

SPRING Skin Troubles

Mothers who have used Zam-Buk know how it cures Spring Skin Troubles in Children or Adults. Mothers who have not yet tried it should note these facts:—Zam-Buk was unknown ten years ago, yet such is its merit that to-day it has become the standard salve in the homes of four continents! Zam-Buk is purely herbal; contains no poisonous coloring matter; is used by lending medical men; used in the British Army and Navy; used by all best fitted to know the needs of the skin. Make it your family balm!

Mr. J. C. Bates, of Burks Falls (Ont.), says:—"Zam-Buk cured my three children, who were all broken out in sores to such an extent that it was pitiable to see them. These sores had defied all remedies previously applied, but I am glad to say Zam-Buk healed them."

Miss S. G. Hamilton, of Alliston (Ont.), says:—"My face and hands were one mass of pimples and blotches. These would itch, and when rubbed, broke out into sores. Whenever I put water near the affected parts it caused a stinging sensation and much pain—just as if I had been scalded. Nothing that I applied seemed to do me any good until I tried Zam-Buk. That gave me relief, and a few weeks of the Zam-Buk treatment resulted in a perfect cure."

Zam-Buk cures pimples, skin eruptions, cuts, burns, bruises, bites, festering sores, ulcers, blood-poisoning, eczema, ringworm, bad leg, diseased ankles, and all skin diseases and injuries. Rubbed well into the parts affected, it cures neuralgia, rheumatism, and sciatica. All Druggists and Stores sell at 50c. box, three for \$1.25, or post free from Zam-Buk Co., Toronto, for price.

GOVERNMENT OF BROKEN PLEDGES DENOUNCED

(Continued from page two.)

A great deal of the attention of the House had been occupied with the consideration of agricultural problems but the real solution lay in giving a more extended market to the farmer. There were evidences of the advantages of Reciprocity on all sides and it was time the farmer was given his turn. The manufacturers had succeeded in defeating Reciprocity but the time would come when the farmer would receive the benefit of the free market. Potato raising was a great inducement to the farmer and if successfully carried on meant a great deal of money.

The farmers should raise sufficient wheat to supply their own demands. The old government had introduced an active policy in this regard and there was no reason why this government should not continue it.

AN UNWISE POLICY

The hon. gentlemen opposite did not say much about the minerals of the province. They had adopted a very unwise policy in regard to the Gloucester iron mines. The mines in value were greater than gold mines as there was a mountain of ore easily accessible. The government had reduced the royalty and this would be felt for two or three generations. They had also guaranteed bonds for the construction of a railway and had given the second largest water power in the province as well as valuable lands to the company. In doing this they had worked in the interest of the capitalists and against the common people.

The policy of the government in regard to the abandoned farms did not impress him as it could not be expected that immigrants would till successfully farms that had been abandoned. He was sorry to hear the remarks of his hon. friend from St. John that the French Acadian immigrant had settled along the International for the purpose of stealing the land. The French Acadians in his county are the most prosperous class of citizens and were working with the other settlers in bringing about successful farming.

OUR GAME RESOURCES

The province received a large revenue from the sale of the game licenses as the result of a policy of conservation inaugurated by

the old government. Canoe trips should be arranged by the government to advertise the province abroad, but every little brook or river had been sold out to some people who monopolized it. In one instance a trip on the Tobique River had been photographed and had been widely advertised.

Some people along the St. John River where moose had come out on wilderness lands, had desired exclusive rights to kill the big game on their lands.

Hon. Mr. Grimmer—You do not believe the government will grant the right.

Mr. Tweeddale—I hope they want.

Mr. Tweeddale continuing said that the old government had always stood for the preservation of the big game and there was no reason why special rights should be granted to anybody to destroy the moose. If such rights were granted and private game reserves established it would interfere materially with the business of the many guides. He read a resolution passed by the Victoria County Board of Trade expressing their disapproval of the endeavors to establish a game reserve.

If this government had had to administer the affairs of this province with the revenue no greater than that available to the old government there would have been an even sadder state of affairs than the hon. gentlemen opposite had alleged to exist under the old administration. If this government went out of power tonight the new administration coming in would have to bond a tremendous amount just on this government's operations last year. This government had inaugurated nothing new while the old government had left steel bridges, bonused wheat mills etc. as monuments to their administration.

The hon. gentlemen opposite had claimed that the agricultural department was in a state of dry rot when they came into power. If that was true the dry rot was still there for the production of the better factories, etc. showed no increase. In conclusion he would like to call the attention of the hon. Chief Commissioner to the fact that the steel bridge at Andover and other steel bridges were in need of painting.

President Ward of the Boston Nationals will perhaps take his Braves to Bermuda for the 1913 training.

Consolidation of Civic Bylaws Decided Upon

New City Council Holds First Regular Monthly Meeting--Acts of Legislature Affecting City also to be Consolidated--Residents of Waterloo Row want Granolithic Walks

The first regular monthly meeting of the present City Council was held last night and a large amount of important business was transacted. The consolidation of the city by-laws and of acts of legislature relating to the city was decided upon. The usual assessment as reported by the Finance Committee, was adopted, the amount being \$87,000, with the items as previously published. Two lengthy reports were heard with interest by a large number of citizens who were in attendance. One was from Ald. Calder on the introduction of the new book-keeping system in the city offices and the other was from Ald. Kitchen on the condition of the street lighting plant and the repairs to it already effected under the direction of Supt. Carr. Two petitions for the extension of sidewalks were received, the petitioners in one case offering to pay half the cost of granolithic pavement on Waterloo Row. The Roads and Streets Department will deal with the matter.

Among the spectators present were Messrs. R. B. Wallace, J. A. McKinnon, A. C. M. Lawson, R. T. Baird, H. P. Baird, F. D. Creed, E. A. McKay, Ex-Ald. F. W. Barbour, W. H. VanWart, Andrew Parsons, W. P. Porter, T. C. Doherty and Ex-Ald. Moses Mitchell.

Members of the Council present were His Worship Mayor Hooper, Ald. Ryan, Ald. Moore, Ald. Kitchen, Ald. Wilkinson, Ald. Burchill, Ald. O'Neill, Ald. Guthrie, Ald. Cruikshank, Ald. Calder and Ald. Jewett. The minutes of the preceding meeting were read.

AUDITOR'S REPORT.

The auditor's report of expenditures during the month was passed as follows:

Roads and Streets,	\$ 399.84
Fire,	128.13
City Hall,	136.91
Contingent,	146.66
Municipal Home,	16.25
Street Lighting,	928.28
Administration Justice,	67.23
Old Burying Ground,	10.00
Sewerage,	10.83
Water,	560.00

Total,

On the motion of Ald. Calder, the rules of order were adopted.

MUNICIPAL HOME.

Ald. Moore reported on behalf of the Municipal Home Committee and moved that a cheque for \$300 issue in favor of Commissioner R. H. Boone. The usual monthly salaries and allowances were voted on motion of Ald. Calder.

TAX COLLECTIONS.

Ald. Calder reported that tax collections for March 1912, showed an increase of \$754.61 over similar collections for March 1911. On motion the report was filed.

On motion of Ald. O'Neill, the Market Committee was authorized to sell the weigh scale fees at an upset price of not less than \$100.

On motion of Ald. Wilkinson, the Wharves Committee was authorized to sell the wharfage fees at an upset price of not less than \$400.

NEW BOOK-KEEPING SYSTEM.

Ald. Calder reported on behalf of the Finance Committee on the new book-keeping system which had been introduced in the city offices under the direction of Mr. A. S. Murray, C.A. He said that under the new system collections were to be made up to date as far as possible. A debenture book was also to be kept for the advantage not only of the citizens, but also of possible investors.

Ald. Guthrie congratulated Ald. Calder and Ald. Wilkinson on the introduction of the new system. He suggested that after the system was in working order a full statement of the city's finances be made. He also urged that a date for the completion of the printing of the city blue book, preferably before the date of civic election, be set in the printing contract.

Ald. Calder stated that the date to be used in the blue book for the past year had been prepared at an early date, but the city printer, Mr. Wm. M. Clark, had been prevented from getting it out even at the present date.

STREET LIGHTING

Ald. Kitchen on behalf of the Street Lighting Committee read the report of Supt. W. DeLaney Carr, on the repairs at the Street Lighting Plant, Carleton Street. The repairs to the

boilers and connected apparatus were reported on in detail. The engines were also reported upon an expert from the Robb Engineering Company being at present engaged in inspection and repair work. The newer engine was reported to be practically as good as ever. The belting was reported to have been renewed. It was recommended that the drainage of the boiler room be improved. The generators were reported to need extensive repairs. The roof of the coal shed was reported to be leaking badly. The street lines were reported to be dilapidated and many of the supporting poles so rotten as to be dangerous. The twelve miles of line will have to be gone over pole by pole. Thirty-two of the arc lights are reported to be antiquated type and in many cases to be able to be replaced with tungsten lamps with economy. Already tungsten lamps have been placed in the power houses with a resultant saving.

On motion the report was received and placed on file.

On motion of Ald. Burchill the annual report of the Sewerage Committee was received and ordered to be printed in the blue book.

ASSESSMENT ADOPTED

Ald. Calder reported on behalf of the Finance Committee on the annual assessment. He explained that it had been found impossible to keep the assessment lower than \$87,000. The Street Lighting Department had asked for \$3,000 for repairs, the Board of Trade for \$2,000 for publicity purposes, the Streets, Water and Fire Committees had asked for \$500 increase each, the School Board asked for \$1,000 extra to pay interest charges. It had been deemed

advisable to accede to all the requests.

The various items of the assessment were adopted as previously published.

PETITIONS RECEIVED

A petition from the Board of Trade praying for a grant for Publicity purposes was received and filed the prayer of the petition having already been granted.

A petition from residents of the city was received praying that Union Street be extended to Shore Street, that it be properly drained and provided with sidewalks between St. John and Church Streets and also asphalt sidewalks on Church Street be extended to Queens Square. The petition was referred to the Roads and Streets Committee.

A petition from residents of Waterloo Row praying that a concrete sidewalk be laid on that street was received, the petition offering to defray half the cost. The petition was referred to the Roads and Streets Committee.

Ald. Calder brought up the matter that the city bylaws were in a very chaotic condition, in fact were almost non-existent. He moved that the whole Council be appointed a committee to take into consideration this important matter and report back at the May meeting.

Seconding the motion Ald. Guthrie mentioned that the consolidation of all laws concerning the city passed by the Provincial Legislature was much needed. He suggested that such consolidation be accomplished and the legislature be asked to confirm it.

His suggestion was incorporated with Ald. Calder's motion which was carried.

Beyond Question

Some of the every-day beverages are harmful to heart nerves and digestion.

Mothers refuse tea and coffee to their children yet, by strange inconsistency, use these beverages themselves.

Sooner or later, according to the natural strength of the individual, ill results are sure to follow.

All the family can drink

POSTUM

with certainty of benefit.

The change from tea or coffee to Postum has brought health and comfort to thousands; and the delightful flavour of Postum (very like that of good Java) makes the change easy and pleasant.

SHOT THREE MEN, WILL BE SET FREE

Montreal, April 2—Carl Hemman, who early Sunday morning shot the three Chapman brothers when they attacked him in his room at the Savoy Hotel, will be given his freedom this afternoon and will likely be at liberty to leave the city this afternoon.

Two of the Chapmans are dying. At two o'clock this afternoon their condition was reported to be critical. In the ante mortem statements made by the dying men they admitted that they had been entirely at fault and that Hemman had shot only in self defence. Crown prosecutor Walsh was not satisfied however and yesterday afternoon he demanded that Hemman be held. This morning he examined the depositions and questioned several witnesses and declared that he would not oppose the move to free Hemmans in court this afternoon.

Manager Hank O'Day of the Cincinnati team has decided to cut out Sunday exhibition games for the Reds while in the East this season.

NEW FURNISHINGS HOUSE ON QUEEN ST.

H. J. Walker & Co. Begin Business
--Members of Firm Well Known and Popular

Messrs H. J. Walker & Co., have opened a men's furnishing establishment in the Walker building below C. H. Burt's grocery store on Queen street west and as this progressive firm recognizes the value of good advertising, space in this paper has been secured. Mr. Harold J. Walker the head of the new firm is a son of Ex-Alderman Joseph Walker and was for some years connected with the Royal Bank Staff. He has a good business training. Mr. B. B. Dykeman who will act as manager of the concern has had seventeen years of training in gentlemen's furnishings and dry goods lines and is a capable salesman. Both young men are very popular and should do a good trade. The store which is fitted with the most modern designs in silent salesmen and display windows, etc., is nicely painted and decorated throughout and is supplied with the very latest styles of men's goods, carefully selected from the leading American and European furnishing houses. An Easter opening will be held on Saturday afternoon and evening and following days to which Messrs Walker & Co., invite all their friends and the public generally. The new firm begins business under the most favorable auspices.

CANDLE SET FIRE TO COFFIN DRAPINGS

Thetford Mines, Que., April 2—While the body of ex-Mayor Lebourveau lay in the chamber of death with sorrowing friends gathered to pay a last tribute to the departed soul, suddenly the smell of something burning caused the bowed heads to rise, and to the sorrow of the assembled company, the rich hangings about the coffin were seen to be on fire. A little breeze had caused the flickering flame of a candle to veer too close to the fringed tapestry. The flames leaped up with a rapidity that was amazing. The people fled, the son however waited to seize the coffin, and carry it out of the inferno, which the room had become. He was severely burned in the act, but the coffin with its sacred remains, was safe. Everything else in the room was destroyed.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effective Monthly Regulator on which women can depend.
