IMMIGRATION CAMPAIGN BEGINS WITH ENTHUSIASM

(Continued from page one.)

Mr. A. B. Holyoke of Woodstock, said that Carleton County and Woodstock were willing to dip in their pockets to aid in a publicity campaign, but wished to reap a portion of the benefits.

Mr. Wm. Currie, M.P.P. for Restigouche, stated that he knew Canada from Prince Rupert to Sydney and was sure that New Brunswick was second to no province. He would advise any man thinking of leaving the province to stay right at home.

Mr. C. N. Vroom of St. Stephen, said he was pleased to hear the delegates from the various parts of the province "boosting" their own counties. The advantages of all sections should be fully advertised not only in the province, but elsewhere. He made particular reference to Charlotte County.

M. G. SIDDALL.

Mr. M. G. Siddall of Port Elgin, said that the New Brunswickers in the west were "boosters" for this province. Let them stay there, but bring back the boys from the United States. (Hear! Hear!) He issued a warning against indiscriminate immigration. The Londoner did not make a farmer but the Britanny French, the Dane and the Scandinavian did. Personally he thought the farmer in New Brunswick was being well treated but he hoped that the agricultural immigrants of the future would be better than those of the past few years. He had no desire to criticize the present government or its predecessor but nine out of every ten settlers brought out by them had been no good.

The resolution moved by Mr. McKenna and seconded by Mr. Butler, was as follows:

Resolved, That this congress desires to emphasize the necessity for greater publicity of the opportunities, resources and educational and social advantages of New Brunswick.

The resolution was referred to a committee.

BUSINESS MEN'S EXCURSIONS

Mr. C. Fred Chestnut of Fredericton speaking to the resolution upon the necessity for excursions from Ontario and Quebec to the Maritime Provinces said that the transportation companies would no doubt favor the proposition as it would mean increased revenue for them. Heretofore the tourist who had visited the Maritime Provinces had come from the New England or middle States. In the Upper Canadian Provinces great ignorance of conditions in New Brunswick had existed. Mr. Chestnut advocated the organization of Business Men's excursions in the cities of Quebec and Ontario for the purpose of visiting the Maritime Provinces.

T. C. L. KETCHUM

Seconding the resolution Mr. T. C. L. Ketchum, mayor of Woodstock, expressed the opinion that the railway time-table maps could be corrected with the result that the people of the upper provinces would become better acquainted with the geography of New Brunswick. The people of that section he was sorry to state were grossly ignorant of the Maritime Provinces.

time Provinces. Closing his remarks Mr. Ketchum made a plea for the attraction of immigrants of the artisan class as well as farmers.

Mr. James E. Porter of Andover made a plea for the inclusion of Victoria County particularly Grand Falls in the itinerary of such excursions.

The resolution was passed unanimously.

WM. STITT

Mr. Wm. Stitt, general passenger agent of the Canadian Pacific Railway devoted some attention to the question of the harvest excursions from the Maritime Provinces. In August last, said Mr. Stitt, only 1,500 left New Brunswick for the west. Seventy-five per cent. returned. Only three hundred located in the west. Government statistics showed that only 4,000 New Brunswickers were located in the Canadian West. It was the New England States that had taken the people. Fifty thousand New Brunswickers were living in New England. They were the ones to be attracted. If the government of this province were to purchase large tracts of land for settlement on easy terms to the settler New Brunswick could do as well as the western provinces.

Concerning Mr. Chestnut's suggestion for excursions from West to East Mr. Stitt said the C. P. R. had been running such excursions for twenty years. During December tickets for such excursions, good for three months were being issued at a rate on one cent or one-and-a-quarter cents per mile.

The New Brunswicker in the Canadian West was not lost to New Brunswick. They were raising the products which were shipped through the port of St. John for five months of the year. Those New Brunswickers in the United States were lost. The C. P. R. was doing every thing possible to attract trade to St. John.

Mr. R. E. Armstrong of St. Andrews suggested that the C. P. R. issue special rates in the summer.

Mr. Stitt said that such rates were in force.

GEORGE HAM

Mr. George Ham of the C. P. R. said that the congress seemed to be for the purpose of self-laudation. If New Brunswick wanted immigrants it should get out and hustle for them. The Maritime Provinces as a matter of fact had received more immigrants than it was thought,—13,000 in the last year as a matter of fact. His company twice sent him to New Brunswick on immigration work to interview governments. The result had not been encouraging. More recently a small grant for immigration purposes had been given by the provincial government.

The C. P. R. had been accused of drawing people from New Brunswick. What that really had done was to divert people who were leaving the province from the United States to Western Canada.

"I will say this however," said Mr. Ham, "the same thing that I said five years ago. The C. P. R. is heart and soul with the people of New Brunswick in immigration matters. (Applause.)"

The German government standard for filtered water is a maximum of 50 organisms per cubic centimetre, while American authorities seem to regard water containing 100 or less as reasonably safe. I may add that in over twenty examinations of our water supply carried out by myself during the last three years I have never found the bacterial content of the water so low as it has been during the present month. I have rarely found the count from top-water on gelatin to fall below 100 per cubic centimetre and frequently the number has reached several hundreds.

In addition to the total pollution tests referred to above I have made presumptive tests for B. Coli using aetose broth fermentation-tubes method as well as bitimus lactose plates. As you will observe on referring to the details of results the indications were in every case negative for B. Coli in tap-water. The two bitimus lactose agar plates were practically sterile a good indication showing an absence of organisms developing at body temperature.

Taking into account the whole series of observations in comparison with the usual standard of our own water-supply, the results indicate a satisfactory condition of Fredericton water from a bacteriological standpoint during the present month of February.

Respectfully submitted,
H. H. HAGERMAN.

LIBRARIANS AT ATLANTIC CITY

Atlantic City, N.J., March 8—The sixteenth annual convention of the Pennsylvania Library Club and the New Jersey Library Association began here today and will continue over tomorrow.

WOMEN IN ALL PARTS OF CANADA

Tell of the Health Dodd's Kidney Pills Bring

They made a new woman of Mrs. Elie Amiraault who was a victim of Kidney Disease for over a year

Amiraault's Hail, Yarmouth Co. N.S. March 8 (Special)—"Four boxes of Dodd's Kidney Pills made a new woman of me." Those are the words of Mrs. Elie Amiraault of this place. They are words that have been used again and again by women in all parts of Canada who have suffered and who have found relief and cure in Dodd's Kidney Pills.

"I suffered for over a year from kidney disease," Mrs. Amiraault continues. "Nothing I tried helped me. At last some one told me to try Dodd's Kidney Pills. Before I had finished the first box I felt better. Four boxes made a new woman of me."

No remedy ever given to the public has brought health and happiness into the lives of so many women as Dodd's Kidney Pills. This is because nine-tenths of the ills to which women are subject come from diseased kidneys. No woman who uses Dodd's Kidney Pills can have diseased kidneys. They always cure the kidneys.

THE DEBATE ON THE ADDRESS CONTINUED

(Continued from page one.)

Hon. Mr. Grimmer presented a petition in favor of a bill respecting the Maine Central Railroad.

Mr. Baxter presented a petition in favor of a bill regarding Trinity Church, St. John.

Mr. Copp gave notice of enquiry regarding the opening of a new highway in Kings County.

Mr. MacLachlan presented a petition in favor of a bill to enable Northumberland County to issue bonds.

Mr. Wilson presented a petition in favor of a bill to enable St. John City and County to issue debentures to pay for the extension of the General Public Hospital.

Mr. Bentley presented a petition in favor of a bill to amend the act relating to pedlars, so far as it relates to St. John City and County.

Mr. Wilson presented a petition in favor of a bill to fix the valuation of the property of T. S. Simms & Co. in St. John City and County.

Mr. Tweedale gave notice of enquiry regarding the position held by Mr. F. P. Robinson and as to payments made to him.

Mr. Currie gave notice of enquiry regarding the receipts from violations of the Liquor License Act.

On the order of the day being called, Hon. Mr. Flemming continued the debate on the address, replying to the criticism of Mr. Copp. He made a lame attempt to justify the huge deficit of \$56,000 on the year's operations of the government and accused the old government of mal-administration.

The premier was followed by Mr. Bentley, who delivered an able address, in which he sharply criticized the policy of the administration.

MCVEY AND BARRY TO BATTLE

Sydney, N.S.W., March 8—The first of a series of elimination bouts between the heavyweights now in Australia to decide who shall have the privilege of meeting Jack Johnson for the world's championship, will be fought here tomorrow, when Sam McVey, the big Californian, and Jim Barry, the Chicago heavyweight, will meet in a 25-round go. The winner of the bout will meet Sam Langford here next month and the victor in that event will challenge Johnson.

RELIGIOUS EDUCATORS TO MEET

St. Louis, Mo., March 8—The local committee has everything in readiness for the entertainment of the ninth annual convention of the Religious Education Association, which is to meet in this city next week for a session of four days. The attendance at the meeting will include several hundred of the foremost clergymen and educators in the country. The Rev. Dr. James H. Kirkland, chancellor of Vanderbilt University, will preside.

New York is looking forward to a new stock company to present musical comedies and musical plays.

There is no industry in this country which is producing greater returns for the amount of capital involved than agriculture; there is no class of men which is saving more money at the present time than farmers.—Chatham Commercial.

There is a good deal of truth in what the editor of the Commercial says, and this makes it all the more difficult to understand what he was thinking about when he abandoned the farm for the editorial chair.
