Fredericton, N. B., April 4, 1912.

MR. COPP'S SPEECH

The Opposition forces in the House of Assembly have every reason to be proud of their talented leader, Mr. Arthur B. Copp. Although a comparatively young man Mr. Copp has had a long experience in the field of politics, and he is easily one of the ablest men in provincial public life. A man of untiring energy, with an unchallengeable record he is more than making good in his capacity of leader of His Majesty's Loyal Opposition and his followers are devoted to him and have every confidence that he will before many months have passed be called upon to lead the government of this province.

Mr. Copp's speech on the budget debate, commenced on Tuesday and continued last evening, was easily the most forcible and comprehensive deliverance the Legislature has listened to during the present session. He was in splendid form and made a crushing exposure of the incompetency and reckless extravagance of the present administration. He was able to show from the public records that the present ministry which went into power pledged to economy, had violated in the most flagrant manner every promise made to the electorate. In spite of greatly increased revenue which was due to no special effort on their part, they have increased the ordinary expenditure by over \$400,000 and have added over a million dollars to the public debt of the province. He quoted from the utterances of members of the government when in opposition to show that they then believed or pretended to believe that the province was on the verge of bankruptcy. If that was the case five years ago, how much worse is the condition of affairs to-day?

Mr. Copp was particularly effective in dealing with the increase of territorial revenue for which the government claims so much credit. If this is due to an honest collection of the stumpage and not to an increased lumber cut as the members of the government contend, then why, Mr. Copp asks, was not an honest collection made in the years 1908, 1909 and 1910? When the receipts were very much less than they were in 1911? The increase in 1911 over 1910 was \$37,318; it was \$130,936 greater than in 1909, and \$176,264 in excess of the receipts of 1908. The present government was in control during that period and why didn't they collect the full stumpage in 1908, 1909 and 1910. It is up to Premier Flemming to furnish a satisfactory answer to this question or admit what everybody knows to be a fact that the increase is due to a large lumber cut on the crown lands of the province.

A careful study of the array of facts so clearly set forth by the Opposition leader must convince all reasonable men that the present administration have forfeited whatever claim they may have once had to the public confidence and that the time has arrived for a change.

New Brunswick's share of the grant which the Borden government proposed to make in aid of highways would have been about \$45,000. The senate killed this bill and they also gave the quietus to another which proposed to pay the Ontario government \$2,000,000 as a subsidy for the Temiskaming Railway which has been in operation for a number of years. New Brunswick's share of this gift would have been \$100,000. As a result of the action of the senate, therefore this province has been saved the sum of \$75,000.

Premier Flemming has gone into the affidavit business in an effort to prove that a government official did not act as a "puffer" at the recent sale of fishing leases. In the House yesterday he read affidavits from two government officials who admitted that they had attended the sale but denied that they did any puffing. As the two officials in question are generally supposed to be running the government and are tarred with the same stick, there is ample justification for anybody falling into an error of mistaking one for the other as may have been the case of the fishing sale. The parties who bought the lease at an advance of \$110 are thoroughly satisfied that a job was put up on them and all the affidavits that Premier Flemming can produce will not alter their opinion. Nor will it alter the fact they, the sturdy sons of New Brunswick must now pay \$1750 for a ten years lease which formerly cost them \$600.

Following the policy adopted by the old government, Premier Flemming has purchased from the New Brunswick Railway Company seventeen thousand acres of land in Madawaska County for settlement purposes. Provincial Secretary McLeod should see to it that the lands are not under mortgage to a New York Trust Company before he passed a check in payment.

Although the present government employs an army of uniformed officials about the Legislature, they do appear able to prevent nervous Tory lawyers from prowling about the floor of the assembly chamber, when the House is in session. It is a wonder that Speaker Clarke doesn't put his foot down on some of those chaps.

Some of the answers to enquiries handed down in the legislature during the past few days seem to indicate that the Flemming government is not at all anxious to give out information. The reply which Mr. Upham got in reference to the Lucey bridge in York County was certainly a corker.

When great men like Mr. Pinder, Mr. Dickson and Mr. Sproule, who exemplify the very highest ideals in public life tell us that the Flemming government is all right, it must be so.

Judging by the answer given to an enquiry in the legislature on Monday what the Flemming government does not know about Mr. Pinder's railway would make a fair sized volume.

SUBURBAN TRAIN SERVICE IS NOT SATISFACTORY

To Editor, Daily Mail

Dear Sir,—Allow me through the medium of your valuable paper to call attention to a long standing grievance for which it is time there was some redress. I allude to the disgraceful way in which those patrons of the intercolonial are imposed upon who have to travel between Marysville and Fredericton every evening and who are compelled to lose much valuable time either through the gross stupidity or careless indifference apparently of the officials in charge of the sections.

Tuesday evening the 2nd inst., it seemed as if the grievance had about reached the limit, when the passengers mainly consisting of some forty or fifty of the employees of the Gibson Cotton Mill who had boarded the six p. m. at Marysville were kept waiting for over ten minutes and then instead of proceeding as expected towards the city they were carried up the line as far as Sandyville where one lone passenger—who proved to be the assistant agent at Marysville—was deposited. By the time Marysville was finally left, over twenty minutes had been spent by those people in the train. This may or may not seem to be much of an imposition to the average person but let them reflect that these employees have been working all day in the mill and that when six o'clock came they were all eager to get home to supper as soon as possible. Some of them had a day's work to do between then and bed time and were anxious to get back to the children from whom they had been separated all day while others wished to get some little recreation after the day's toil to fit them better for the morrow. For many of these the whole evening was completely upset. On Saturday afternoon the only week day when these employees have a trifle of extra time for themselves i.e. they leave the mill at half past four instead of six, the intercolonial officials again encroach on their little leisure and force them to spend half of it in exasperating delays.

Such inconsideration for the feelings of people for whom the officials ought for the cause of humanity alone if not for their reputation to be solicitous is to be highly regretted. In conclusion it is to be hoped that this letter may assist in bringing about a change in the present "rough shod" policy and that "The People's" Railway will soon cease to be the misnomer it is at present as applied to the Marysville-Fredericton section.

Thanking you Mr. Editor for your courtesy I remain

Yours respectfully,

E. C. H.

Cheap Tea is Dear Tea

SO declared the mother of a small family not long ago—

—And proved the statement true by simply relating her tea experience.

"I used a 30c. Tea for years," she said. "One day the Grocer asked me to try a 40c. package of Red Rose—he told me it was better Tea. I found it better Tea, and—before I had quite finished the first package I thought it made more Tea. The second pound I used with care—

—And found out that less Tea in the Pot made a richer, finer-flavored Tea, if you know what I mean."

We know exactly what this lady meant—

—40c. Red Rose Tea is a richer, stronger Tea, more delicately flavored.

The 30c. variety makes about 150 cups—

—Whereas the 40c. Red Rose Tea makes about 200 cups.

So—You might as well have better tea for the same cost in the long run.

There are several grades of Red Rose Tea selling at different prices, but the 40c. grade seems to please best. It is not only fine Quality but goes farther.

"Red Rose Tea is Good Tea"

CANADIAN PACIFIC STOCK STILL LEADS MARKET

(By direct private wires to J. C. Mackintosh & Co., 604 Queen St. Fredericton, N. B.)

New York, N.Y., April 4.—The market opening was quiet but strong. C.P.R. was the most notable feature opening at 243½, a gain of 2½ over yesterday's close. Strength in this issue was attributed to the splendid showing in earnings for the past week. Union Pacific opened at 171½, a gain of ½ over yesterday. Tomorrow being a holiday, there was some scattered profit taking, but stocks seemed to be well taken care of.
