax! Must we condone it because they must drown in deadly dope the grief for the graft that has gone forever from their grasp? Is there no respect in our land for law or decency? Not a man at that so-called banquet—Bacchanalian revel it ought to be called—protested against such disgusting defiance to decency, such shamelessness as has never been equalled since the rottenest day of Roman degeneration.

"Limpid water from the tap was not good enough for these thirsty Grits, who were probably using up their surplus corruption funds for this more diabolical purpose. Not content with wine (made in Canada, Pelee Island), the only alcoholic beverage sanctioned by Holy Writ, they must needs import champagne, a soul-destroying fluid not made under our glorious flag! (Oh, that flag!) The late government actually encouraged trade with France, the land of absinthe, atheism and race-suicide, and all because, forsooth, Laurier's loyalty was secretly pledged to that land to the prejudice of our great and glorious empire. They imported oceans of 'DeKuyper,' and rivers of 'Gin-Rickies,' clearly a Yankee abomination, brought in by Fielding or Pateron from Washington. But worse than all, they brought in 'John Collinses'—a gratuitous slap at the Orangemen of Ontario.

"One wonders that in the face of all this, there did not appear the 'hand-writing on the wall.' The secret of it is undoubtedly that they were already 'weighed in the balance and found wanting.'

The following was then probably prepared for the printer, but thrown aside as several in the office had seen the original:

"It would now appear that the reports in the newspapers concerning the Borden banquet were mostly 'moonshine.'

"The truth seems to be that a few bottles of fermented stuff were brought in by some late converts from the Liberal party. A reporter happened to smell their breath, but not being invited to irrigate, he tried to cast discredit upon the whole affair.

"The banquet was undoubtedly conducted in a most decorous manner and we have it on the word of the Hon. J. D. Hazen that there was much water in Halifax, a statement that any fair-minded man must accept. Indeed, we have no doubt but that buttermilk was the only other beverage served."

Mr. W. E. Brittain of St. John is among the commercial men in the city.
