

SPRING IMPURITIES IN THE BLOOD

A Tonic Medicine is a Necessity at
this Season

Dr. Williams' Pink Pills for Pale People are an all year round tonic, blood-builder and nerve-restorer. But they are especially valuable in the spring, when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to make new, rich, red blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid the weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills speedily clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, indigestion, neuralgia, erysipelas and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life, that the blood most seriously needs attention. Some people dose themselves with purgatives at this season but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but it does not cure anything. On the other hand, Dr. Williams' Pink Pills actually make new blood which reaches every nerve and organ in the body, bringing new strength, new health and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

Sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50, by The Dr. Williams' Medicine Co., Brockville, Ont.

OWNERS OF MOTOR-CARS AND LICENSE-FEES

The detailed public account of the province show the following owners of motor-cars in this vicinity and the amounts paid by them in license fees:

W. L. Anderson	\$10.00

One of the new productions in New York is to have a red-headed chorus "The Apple of Paris," a vaudeville feature, concludes its unique wordless plot with a duel between two of its female people.

MISERY FROM YOUR UPSET STOMACH OR INDIGESTION GOES

Nothing will remain undigested or sour on your stomach if you will take a little Diapiesin occasionally. This powerful digestive and antacid, though as harmless and pleasant as candy, will digest and prepare for assimilation into the blood all the food you can eat.

Eat what your Stomach craves, without the slightest fear of indigestion or that you will be bothered with sour risings, belching, Gas on Stomach, Heartburn, Headaches from stomach, Nausea, Bad Breath, Water Brash or a feeling like you had swallowed a lump of lead, or other disagreeable miseries. Should you be suffering now from any stomach disorder you can get relief within five minutes.

If you will get from your pharmacist a 50-cent case of Pape's Diapiesin you could always go to the table with a hearty appetite, and your meals would taste good, because you would know there would be no indigestion or Sleepless nights or Headache or Stomach misery all the next day; and, besides, you would not keep laxatives or liver pills to keep your stomach and bowels clean and fresh.

Pape's Diapiesin can be obtained from your druggist, and contains more than sufficient to thoroughly cure the worst case of indigestion or Dyspepsia. There is nothing better for Gas on the Stomach or sour odors from the Stomach Headache.

You couldn't keep a more handier or more useful article in the house.

Agricultural Conditions in Maritime Provinces

Mr. A. C. Fawcett, a Leading Farmer of Sackville Tells why the
Great Basic Industry has Languished--Farmers afraid of
Offending Political Parties

(Continued from last issue.)

WHAT THE GRANGE STANDS FOR

We hold the greatest need of the farmers of this country to be the breaking down of the artificial barriers which impede freedom of commerce across a frontier running athwart this continent. This need is all the more imperative in the case of Ontario farmers whose land lies along side States which are forced to rely on some outside source of supply for 60 per cent of the foods they consume. In some way, and at some time the advantages promised under the reciprocity agreement must be assured unless we are to suffer movement towards rural depopulation.

We strongly urge that the standing offer of mutual free trade in agricultural implements contained in the United States tariff act of 1908, be accepted by the dominion parliament this to the end that Canadian implement makers, who in the face of the American tariff are selling certain implements more cheaply in the United States than they are in Canada may be allowed unimpeded access to the American market and that Canadian farmers have free choice over the whole continent in the purchase of tools and implements needed in their work.

We again urge the demand that the duties on British goods entering Canada be lowered to one-half the general rate to the end that the cost of cottons, woollens, metalware, etc., be reduced to a more reasonable level.

We urge that wherever and whenever a combine exists for the purpose of controlling prices that the existing law which provides for the abolition of protection in such cases be put in force. In particular it is urged that a start be made with a cement combine.

Against any renewal of the iron and steel bounties, in whole or part or an increase in the protective tariff in lieu of same, we enter a most emphatic protest.

We declare our unalterable opposition to military training in the public schools and urge a reduction on militarism to the scale existing in 1896.

We cannot approve of the proposal to have the Dominion government join with the provinces in the construction of public highway. Public highways are local in their nature, and can be best provided by local effort. We believe the whole agitation for a dominion wide good roads scheme is for the purpose of creating trunk roads at the cost of the masses of the people for the pleasure of the few who have been enabled largely as a result of unjust privileges to indulge in the luxury of automobile traffic.

The overlapping of telephone services and the lack of co-operation among the various telephone companies are working serious injury to those using such service. The Grange is of the opinion that the operation of all trunk lines should be taken over by the government and that local feeding companies be consolidated in some form.

We endorse the principle and practice of direct legislation through the initiative and referendum, as offering relief from political corruption and the baneful dominance of the power of money.

Resolution adopted at annual meeting of Dominion Grange held in Toronto, Jan. 24-25, 1912.

INCOMPETENT LEADERS

At a farmers' picnic held in Westmorland county in July last, I listened with pleasure to an address by W. W. Hubbard on the results obtained through education and co-operation by the farmers of Denmark. He gave us a glowing account of the wonderful success obtained and, advised our farmers to work along the same lines that have proven such a success in that country. From his remarks I got the impression that all these things had been accomplished under the direction of the government of Denmark. But on investigation I find that the Danish farmers were not led into the promised land by a benign and paternal government. But having eaten of the tree of knowledge during their sojourn in the wilderness they began to see things in their true light. And they realized that they were being led by selfish and incompetent leaders. Consequently they abandoned the old leaders and through their elected representatives, a large proportion of them were active agriculturists and after much tribulation, they have evolved a success which is the wonder of civilization today.

The farmers' organizations of Canada, which recently have decided to enter the political arena to look after their own business affairs are meeting with strenuous opposition from the advocates of the money interests. The Winnipeg Telegram uses the strongest adjectives of its vocabulary in denouncing the farmers' organiza-

tions of the West.

The Moncton Times voices the sentiments of its managers in discussing the attitude of the farmers when with Good Old Plutocratic insolence it speaks of the farmers' "sublime impudence." Perhaps the Moncton impudence the Manufacturers' Association is guilty of, when, in convention last October they passed a resolution calling upon the government to make no further increase in the British preference; and likewise the editor of the Moncton Times inform us what calling upon the government to renew the iron and steel bounties by which for many years they have been permitted to filch out of the common people of Canada an amount sufficient to pay their wage bill.

TOOK A FALL OUT OF FLEMMING.

Mr. Flemming our premier, seems to be inspired with the same spirit that controlled those who preceded him. He has caught the refrain of the song first sung by some of our board of trade that way to aid agriculture is to increase the expenditure for immigration to re-populate the country with foreign farmers to increase the supply of food-stuffs that the price of living may be lowered to the consumer. Mr. Flemming evidently believes in the virtues of boosting. He says that we are on the eve of great developments in this province, and that our population probably will increase about 100,000 in the next ten years.

But, has Mr. Flemming noticed that the number of fruit trees, as well as the production of fruit is growing less under the government of which he has been a member? Has he taken note of the fact that the butter and the cheese industries of this province, which once promised so much under the direct management of the government, have become of that grim monster which leads on to dissolution? No doubt, Mr. Flemming hopes to improve conditions in this province. But, the boosters having deceived themselves, and now busily engaged in deceiving the country as to its true state will only succeed in keeping up a spirit of optimism in the minds of the government itself and a portion of the urban and town populations, who are not in touch with country conditions, while the farming industry at large will quietly march on to destruction.

Partisan politics is the curse of this country and no class is so injured by it as the farmers. All other classes of the society unite for their common benefit and protect on. Farmers, alone, are divided and conquered by the predatory interests and their political tools. And, just so long as farmers are more concerned for the success of a political party than their own common good present economic conditions will continue.

There is no division in the ranks of the great "interests." With them politics is a plain business affair. They support any party or government they can use as a business asset, and defeat any government they cannot so use. It is interesting to note that where any one of our political parties is in opposition, how plainly they can see the injuries, inflicted on the people by the operations of trusts, combines, predatory corporations and grafters of all kinds. And, how quickly, if returned to power they charge such conditions. But, when returned to power, they discover great difficulties in the way of bringing about the promised changes. They appoint commissions to secure information and await development. Are these men all insincere? And are all governments dishonest? I think not. The interests which controlled the government, while in power control the opposition when they become the government. And so the political game goes on and the common people, honest partisans, divide on their prejudices regarding the merits or demerits of the two great political parties. And the conflict of prejudice proceeds, while the interest make a get-away with the spoils.

John Stuart Mill in his Principles of Political Economy says: All privileged and powerful classes, as such, use the power and influence in the interests of their own selfishness and indulge their self-importance by despising the opinions and interests of those, who are under the necessity of working for their benefit.

MUST COOPERATE

The remedy would be a complete system of organization and co-operation of the farmers not only to elect men and parties, that are pledged to produce reforms while in opposition, but to make sure that after these men and parties are elected, these reforms, are carried out to the letter. Direct legislation through the initiative, the referendum and the recall is an important subject and worthy of the attention of the convention. This form of government has been in operation, in whole or in part, in Switzerland, for more than fifty years

and that country is noted for having equalized its wealth among all classes of its people while in this country the interests are growing richer and the masses of the people are getting poorer. The initiative and the referendum have also been introduced lately into several of the American States.

THE SINGLE TAX

The single tax is another subject that is attracting the attention of some of our cities in the east and now is in operation in the province of Alberta and several western cities. With the information we now have, I am not in favor of the single or land tax in this country to the exclusion of all other forms of taxation, such as income or large salaries and personal property in the form of securities, stocks and bonds. But, having had experience under the form of taxation in Alberta, I can assure the farmers that if the unimproved wilderness lands and lumber lands of New Brunswick were taxed at the same rate as our improved farm lands, we then would be called upon for a small portion of the taxes which we now pay.

Another subject I would suggest for discussion is the great increase in the price of produce from the farmers' price to the sum the consumer pays. It is estimated by men who have studied the conditions that of the agricultural wealth produced only thirty-five per cent, finds its way back to the farmer, while sixty-five per cent is claimed by the transportation companies and the middlemen. This also would be a good subject for our boards of trade to discuss, as they seem to be inclined to blame the farmers for the high cost of living, and while they are calling on the government for relief by bringing in a class of farmers that would supply the goods at a less cost. The merchants who constitute the greater portion of our boards of trade might note that one of the proposed means to lessen the cost of living, namely, the co-operative store bill, was killed by numerous delegations of our merchants, who were sent to Ottawa to fight the measure in committee.

The loaning of money to the farmers by the government might also be interesting to those who are laboring under a heavy debt and have found that the profits or returns from ordinary agriculture are not sufficient to pay the interest charged by loan companies and banks.

I might mention many other subjects that you could discuss with profit. But, if you feel disposed to consider my proposition and work along the lines suggested, you will find no lack of useful work to do in the interests of agriculture in our province.

But remember, friends, that the work of reform is difficult, and it will only be by the untiring efforts of some of our bright young farmers, backed by a strong agricultural or agricultural organization, that success can be obtained. You will find a lack of interest in many of the farmers, themselves, owing to a campaign of education which has been carried on for years in the interest of the protected and subsidized classes. And you may expect to meet a determined and continuous fight from the great organizations of wealth, such as transportation companies, the millers, the pork packers and the beef trusts, the telegraph and the telephone companies. One of the greatest drawbacks of the small fruit industries is the high rates charged by the express companies. David Lloyd George says: "The way of the transgressor is hard." But the way of the reformer is harder." But to bear testimony to his experience I will give a few lines of verse that are without author:

There is a hard and painful loneliness,
Which all must bear, who probe Life's problems deep,
Each for himself on, up the Mountain steep
To that White Rock (which seems the top) they press
Till it is their's almost; then 'tis the prize is lost.
Heights beyond heights they see,
Never the search is done,
Never the Goal is won,
Yet is there victory!
Ea!-hearted, follow not; stand thou away.
Truth is not found complete in Earth's day
There is no Victor's Crown bright to the eyes.
He, who would win, must count each step a prize.

Wood's Phosphodine,
The Great English Remedy,
Tones and invigorates the whole nervous system, makes new blood in old veins, cures Nervous Debility, Mental and Brain Weakness, Insomnia, Spasmodic, Sexual Weakness, Emissions, Spermatocysts, and Effects of Abuse or Excesses. Wood) Toronto, Ont.

CAUGHT A BAD COLD.

DEVELOPED BRONCHITIS.
SHE COULD HARDLY SPEAK.

Bronchitis begins with a tightness across the chest, difficulty of breathing, hoarseness, and there is a dry, harsh, croupy cough.

After a few days mucous begins to be raised. This is at first white, but later of a greenish or yellow color and is occasionally streaked with blood.

Cure the first symptoms of bronchitis by the use of Dr. Wood's Norway Pine Syrup and thus prevent it becoming chronic and perhaps turning to consumption.

Mrs. Edward Travers, Campbellton, N.B., writes—"I thought it my duty to write and let you know what your wonderful medicine has done for me. I caught a very bad cold which developed into bronchitis. I was so choked up I could hardly breathe. I tried many medicines but they did me no good, and I had almost given up in despair. A friend advised me to try Dr. Wood's Norway Pine Syrup, so I got a bottle and felt much better, and by the time I had taken four I was completely cured, and I can assure you I cannot say too much in its praise, as it is all you claim for it, and more."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; price 25 cents. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

GOVERNMENT GRANTS TO YORK CO. HIGHWAYS

The following from the Auditor General's report shows the amount paid to the various highway boards in York County during the year through the secretaries:

Prince William—G. Graham	\$446.53
McAdam—G. Love (salary)	\$10.00
Manners-Sutton—J. R. Rutherford,	\$982.86
Dumfries—H. Burden,	\$220.57
New Maryland—J. B. Morgan,	\$350.33
Kingsclear—C. Murray,	\$534.06
Canterbury—E. McNeely,	\$387.87
North Lake—J. H. Hall,	\$199.82
Southampton—H. Draper,	\$748.06
Queensbury—E. Hazelton,	\$82.93
Queensbury—H. Hagerman,	\$599.12
Bright—B. Burr	\$325.80
Douglas—T. E. Griffiths	\$1648.34
St. Marys—P. McLaggan,	\$590.85
Stanley—A. Humble,	\$1493.98

Each of the secretaries received in addition a salary of \$10.

SPECIAL EXPENDITURES

The following special expenditures were made on roads in York County during the year:

Bright—Spent on road from Zealand to Springfield, B. Burr, commissioner	\$263.00
Manners-Sutton—Spent on road from Cork Station to Sunbury County, J. K. Moody, commissioner,	\$1059.47
St. Marys—Spent on St. Mary's Hill Road, A. B. Neill, commissioner,	\$117.41
St. Marys—Spent on bridge road leading to Gibson, A. B. Neill, commissioner,	\$123.54
St. Marys—Spent on road to Gallagher Settlement, A. Nichols, commissioner	\$25.00
North Lake—Spent on road from Forest City to Spedic Lake, T. Wetmore, commissioner,	\$68.56
Southampton—Spent on Ferry road A. Cronkhite, commissioner,	\$49.50
Canterbury—Spent by J. A. Price, commissioner,	\$131.64
Stanley—Spent on County line road A. Minn, commissioner,	\$150.25

A Simple Treatment that Will Make Hair Grow Now Sold in Canada

Every up-to-date woman should have radiant hair.

There are thousands of women with harsh, faded, characterless hair, who do not try to improve it.

In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA the Great American Sage Hair Tonic.

Every reader of The Mail can have an attractive head of hair in a few weeks by using SALVIA.

Ryan sells a large bottle for 50 cents, and guarantees it to banish Dandruff, stop falling hair and itching scalp in ten days, or money back.

SALVIA is a beautiful, pleasant, non-sticky Hair Tonic.

FANNY CROSBY'S 92nd BIRTHDAY

Bridgeport, Conn., Mar. 23—Fanny Crosby, writer of Gospel hymns which are known the world over, will be ninety-two years old tomorrow. She lives with a niece in this city, at whose home her birthday anniversary is to be fittingly recognized. Miss Crosby, whose full name is Francis Jane Crosby Van Alstyne, has been totally blind ever since she was six months old. She has written more than 3,000 hymns in all. She was married in 1858 to Alexander Van Alstyne, who died ten years ago. He was a musician and set some of his wife's best known verses to music.

"The Great Babylon Hotel," by Arnold Bennett, has been dramatised

ROUTINE BUSINESS OF THE LEGISLATURE

The House met on Thursday at three o'clock.

Hon. Mr. Murray presented the report of the Standing Rules Committee.

Mr. Copp gave notice of enquiry regarding a violation of the Game Act in Westmorland Co.

Mr. Currie gave notice of enquiry regarding the engrossing clerk's duties and salaries.

Mr. Leger (West) gave notice of enquiry regarding the amount paid to A. C. Flemming for work at the Legislative buildings.

Mr. LaBillois gave notice of enquiry regarding the amount of insurance on the Provincial buildings also in regard to the road machines owned by the province.

Mr. Munro presented a petition in favor of the bill to authorize Woodstock to erect a free public library.

Mr. Munro presented a petition in favor of a bill to amend acts relating to the town of Woodstock.

Mr. Leger (Gloucester) presented a petition in favor of a bill to amend the act incorporating the Bathurst Electric and Water power Company.

Hon. Mr. Murray introduced a bill relating to the Auto Road Company.

Mr. Hatheway introduced a bill to amend the act to provide for the removal and disposal of garbage matter in St. John.

Mr. Hatheway introduced a bill to enable the City of St. John to ex-

propriate private properties for industrial purposes.

Hon. Mr. Grimmer presented a petition in favor of a bill to amend the act incorporating the Town of Milltown.

Hon. Mr. Grimmer introduced a bill to further amend the act incorporating the St. Andrews Land Co.

Hon. Mr. Maxwell introduced a bill to amend the St. John City Assessment act.

Mr. Munro presented the report of the Municipalities Committee.

On the order of the day being called Hon. Mr. Sweeney concluded his speech on the address and was followed by Hon. Mr. Murray who defended the administration at some length. He moved the adjournment of the debate.

CANADIANS SEEK DIVORCES

Reno, Mar. 22—Canada is now second only of New York State and Massachusetts in the number of contributions to the membership of Reno divorce colony, fully thirty women being here now from various parts of Canada seeking divorce. Alberta has the largest representation of all the provinces.
