MIRAMICHI TROUT ARE VERY INTELLIGENT

Capt. J. F. Allen of the Indian Army, who returned Tuesday from a month's sojourn in the Miramichi woods, tells a rather interesting fish story. (He was out in a canoe one day with Guide Lorenzo Munn fishing for trout and landed a number of good ones. As is often the case, however, the biggest one got away and took two of Capt. Allen's flies along with him. The following day the captain and Lorenzo went fishing again and soon had eight speckled beauties lying in the bottom of the canoe. One of them, the biggest one, kept flopping over towards Capt. Allen and striking him. He would brush it away but back it would come again. "What is the matter with that fellow?" he enquired of the guide. Lorenzo made an investigation and discovered that the flies which had been lost the previous day protruded from the fish's mouth.

"Oh, I know what the trouble is," he said in explanation, "That is the fish that made off with your flies yesterday and he is anxious to let you know that he has brought them back."

The explanation was perfectly satisfactory to Capt. Allen and he has concluded that the story will stand repeating when he returns to India.

The ceremony was performed in the drawing room which was artistically decked with pink carnations and green. Rev. Wilfrid Gaetz officiated and the wedding march was played by Miss Daisy Weddall of Fredericton. The bride was attended by Miss Fay Comber of Woodstock as bridesmaid, Miss Eleanor Colter as maid of honor and little Miss Helen Benson of Lindsay, Ont., as flower girl. GREATLY PLEASED WITH LAKE GEORGE

Dear Editor—We had a visit from the second party which Mrs. M. J. Charters has brought here this beautiful month of September to see our magnificent scenery and our famed "Antimony Mines." This party consisted of C. S. Chesley of Mt. Denison; Mrs. C. S. Chesley and daughter, E. M. L. Chesley, Mr. A. L. Charters and wife of Fredericton. Mr. Chesley, who seemed very much interested in the mines spoke very optimistically of the future of Lake George, but thinks the operators have not struck the main vein yet as it is one of the characteristics of antimony to run in pockets around or outside the true vein. Now that the Valley Railway is an assured thing we hope the builders will take into consideration the rich possibilities that are lying in Lake George awaiting future development, and be guided thereby. We have needed easy conveyance to market for many years and that has been the one great drawback with which we have had to contend. We hope the Dominion Geologist who is at present in the Maritime Provinces will get in touch with Lake George, New Brunswick, and we may yet be built up, as one of the most beautiful and richest places in New Brunswick. Mr. and Mrs. Chesley were in raptures over our New Brunswick scenery. They are on their way to their former home at Bridgetown, Annapolis Valley, where Mr. Chesley's ancestors have resided since the valley was first settled and purpose going to Halifax next week. Mrs. Chesley is a New Brunswick girl, a graduate of our Normal school, and met with a number of old acquaintances, and as she has a peculiarly charming manner, we are quite proud of her and hope she will bring her husband again and help develop this part that has laid so long dormant.
