ARTHUR PELKEY JOINS GREAT BAND OF WHITE HOPES

Knocked Soldier Kearns out in Fifth Round at North Adams--Victor in Great F. rm

North Adams, March 28--Arthur Pelkey of Chicopee proved himself a real "white hope" at the smoker of the Western Gateway A. C. this evening, when he knocked out Soldier Kearns of New York in the fifth round of their bout. Bill Coffey was slated to meet Pelkey, but Kearns, who recently stopped Coffey in two rounds, was substituted for him.

The bout was the best that had been seen in this city since the inauguration of boxing here, and a large attendance of members were present. Pelkey showed better form than in any previous bout he has boxed. Except for the second round which was about even, the Chicopee boy led all the way.

In the fourth he floored Kearns twice for the count and had him groggy at the bell. Soon after the fifth was under way he landed a right hook full on his opponent's chin, and was all over.

Pelkey used a straight left and a right to the body most of the time, to the latter blows weakening Kearns to quite an extent. Kearns had a wicked right, with which he twice staggered Pelkey, but the latter evaded it as a rule.

New York, March 28--Tom Kennedy and Frank Moran, representing the slow freight division among the heavyweight fighters, walked through 10 rounds of "fighting" at the National Sporting Club tonight. When it was over both men were on their feet with the honors even. Both did so little real work that it would be an injustice to give one or the other the decision.

They fought like two longshoremen in the matter of skill, but lacked the wallop. Both moved around the ring as if they were weighted down with lead on the soles of their shoes.

FRED TAYLOR TALKS

OF OFFER FROM MONCTON

Fred Taylor went on the coast trip, though his right hand was heavily bandaged as the result of his injury while refereeing the Ridpath benefit match Saturday. Taylor paid his own way into the benefit match, took twenty-five Boy Scouts in at fifty cents per head, refereed the game gratis, and had to rush from the rink to a surgeon to have his hand sewn up after his accidental collision with Imbleau. He stated Tuesday that there was a possibility of his remaining at the coast.

"I had an offer of \$1,500 from Moncton," said Taylor, "and Frank Patrick told me to name my own terms to play at the coast, but I relied on the Ottawas to fix things up with the Wanderers. If they don't let me play in Ottawa next year, I shall go out to the coast to live."

JOE GAUZEL DESERTS DIAMOND

Grand Rapids, Mich., March 28--Joe Ganzel, baseball player and brother of Manager John Ganzel of the Rochester team in the International League, has decided to forsake the diamond and adopt the mission platform as a means of livelihood. He has been converted and began tonight as the second "Billy Sunday." He delivered his first sermon before the City Rescue Mission and used considerable baseball parlance in his talk.

DOLLY CAMPBELL LOST

Pinehurst, N.C., March 28--Miss Dorothy Campbell, British and Canadian woman's golf champion and former American title-holder, was defeated today by Miss Kate Van Ostrund of Watertown, N.Y., in the semi-finals round of the united north and south amateur golf championship tournament. Fully five hundred persons followed the play.

U.S. LEAGUE MEETING IS NOT HELD

New York, March 28--The meeting scheduled for today, in this city, of the directors of the United States Baseball League, was called off for some reason not understood by those who have been following the fortunes of the new organization.

At the usual meeting place of the league it was said that the directors had made no arrangements for a meeting and none of the officials or members of the league could be found.

The playing schedule was to have been made public today, according to the recent announcement.

WALTER SMALL TO BECOME Y.M.C.A. PHYSICAL DIRECTOR

Says he has Played his Last Game of Hockey--Will Qualify at Springfield, Mass.

Victoria, March 28--Victoria's first ice hockey team has broken up and some of the players will never don local colors again. Bert Lindsay, the diminutive goal-keeper, lit out for Renfrew, his home town, the day after the last game, and Skinner Poulin, one of the scrappiest little wings in the business, went over to Vancouver, and after that hid himself home to his ranch in Calgary. Donald Smith, Tommy Dunderdale and Spare Man McAniff will stick around until the all-star games are played before departing to their homes in the east, while Rowe and Patrick are settled here permanently by the looks of things. Walter Small is quoted as having said that he has played his last game of hockey, and although he has a good position as membership secretary of the Y.M.C.A., it is reported that Walter contemplates leaving Victoria this summer. He was seen in earnest conference with Dr. Brown, international secretary of the Y.M.C.A. physical department, when the latter was in the city, and it leaked out afterwards that Dr. Brown had induced Walter to become a physical director. If it is true, and the authority is good Small will transfer his home to Springfield, Mass., where he will take up a course of study for his new work.

N.H.A. TEAMS MADE POOR MONEY

The falling through of the Boston series put the different N.H.A. clubs somewhat behind on their expected receipts on their week's trip abroad. Instead of \$7,000 being divided into \$4,950 was split upon the four clubs. Quebec though winners of the series, generously shared up with the others its portion being \$1,475. Wanderers, \$1,400, Canadians, \$1,037.50 and Ottawas \$1,037.50. Out of this the clubs have to pay their travelling and hotel expenses.

Outside of Joe Hall who will spend the summer at his home in Brandon, the remainder of the champion team will summer in Quebec where situations have been found for them.

CHANCE LETS TWO PLAYERS GO

Chicago, March 28--Word was received here that Manager Chance of the Chicago Nationals has released catcher Chapman to the Topeka club and infielder Orr to the Salt Lake club. Orr's release is unconditional, but an option is held on Chapman.

HYLAND FOUGHT DRAW

Butte, Mont., March 28--In one of the classiest scraps seen here since the open days of boxing in Butte, "Fighting" Dick Hyland of San Francisco tonight fought a draw with Maurice Thompson of Butte, lightweight champion of the Northwest, in a six-round bout marked by swift milling.

BROKE-BOWLING RECORD

Patterson, N. J., Mar. 29--Mortimer Lindsay, of New Haven broke a world's bowling record last night, when he made the sensational score of 2,031 for nine games. This an average of 225.9. Lindsay's record beat the previous high score, 1,961 made by Thos. Haley in Detroit in 1910, at Detroit.

BASEBALL NOTES

Curtis of Montreal, has fallen out of sight completely. His contract has been signed, sealed and delivered and it was expected that he would be among the first arrivals.

Vilhelm, one of the new pitchers with the Royals, is suffering from a sprained ankle.

The infield and outfield of the Providence Grays will be as follows: Lathers, first; McDermott, second; Rock, shortstop; Gillespie, third; Hopkins, left; Drake, centre, and Elston, right. The line-up looks stronger than last year.

Rath, last year with Baltimore, has been assigned the regular second base job with the Chicago White Sox. The rest of the infield will be: Zeider, first; Weaver, shortstop, and Lord, third.

HOW COMPETING CREWS COMPARE WITH ONE ANOTHER

Oxford Strong Favorite but Cambridge May Spring Surprise--Big Attendance at Race

London, March 29--The Oxford and Cambridge crews, which row the annually university boat races on the Thames course from Putney to Mortlake, about four miles and a quarter, tomorrow, have concluded their preparations for the contest in which the representatives of Oxford, the dark blues are favorites.

Both eights appear to be trained to the minute, but the superior weight and physique of the Oxonians are expected to carry them to victory in what may turn out to be a punishing race.

The Cambridge crew has a nippy style which in calm weather and smooth water is likely to give them a lead at the start, but experts are practically unanimous that the long stroke of the Oxonians is bound to tell in the latter stages. In the results of trials during the earlier training days can't be taken as examples of the speed of the crews the race should be a fast one. Both clipped seconds of the records for the up-river courses.

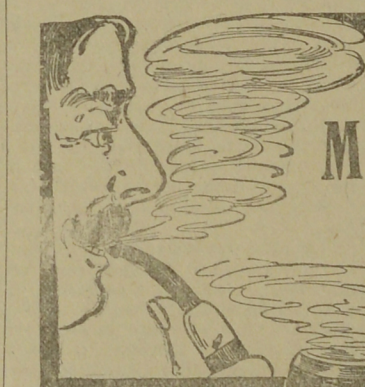

The crews and their weights follow:

	Oxford	Pounds.
Row--T. A. H. Pitman (New College).....	166½	
2--C. E. Tims (University).....	172½	
3--L. G. Wormald (Magdalen).....	179	
4--E. D. Horsfall (Magdalen).....	176½	
5--W. H. M. Wedderburn (Balliol).....	192	
6--W. F. R. Wiggins (New College).....	179½	
7--C. W. Littlejohn (New College).....	177	
Stroke--R. C. Bourne (New College).....	156½	
Coaxswain--H. B. Wells (Magdalen).....	122	
Cambridge		
Row--R. W. Marbutnot (Third Trinity).....	150½	
2--D. C. Collins (First Trinity).....	163½	
3--H. M. Heyland (Pembroke).....	170½	
4--R. S. Shove (First Trinity).....	172	
5--J. Go,smith (Jesus).....	183½	
6--R. LeBlanc Smith (Third Trinity).....	186½	
7--L. S. Lloyd (Third Trinity).....	154½	
Stroke--S. E. Swann Trinity Hall).....	160½	
Coaxswain--C. A. Skinner (Jesus).....	128	

No matter what Chance may decide to do as regards personally superintending the play around first base, it looks like a safe bet that Victor Saler will continue in the fold, acting now and then as understudy to the veteran pilot. "Vic" is a better hitter than Joe Agler, and for that reason has a decided bulge over the Newark fielding marvel.

Ganzel plans a trip to Atlanta this week to look over some players that Harry Wolverton can't use.

Manager Harry Davis of the Cleveland Naps, hasn't decided whether or not he will become a bench manager. He says, however, that he will confine himself to the shelter of the dug-out for a while, depending on Ed Hornhorst to play first base acceptably.

(Continued from page three.)

looking over the agricultural report that the province was not producing as much as it was ten or twelve years ago.

SCHOOL BOOK PLEDGE.

One of the pledges this government had carried out fairly well was that of giving cheaper school books and even if some mistakes had been made by the government in handling that proposition and some \$20,000 of the public money was tied up in school books scattered throughout the province, the people ought to be able to stand that and he would not be against a policy of free school books providing it could be properly and carefully administered.

There had been very few permanent bridges built in the province since 1908 compared with those bearing dates before 1908, many of which were in such good condition that they looked as if they had been built last year. The results were not equal to the expenditure on bridges under this government. A lot of the money had been unwisely expended and in many cases should have been handled by the municipalities as he had suggested last year when the estimates were before the House. He could not understand why it had been necessary to expend almost \$11,000 on the repairs for the Suspension bridge during the past year when in the House last year the hon. member for St. John, Hon. Mr. Maxwell, had said that the bridge was in as good condition as it had been for the past thirty years.

Hon. Mr. Morrissey--"That was because the bridge had been allowed to get in a dilapidated condition under the old government."

Mr. Bentley, continuing, said that the government had not carried out its pledge to the people by having so much work done on the bridges by day's work instead of by contract. The province was not in a position to have concrete abutments put under the small bridges and there was one case right near his home in his own county where between four and five hundred dollars could have been saved if the old abutments had been repaired instead of putting in new concrete abutments. He knew that having bridge work done by contract was not always satisfactory, but still the people would hold the government responsible for the violation of its promise in having so much of the work on the bridges done by day's work.

THE NAVAL POLICY.

His hon. friend from St. John had

opened his remarks with a sneer at reciprocity, but in the defeat of the agreement the naval proposals of the Laurier government had also been voted down. The first lord of the admiralty had made the statement in parliament that if Germany added five ships to her naval equipment Great Britain would add five. That might appear as a startling statement and it meant considerable to the people of Canada, particularly when Germany had taken up the gauntlet and announced that additions would be made to their navy. Mr. Borden, when in opposition, had always advocated that Canada should do her share in assisting in the naval program of England? He (Borden) had made the statement that Canada must have a navy and had favored the policy of the Laurier government. Now Mr. Borden had come into power and had the opportunity to carry out the naval proposals of the old government but not a dollar, ship nor man had been given to England and Canada was discredited in the eyes of the whole empire. It was enough to make any true Canadian blush. The radical element of Quebec which Sir Wilfrid Laurier had kept in check now controlled and dictated the policy of the government and had blocked the naval policy. His hon. friends were opposed to giving any assistance to England's navy.

In addition to a vastly increased revenue this government had also received an additional annual subsidy of \$130,000 from the Dominion government. This amount had been received after earnest requests on the part of the old administration and hon. gentlemen opposite had twitted the then government for endeavoring to secure it. For the large expenditure of money on roads and bridges, satisfactory returns had not been received while the road act had been a direct violation of the pledges of the government to place the funds for ordinary road and bridge account with the municipal councils. Much work was being done by day's work instead of contract.

Notwithstanding the fact that this government received a revenue double that of the old administration they had admitted an over-expenditure of \$56,000, but it had been established that the real over-draft was about \$200,000 more than that amount. The whole record of this government was disgraceful and when the people made a comparison of the increase in the public debt they would arrive at the conclusion that if the old government had chastised them with whips, this government had done so with scorpions.
