EIGHT CENT MILK
CAUSING STORM OF
PROTEST IN CITY

Combine in Restraint of Trade Charged by Some—Aldermen Have Been Approached Re Matter—To Inform City Council

The proposition which has been made to the milk-consumers of the city that in future they pay eight cents per quart to the milk-dealers for milk has caused protest in various quarters and the most recent feature of the protest is the fact that the attention of various aldermen has been called to the matter. Individually the aldermen have stated that they can do nothing in regard to the matter, but have advised that the City Council have the situation placed before it in formal manner.

It seems doubtful, however, what action the City Council could take in regard to this as the matter appears to be outside the jurisdiction of that body. A combine in the restraint of trade is the name applied by some to the understanding on the part of milk-dealers to increase the price of milk. Even if the term is properly applied it is uncertain who can act toward breaking up the combine.

TRAVELLERS WERE ANGRY
ON ACCOUNT OF DELAY

About fifty passengers for Fredericton were compelled to wait at Fredericton Junction for the late train last night on account of the through train from St. John not being held at the Junction in order to connect with the Montreal train which was forty minutes late. Of that number about ten were commercial men and when they learned that the east-bound Boston express was an hour late and that they would have to wait for her arrival before leaving for Fredericton they were very, very angry and expressed their feelings by means of a telegram to Mr. W. B. Howard, district passenger agent of the C.P.R. These commercial men and the students returning to the Normal School and University after Thanksgiving Day, left St. John at 7.20 p.m. and did not reach Fredericton till 11.40 p.m.

Mr. F. J. McKenna of Montreal is in the city.
Mr. William Blake of Woodstock arrived in the city this morning.

FIRST MEETING
FOR FORMATION OF
NEW SOCIAL CLUB

Some of Those Interested Discussed Matters Last Night—Movement for New Organization Will be Continued

Those interested in the formation of a new social club in Fredericton held a meeting last night for the purpose of discussing the project. The meeting took place in the office of Dr. T. Carleton Allen, Registrar of the Supreme Court, instead of in the Bicycling & Boatong Club House as announced.

Among those present were Dr. T. Carleton Allen, J. J. F. Winslow, G. M. McDade, J. W. McCready, A. J. Gregory, T. S. Wilkinson and J. D. Black. Mr. Gregory acted as chairman and Mr. McDade as secretary.

Mr. J. J. F. Winslow stated to the meeting that the proposition was to purchase the Torrens building at the corner of Court House Square and Queen Street and place it in proper condition and failing that to rent rooms in the Burchill building at the corner of Regent and Queen streets. Discussion on the matter ensued and it was decided to have a meeting at a later date, the project to be pushed in the meantime.

It is understood that the purchase price of the Torrens building would be in the neighborhood of \$7000. The cost of placing the building in a proper state of repair would be about \$4500. It is also said that stock in the new club will be in shares worth \$100 and that an annual membership fee of twenty-five dollars is proposed.
