## A Law Regulating The Sale of Milk in the City of Fredericton.

1. No person shall sell or offer for sale milk in the City of Fredericton without having first procured a license so to do, from the local Board of Health.

2. Every person applying for a license to sell milk within the City of Fredericton shall, with the application therefor, furnish the Board with a declaration in writing that all cows belonging to him which supply milk for the purpose of sale have been tested with the Tuberculin within one month from the date of such application by a veterinary surgeon, recognized as such by the Board, for the diagnosis of tuberculosis and that he will not sell or offer for sale in the said City of Fredericton, any milk procured from any cow which has not been so tested.

3. Every person so applying as aforesaid shall also furnish along with the application and with said declaration, a certificate in writing from an accredited veterinary surgeon, approved by the local Board of Health, certifying that all the cows from which the applicant procured any milk for the purpose of sale, have been tested within one month from the date of such application, with Tuberculin for the diagnosis of tuberculosis, and that the said cows and each and every one of them are entirely free from Tuberculosis, Cow Pox, Actinorhynchosis, Puerperal Fever, Retention of the Placenta or any other malignant or contagious disease. All certificates from veterinary surgeons shall be on form approved of and supplied by the local Board of Health.

4. And every person owning or keeping herds from which milk is sold in the City of Fredericton, shall, upon making any additions to said herds, have each and every addition properly tested with Tuberculin for the diagnosis of tuberculosis and shall file a certificate from an accredited veterinary surgeon that said additions are free from tuberculosis.

5. And every person selling milk in the City of Fredericton shall have their entire herd of cows properly tested for tuberculosis as before provided, at least once every year, between the first of April and the first of May. Should the Board deem it necessary in the interest of the public health, they can order any or all herds from which milk is supplied to the City of Fredericton to be tested with Tuberculin as before described, twice during the year.

6. Every license to sell milk within the City of Fredericton shall be subject to the condition that the licensee shall and will observe, abide by and perform all the restrictions, conditions and regulations from time to time adopted or enacted by the local Board of Health during the currency of said license or any renewal thereof, and upon the said license failing to observe, comply with or perform any of such restrictions, conditions or regulations, the license granted to such vendor of milk shall forthwith become null and void.

7. Every licensed vendor of milk offering milk for sale in the City of Fredericton shall at least once a year, deliver to the Board of Health a statement containing (1) His name and address; (2) The source or sources of his milk supply; (3) The number of cows in his possession; (4) The average quantity of milk disposed of either (a) to milk shops, (b) to milk vendors, (c) or to private consumers; (5) The situation of his dairy or dairies, and such other information as the Board or its officers may deem necessary.

8. Every licensed vendor of milk shall comply with the various clauses of the Public Health Act by giving notice to the local Board of Health of any cases of contagious disease in his family or in his farm house or shop at which, from which, or in which the milk is either sent or received, and he shall further carry out the restrictions laid upon him by the local Board under the Public Health Act.

9. No licensed milk vendor shall sell or offer for sale in the City of Fredericton any milk which is unwholesome or unfit for human food, or any milk which has been adulterated, or has been reduced or changed by the addition of water or other substance, or by the removal of cream, or milk known as swill milk, or milk from cows or other animals fed upon garbage or the like substance, or milk from diseased animals; but skimmed milk may be sold as such if contained in cans or vessels bearing upon their exterior the word "Skimmed" placed conspicuously in letters not less than two inches in length; and no person shall supply such skimmed milk unless such quality of milk is asked for by purchaser.

10. Every licensed milk vendor shall permit all his milk cows and cow byres, and all dairies and other places in which milk is sold or kept, to be inspected by the Health Officers, or person or persons appointed for that purpose by the Board of Health whenever any such officers may desire to do so, and no licensed vendor of milk shall keep any milk intended for sale, or which may be afterwards sold or offered for sale in the said city, in any place where such milk is likely to become unwholesome or liable to produce disease, either by reason of adulteration, contamination with sewerage, absorption of disease germs, infection of cows, uncleanness, or any other unrecognized cause, nor

in any place condemned by the Board or its authorized official, nor carry it in any wagon of vehicle used for the conveyance of swill, manure, or any other offensive material.

11. Every licensed vendor of milk shall have the number of his license conspicuously placed on the wagon or vehicle from which the milk is sold, and every can or vessel from which it is sold when no vehicle is used.

12. Every dairyman and vendor of milk and every driver of milk wagons or vehicles having in his possession in the City of Fredericton milk for sale in the said city at the time, shall, whenever so requested, furnish the Inspector of the Board with such samples of milk as he may require from time to time and at such places as the samples may be demanded.

13. Every sample of milk shall have a label attached to the vessel containing it, which shall have written thereon at the time of collecting it, the number of sample, date of collection and the initials of the officer or inspector receiving the same, who shall at once enter in a book (carried for that purpose) for further reference, a corresponding number with the name of the owner or driver from whom the said sample was obtained.

14. Each sample shall be examined separately according to its number, by the medical health officer or person appointed for the purpose, who shall register the specific gravity, temperature and percentage of butter fat, opposite a corresponding number in a book kept for that purpose, the names of the owners to be subsequently inserted.

15. The Health Officers and Sanitary Inspectors are authorized and required to inspect, as often as to them or any of them seem necessary, all Milk offered for sale whether on any of the streets, public places or shops of the said City, and to seize and destroy all such Milk which may, on such inspection, be found unwholesome or unfit for human food.

16. Any one infringing any of the above regulations will be subject, for every offence to a penalty not exceeding Forty Dollars.

17. These regulations will come in force on the first day of June, 1912. Passed and enacted this twenty-sixth day of April A. D. 1912.

CHAS. W. BECKWITH,  
Secretary Health District,  
No. 1, City of Fredericton.  
JOHN M. WILEY,  
Chairman.

## "WOMEN AND CHILDREN FIRST"

Haul down our flag from the flaunting peak; let it droop from the half-high mast,  
While we bow our heads in sorrow for the thousand souls that have passed.  
Our ship of pride is a thing of naught; she lies in the soundless deep;  
Out of reach of berg or hurricane her thousand brave men sleep.  
The sea hath taken her toll again, and a heavy toll she takes;  
And the sailor drowns, and far away the heart of the woman breaks.  
We bow our heads in sorrow but the crew in which we were nursed  
Makes our pulses speed that the cry of our breed was "Women and Children first."

Gone is the Titan that spurred the sea; gone are her thousand souls;  
Over the steel and over the bows the fathomless ocean rolls.  
Fragile overboard drifts the icy death, enwrapped in its Judas mist.  
Accomplice of traitor currents, it drifts as the currents list;  
And the smooth sea smiles as her ally lurks where the lordliest prizes are,  
And laughs at the shock and the shuddering plunge—and the fragment of floating spar.  
Curse the fawning sea, with her half-bared fangs! Let her do her treacherous worst—  
Who can't conquer the breed that dies by its creed of "Women and children first!"

Wherever there are people who are troubled with deranged nerves they will find that Milburn's Heart and Nerve Pills will restore the equilibrium of these deranged centres, and bring back the shattered nervous system to a perfect condition.  
Miss Emma Read, Laskay, Ont., writes:—"I have great pleasure in writing to tell you about the great benefit I have received by using your Milburn's Heart and Nerve Pills. About a year ago I was very badly run down and could hardly do my work. I tried different medicines but none of them did me any good. I was terribly nervous, and would start at the least noise, and even start in my sleep, which made me very weak. I used two boxes of your pills and I am now well and strong again."

## WAS TERRIBLY NERVOUS.

## WOULD START AT THE LEAST NOISE.

Wherever there are people who are troubled with deranged nerves they will find that Milburn's Heart and Nerve Pills will restore the equilibrium of these deranged centres, and bring back the shattered nervous system to a perfect condition.

Mr. Weston Webb, who has been sick, is somewhat recovering.  
Mr. and Mrs. Strilie Brewer are visiting relatives and friends at present.  
Mr. Chas. Dunn of Central Hainesville, spent Monday with Mrs. W. C. Clark.  
Mrs. W. B. Haines, who was thrown from a sled and hurt quite badly, is improving.  
Mr. Abe Chute is ailing again and has gone today to consult a doctor.

The silk dyers of Paterson, N.J., have received a voluntary increase of \$1 a week of fifty hours.

## PUNISHMENT FOR INHUMANITY AT SEA

(Toronto Globe)

The testimony of Fourth Officer Eoxhill of the Titanic that while the vessel was sinking a ship passed not more than four or five miles distance but failed to take notice of the Titanic's signals of distress, raises a question that can be settled only by an international conference on the saying of life at sea.

Assuming that Captain Smith Mr. Boxhall, and others on the bridge of the Titanic saw the steamer's light and not those of one of their own boats which had been rowed out two or three miles from the sinking ship, it is almost certain that the Titanic was herself plainly visible. Passengers on the level of the water two miles away saw the Titanic sink. The lookout man and the officer on watch upon a ship five miles away, raised thirty or forty feet above the level of the sea, must have been in a far better position to see the greatest of ocean tragedies. It seems incredible that any human being, moved by cowardice or lack of human kindness, should pass a sinking ship at sea, but there always will be a doubt as to whether or not some such incident occurred in connection with the loss of the Titanic.

If it did, what then? The penalty of every brave man's contempt for cowardice and inhumanity is a great price to pay when a coward is a member of a community in which it is well known and in which he must continue to live. But it is no penalty on the high seas, which belong to all nations, and where ships of every nationality meet and passed daily. There must be some international means of getting at the coward and the inhuman who shows the white feather at sea. The only effective method seems to be by agreement among the nations that a shipmaster or ship's officer who sees or hears signals of distress and passes without heading shall will be deprived of life of his certificate and rendered liable to imprisonment by the courts of his own country. For the great mass of the gallant men who command and officer the ships of the nations there is no need of the spur of pains and penalties. They are instinctively, almost rashly, brave. They die for one another oftentimes in the most Christ-like spirit of self-sacrifice. But there are some callous men at sea and some cowards there as well as on land. If the widely increased range given by the Macconi wireless system to a call for help from sinking ship is to prove as effective as it should in saving life at sea the nations should by mutual agreement, provide heavy penalties for all in authority who being within a defined distance, hear the call for help and fail to answer and take measures to rescue those in danger.

On land cowardice and inhumanity may be left to the judgment and penalties of the court of public opinion. At sea, where the people of all nations mingle, there is need for some better means of reaching the man whose is dead and whose ears are closed to the appeals of a common humanity.

**WISCONSIN SOLONS MEET**

Madison, Wis., April 30—The Wisconsin legislature assembled in extra session today in pursuance of the call issued by Governor McGovern last month. The principal matter to come before the legislators is the question of State aid in the strengthening of levees and other measures to prevent flood damage. New water-power legislation and proposed amendments to the weights and measures law are also to be brought up at the extra session.

Percy Haswell is to have another summer stock company in Toronto.
