

A GOOD MEDICINE FOR THE SPRING

Do not use Harsh Purgatives—A Tonic
is all you need

Not exactly sick—but not feeling quite well. That is the way most people feel in the spring. Easily tired, appetite fickle, sometimes headaches, and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order—that the indoor life of winter has left its mark upon you and may easily develop into more serious trouble.

Do not dose yourself with purgatives, as so many people do, in the hope that you can put your blood right. Purgatives gallop through the system and weaken instead of giving strength. Any doctor will tell you this is true. What you need in spring is a tonic that will make new blood and build up the nerves. Dr. Williams' Pink Pills is the only medicine that can do this speedily, safely and surely. Every dose of this medicine makes new blood which clears the skin, strengthens the appetite and makes tired, depressed men, women and children bright, active and strong. Mrs. Maude Bagg, Lemberg, Sask., says: "I can unhesitatingly recommend Dr. Williams' Pink Pills as a blood builder and tonic. I was very much run down when I began using the pills, and a few boxes fully restored my health."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

GAMNEY'S COMMISSIONERSHIP

Toronto, Ont., March 29—R. R. Gamney, member for Manitoulin in the legislature, has been chosen as the government's commissioner to take charge of a party to explore the new areas added to the province in Northern Ontario.

The salmon fisheries of Perth, Scotland, demand a raise of wages, which have for thirty years been 24.80 per week of 66 hours.

"Do you mean
that girl with
the spots on
her face?"

Overheard in a Street-Car.
There's a lesson right there!

Little blemishes of complexion, small sores, eruptions, spots, are not only unpleasant to the person afflicted, but are the first thing noticed by other people.

A little Zam-Buk applied at night to spots, eruptions, sores of any kind will do wonders.

Zam-Buk is not a greasy preparation which will go rancid on your dressing table. It is made from healing, herbal extracts and essences. Always pure, fresh and ready for use. Doesn't lose its power. Keeps indefinitely. Healing, soothing and antiseptic all the time. Try it!

50c. box all druggists and stores.

Zam-Buk

FROM THE RURAL DISTRICTS

BLANEY RIDGE

Blaney Ridge, Mar. 25—The weather for the past week has been fine and and the men are busy hauling ties and pulp wood to Harvey.

Rev. C. H. Fullerton held service in this place last Sunday.

Miss Mildred McMullin is visiting friends in Tweside.

Mr. David McElwain is busy hauling ties for Mr. McGarvey.

Our School is progressing favorably under the skilful management of Miss Ethel Jewett.

The Messrs Dora and Ella Parker of Magundy were the guests of Miss Alice Davis one day last week.

Mr. Wm. King and his father are busily engaged hauling hay from Magundy.

Mr. William McElwain is busily engaged cutting wood for the summer.

We are sorry to learn that Mr. Samuel McMullin and family intend moving out to the North West in the near future. We shall regret the loss of such a kind friend and neighbor.

The McGarvey brothers Charles and Ambrose have returned home from the Maine lumber woods.

Mrs. William Shaw of Davidson Maine, is visiting her parents Mr. and Mrs. Henry Davis.

Mrs. John Miller of Upper McDevic was the guest of Mrs. Samuel McMullin last Sunday.

HOWLAND RIDGE

Howland Ridge, Mar. 12—We have had some fine weather for the last few weeks but is some colder now, beginning to look like spring again.

Most of the men are all done lumbering for this season.

Mr. Geo. Meade is doing a rushing business hauling lumber. He has two teams from Millville hauling for him. One is hauling by Tyler Apelles and Harper Billings. There is also John Parent of Millville with his own team.

There recently was an enjoyable party at Mrs. John Fleming's.

Mrs. Jerry Crouse spent last week with Mrs. Herbert Crouse.

Mr. and Mrs. Fred Gray of Houlton, Maine, are spending a few weeks with Mrs. Gray's sister Mrs. George Mead.

Mr. Willard Sproull has returned from the woods.

A very enjoyable time was spent at Mr. George Meade's at an oyster supper. Games were played also candy and refreshments were served.

Mr. Arthur expects to leave for the w'at in a few days where he will meet Mr. John Fleming at Vancouver.

Mrs. George Mead was the guest of Miss Carman and Martha Fleming one day last week.

Mr. Jerry Crouse and family expect to leave next week for Houlton, Maine, where they will live this summer.

PLASTER ROCK, N. B.

Mar. 24—The general results of the monthly examination of the Plaster Rock graded school, for the month of February are as follows:

Those making an average of seventy per cent. or upwards arranged in order.

Grade VIII.—Grace Wright, Roy

Green, Verna Wright, David Loevan. Grade VII.—Vera Shields, Hazel Johnston, Marion Hawkes, Birdena Giberson, Percy Clark, Millard Tranley, Kenneth Brown.

Grade V.—Walter Cumming, Sadie Toland, Delbert Chase, Katie Toland, Irene Campbell, Sybil Lewis, Mildred Green, Myrtle Wright.

Grade IV.—Albert Trafton, Jennie Cumming, Edward Downey, Maude Stone, Myrtle Keith.

Grade III.—Erma Broad, Winifred Wright, Perry Lewis.

Grade II.—Pearl Inman, Harry Richards, Douglas MacLean, Louis Grant Dorothy Muckler, Bertha Muckler, Fred Hawkes, Roderic Wilson, Don Giberson.

Grade I.—Nellie Gray, Nina Booker, Maggie Grey, Hazel Richards.

Teachers—Ruby Page, Advanced Dept.; Laura H. Page, Primary Dept.

KINGSLEY

March 25—The recent snow storm has made the roads quite good again and the cordwood haulers are busy taking advantage of the snow today.

Mr. Gordon Foster, who is now attending Fredericton Business College, spent Sunday at home.

Our school is progressing under the skilful management of our teacher, Miss Lena Currie.

A very interesting concert was held in the Baptist Church on Wednesday evening by the Salvation Army.

Much credit is due to Capt. Howland and his wife, in their Christian work. The people of Kingsley would be pleased to have the Army visit them again.

Rev. Howard Hood will preach his farewell sermon in the Baptist Church here on Sunday next, March 31st.

Mr. Hood will be very much missed from this community by both young and old, as he is a very able speaker.

Mr. Harry Williams arrived home from the woods on Tuesday evening.

The young folks of this vicinity took advantage of the beautiful coasting of last week, the crust was elegant, and all were out enjoying themselves.

A Simple Treatment that Will Make Hair Grow Now Sold in Canada

Every up-to-date woman should have radiant hair.

There are thousands of women with harsh, faded, characterless hair, who do not try to improve it.

In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA the Great American Sage Hair Tonic.

Every reader of The Mail can have an attractive head of hair in a few weeks by using SALVIA.

Ryan sells a large bottle for 50 cents, and guarantees it to banish Dandruff, stop falling hair and itching scalp in ten days, or money back.

SALVIA is a beautiful, pleasant, non-sticky Hair Tonic.

ROBINSON'S WEEKLY MARKET REPORT

(Continued from page two.)

per cent. bonds. After this announcement was made the market had rather a sharp decline, as this sale of bonds was construed as an unfavorable factor. The last annual statement of the Steel Corporation clearly foreshadowed the necessity of new financing. It will be recalled during 1911 the Steel Company wiped out the last of its construction balance account and went into working capital to the extent of \$10,000,000. Net earnings are not sufficient to provide surplus funds as in the past over and above dividend requirements so as to take care of the necessary outlays for construction and betterments this year not properly chargeable to operating expenses.

Were advancing the press news was inclined to be bullish, but in the face of the recent halt in the upward movement there seems to be scarcity of optimistic opinion.

We do not feel that the time has yet come when anyone can say that we are in a bull market. Prices may go higher on this movement, and daily traders by watching this market closely, will undoubtedly have many opportunities to make small profits but there is nothing in present conditions which points either to a big upward or downward swing in the market.

MONEY.

There was no change in the Bank of England rate this week and the proportion of reserve remains at practically the same figure; conditions there being about the same as they have been for some time past.

In New York time money is decidedly more active and little of it is available at bid prices.

Funds in Montreal are still fairly plentiful at the old rate of 5 1/2 per cent.

MONTREAL MARKET.

The market this week has shown a

good deal of strength with a fair amount of activity in certain stocks. Shawinigan and Montreal Power made a new high record on rumors of a possible merger of these properties. Power is to be taken in at 250 and Shawinigan at 150, but what dividend the new stock would pay, at present is just conjecture. Some people say that it would pay as high as 6 per cent. on the new stock, but hardly think that such a high rate as this would be paid. Certainly, at the present selling prices, they give very small returns to the investor. If our market here is to broaden out, we think that the speculation will go to the lower price issues, but there does not seem to be any disposition to advance the market at present. There is no change in the call money rate here, banks still asking 5 1/2.

So, common. This stock, although it has had a good advance we do not consider too high, they are showing splendid weekly increases and have been very free of any snow blockades on their lines this winter, which has naturally reduced their operating expenses and we understand the stock is going to be put on a quarterly dividend basis and will certainly become a greater favorite with the speculative public. There has been a great deal of this stock in the past few months taken out of the market by investors which naturally reduces the floating supply and we consider it a good purchase on any reactions.

Practically all wage earners at Barre, Vermont, with the exception of the city employees are members of some union.

Wood's Phosphodiene, The Great English Remedy. Tones and invigorates the whole nervous system, makes new blood in old veins. Cures Nervous Debility, Mental and Brain Worry, Dependence, Sexual Weakness, Emissions, Spermatocyst, and Effects of Abuse or Excess. First per box 25c. One with pleasure, will cure. Sold by all druggists or mailed in plain package on receipt of price. *Non-morphine* *solidum*. The Wood Medicine Co. formerly W. Wood. Toronto, Ont.

ROBINSON AND BENTLEY SCORE THE GOVERNMENT

(Continued from page one.)

Hon. Mr. Morrissey and Hon. Mr. Fleming expressed a willingness to meet these cases, the latter suggesting that the provision should be made in the Liquor License Act to cover such cases.

Mr. Copp said that automobiles carried liquor in his section of the province.

Hon. Mr. Maxwell favored a heavy fine for such instances.

Mr. Sweeney said that automobiles carried liquor from Amherst into Westmorland County. Chateaus should be required to have certificates of sobriety.

The House went into committee with Mr. Dickson in the chair and agreed to the bill to amend the Workmen's Compensation Act with amendments.

There was a general discussion on the bill to consolidate the Acts relating to municipalities. Several of the members favored placing of the control with the Municipalities. If only one case are the pedlars now under the jurisdiction of the Municipality. It was also recommended that the pedlars act should be amended to give a more explicit explanation of the meaning of a pedlar. The qualification of voters for municipal elections was discussed.

The Bill was agreed to with amendments.

The House took recess at 6.30 o'clock.

The House resumed at 8 o'clock.

Mr. Labille gave notice of enquiry regarding the number of schools vacant.

Hon. Mr. Fleming moved that the time for the introduction of private bills be extended until April 4th.

The House went into Committee with Mr. Allain in the chair and agreed to the bills to fix the valuation of the Maritime Rail Co., Ltd., and to amend the act providing for the disposal of garbage in St. John City; also to the bills to fix the valuation of C. H. Peters Sons, Ltd., and to enable St. John City to regulate the construction of buildings, with certain amendments.

MR. BENTLEY'S SPEECH

Mr. Bentley on the order of the day being called continued the debate on the budget. He said that disquieting news had appeared in the press today in connection with a debate in the Dominion Parliament on the St. John Valley Railway and the news afforded ample ground for the amendment as proposed by the Opposition that the road should be built to Grand Falls by November 1st, 1913. In the discussion in the Dominion Parliament the fact came out that if the Valley Railway was not completed by November 1st, 1915 the Federal Government might escape the responsibility, under which it now was, to take over and operate the road. However it was stated that if the constructing company failed to complete the road by November 1st, 1915, the government of New Brunswick would be given the opportunity to continue the construction. By guaranteeing the bonds the government was assuming a great responsibility and if there were any hitch or if connection was not made at Grand Falls with the Grand Trunk Pacific the credit and interest of the province would be jeopardized. He thought he was right in saying that Hon. Mr. Hazen had practically admitted that the constructing company would have preferred to turn the road aside at Presque Isle and build it through Maine to the Quebec bridge. This was to say the least disquieting news. There was another reason which must cause doubt to arise and that was that an amendment, moved by Mr. Michaud that one fifth of the appropriation of \$1,000,000 for the three bridges should be devoted for the construction of the upper bridge at Andover, had been voted down. That bridge would be required to have the road go to Grand Falls. That news could be interpreted to mean that there was no actual assurance that the railway would be built the entire distance from St. John to Grand Falls. Only a year ago hon. gentlemen opposite had been enthusiastic over a road through Maine and it was surprising that his hon. friends who had waved the flag so vigorously should have desired to divert the road from provincial territory to a foreign country. It was also remarkable that his loyal friends could not find anybody to construct the line than friends from the other side. He (Bentley) had the impression that the magnitude of the project was not yet fully realized and it should be established that before the bonds were guaranteed there would be no doubt that the road would go to Grand Falls.

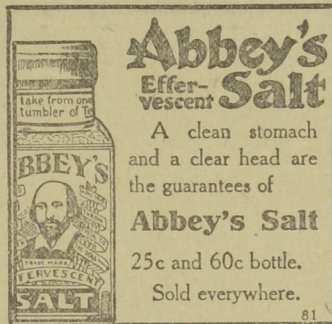

It was a deplorable fact that New Brunswick had failed to hold its natural increase in population. If the province had held its natural increase for the last seventy-five years the population would be at least double.

In one end of his county there were four school houses now tumbling down while this winter he had passed through in Queens County which

had been settled by Presbyterians from the north of Ireland many years ago and where many of the sturdiest sons of the province had been reared and which had now been forsaken. These were only instances of what had occurred in the different parts of the province. He did not believe that the government should spend a lot of the people's money as the immigration scheme. It was surprising how many people think the government can lay out a lot of money and things of that kind. Outside of an immigration agency, a few men on the other side and some here on this side to look after the immigrants when they arrive he did not think anything further should be undertaken which would cause a great expenditure. The plan he favored was to place one family of immigrants in each parish, make them satisfied and see that they were prosperous and they would be the best immigration agents the province could have and would be the means of bringing many people here.

He believed the province had a good school system but there was not enough patriotism and love of the land instilled in the scholars. Instead there was a tendency to crowd the scholars into pursuits that would take them away from the land. He favored instruction to the students of the Normal School on the possibilities of agriculture in New Brunswick and when those young people went out from the Normal School imbued with a spirit of patriotism, their influence would improve the sentiment in their homes and do much towards keeping the young men in this country. Before bringing in immigrants the people of this province must first show that farming in New Brunswick is profitable. The proportionate increase in the grants towards agriculture, immigration and education, the three important subjects, had not been equal to the increase in the revenue. If dry rot existed in the agricultural department under the old government as alleged by the hon. gentlemen opposite, it was still there for he had found from

(Continued on page six.)

UPPER SPRINGFIELD

Upper Springfield, March 19—The weather for the past four days has been very wet and cold but a nice warm sunshiny day like this makes people think of sugar making.

The brown-tail moth hunters passed through here recently the only ones found were in the orchard of J. Graham and Charles Tucker one being found in each orchard.

Mr. and Mrs. John Telpher are receiving congratulations on the arrival of a young son.

Mr. David Stillwell who has been on the sick list is now recovering. Mr. Stillwell had the misfortune to loose a valuable horse recently.

Miss Myrtle Ketch of Upper Queensbury is spending a few weeks with Mrs. J. Telpher.

Mr. George Oliver has been kept very busy hunting for the brown-tail moth.

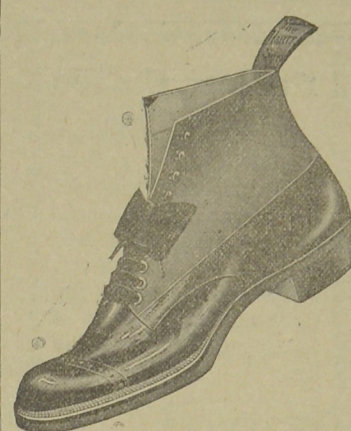

THOUGHT COLD WOULD TURN INTO CONSUMPTION

LEFT LUNG GOT VERY SORE,
HEART DID NOT FEEL
ANY TOO GOOD.

Mr. Robert McLarnon, Shawville, Que., writes:—"I am writing to tell you an experience I had with a bad cold and a bottle of your valuable medicine. I was up in the lumber camps teaming horses, and I caught a very bad cold. I thought it was going to turn into consumption, for my left lung got very sore and my heart did not feel any too good. I came home and tried some different remedies but they did me no good. A friend told me about Dr. Wood's Norway Pine Syrup, so I tried it, and when I had taken two bottles my cold was gone. I think it is a great remedy, and will advise any one with a cold to use it. I can't praise it enough."

Dr. Wood's Norway Pine Syrup contains all the lung healing virtues of the Norway pine tree, which combined with Wild Cherry bark and other pectoral remedies, makes it one of the greatest known preparations for Coughs, Colds, Bronchitis, and all Throat and Lung Troubles.

Put up in a yellow wrapper; three pine trees the trade mark; price 25 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.
