CITY ELECTION

The Election for one Alderman for Queen's Ward in the City of Fredericton for the current year will be held on Monday the 27th day of May inst. At the following places:

Division No. 1.—For all voters residing or owning property above the centre line of Carleton Street prolonged, at or near the City Hall in the said City.

Division No. 2.—For all voters residing or owning property in the remainder of the said City, not included in Division No. 1, at or near the County Court House in the said City.

Polls will be opened at the above named places at nine o'clock, a. m., of the said day of Election, and will close of the hour of four o'clock, p. m. of the same day.

Nominations must be filed in the office of the City Clerk, City Hall, at or before four o'clock on Monday, the 20th day of May instant, and must be signed by at least two qualified Electors, and the signatures attested to under oath.

Forms for Nomination may be procured at the City Clerk's office.

A Certificate of the City Treasurer showing that all Rates and Taxes of the Candidate have been paid within the time required by law must be attached to each Nomination Paper.

Dated at the office of the City Clerk, Fredericton, the 8th day of May, A. D. 1912.

J. W. MCCREADY, City Clerk
228—25.

A Law Regulating The Sale of Milk in the City of Fredericton.

1. No person shall sell or offer for sale milk in the City of Fredericton without having first procured a license so to do, from the local Board of Health.

2. Every person applying for a license to sell milk within the City of Fredericton shall, with the application therefor, furnish the Board with a declaration in writing that all cows belonging to him which supply milk for the purpose of sale have been tested with the Tuberculin within one month from the date of such application by a veterinary surgeon, recognized as such by the Board, for the diagnosis of tuberculosis and that he will not sell or offer for sale in the said City of Fredericton, any milk procured from any cow which has not been so tested.

3. Every person so applying as aforesaid shall also furnish along with the application and with said declaration, a certificate in writing from an accredited veterinary surgeon, approved by the local Board of Health, certifying that all the cows from which the applicant procured any milk for the purpose of sale, have been tested within one month from the date of such application, with Tuberculin for the diagnosis of tuberculosis, and that the said cows and each and every one of them are entirely free from Tuberculosis, Cow Pox, Actinomyces, Puerperal Fever, Retention of the Placenta or any other malignant or contagious disease. All certificates from veterinary surgeons shall be on form approved of and supplied by the local Board of Health.

4. And every person owning or keeping herds from which milk is sold in the City of Fredericton, shall, upon making any additions to said herds, have each and every addition properly tested with Tuberculin for the diagnosis of tuberculosis and shall file a certificate from an accredited veterinary surgeon that said additions are free from tuberculosis.

5. And every person selling milk in the City of Fredericton shall have their entire herd of cows properly tested for tuberculosis as before provided, at least once every year, between the first of April and the first of May. Should the Board deem it necessary in the interest of the public health, they can order any or all herds from which milk is supplied to the City of Fredericton to be tested with Tuberculin as before described, twice during the year.

6. Every license to sell milk within the City of Fredericton shall be subject to the condition that the licensee shall and will observe, abide by and perform all the restrictions, conditions and regulations from time to time adopted or enacted by the local Board of Health during the currency of said license or any renewal thereof, and upon the said license failing to observe, comply with or perform any of such restrictions, conditions or regulations, the license granted to such vendor of milk shall forthwith become null and void.

7. Every licensed vendor of milk offering milk for sale in the City of Fredericton shall at least once a year, deliver to the Board of Health a statement containing (1) His name and address; (2) The source or sources of his milk supply; (3) The number of cows in his possession; (4) The average quantity of milk disposed of either (a) to milk shops, (b) to milk vendors, (c) or to private consumers; (5) The situation of his dairy or dairies, and such other information as the Board or its officers may deem necessary.

8. Every licensed vendor of milk shall comply with the various clauses of the Public Health Act by giving notice to the local Board of Health of any cases of contagious disease in his family or in his farm house or shop at which, from which, or in which the milk is either sent or received, and he shall further carry out the restrictions laid upon him by the local Board under the Public Health Act.

9. No licensed milk vendor shall sell or offer for sale in the City of Fredericton any milk which is unwholesome or unfit for human food, or any milk which has been adulterated, or has been reduced or changed by the addition of water or other substance, or by the removal of cream, or milk known as ewill milk, or milk from cows or other animals fed upon garbage or the like substance, or milk from diseased animals; but skimmed milk may be sold as such if contained in cans or vessels bearing upon their exterior the word "Skimmed" placed conspicuously in letters not less than two inches in length; and no person shall supply such skimmed milk unless such quality of milk is asked for by purchaser.

10. Every licensed milk vendor shall permit all his milk cows and cow byres, and all dairies and other places in which milk is sold or kept, to be inspected by the Health Officers, or person or persons appointed for that purpose by the Board of Health whenever any such officers may desire to do so, and no licensed vendor of milk shall keep any milk intended for sale, or which may be afterwards sold or offered for sale in the said city, in any place where such milk is likely to become unwholesome or liable to produce disease, either by reason of adulteration, contamination with sewerage, absorption of disease germs, infection of cows, uncleanness, or any other unrecognized cause, nor

in any place condemned by the Board or its authorized official, nor carry it in any wagon of vehicle used for the conveyance of swill, manure, or any other offensive material.

11. Every licensed vendor of milk shall have the number of his license conspicuously placed on the wagon or vehicle from which the milk is sold, and every can or vessel from which it is sold when no vehicle is used.

12. Every dairyman and vendor of milk and every driver of milk wagons or vehicles having in his possession in the City of Fredericton milk for sale in the said city at the time, shall, whenever so requested, furnish the Inspector of the Board with such samples of milk as he may require from time to time and at such places as the samples may be demanded.

13. Every sample of milk shall have a label attached to the vessel containing it, which shall have written thereon at the time of collecting it, the number of sample, date of collection and the initials of the officer or inspector receiving the same, who shall at once enter in a book (carried for that purpose) for further reference, a corresponding number with the name of the owner or driver from whom the said sample was obtained.

14. Each sample shall be examined separately according to its number, by the medical health officer or person appointed for the purpose, who shall register the specific gravity, temperature and percentage of butter fat, opposite a corresponding number in a book kept for that purpose, the names of the owners to be subsequently inserted.

15. The Health Officers and Sanitary Inspectors are authorized and required to inspect, as often as to them or any of them seem necessary, all Milk offered for sale whether on any of the streets, public places or shops of the said City, and to seize and destroy all such Milk which may, on such inspection, be found unwholesome or unfit for human food.

16. Any one infringing any of the above regulations will be subject, for every offence to a penalty not exceeding Forty Dollars.

Fredericton N. B.HOW THE FLEMMING GOVT.
ENCOURAGES AGRICULTURESalaries to Officials Absorbs Largest Share
of Appropriation--Promises Compared
with Performances

The farmers of the province are told from time to time how much the government is doing for them. They never hear of what the officials are doing for themselves and their friends. They used to complain of the expenditures of the old government upon officials but they have evidently forgotten all their small economies and believe now in large salaries, big expense accounts and plenty of them.

Just for salaries alone and expenses it cost the province \$21,352.08 last year in the agricultural department. A tremendous expenditure and no result, save in one department, horticulture. In this they continued the policy of the old government and no one finds fault with that expense.

But there was a large expense in connection with bringing pure bred cattle into the province to sell to the farmers. Premier Flemming had different views when he was in opposition. Just the year before he came into power in the budget debate of 1907 discussing agriculture he said:

"There were numbers of farmers in the province engaged in producing pure bred stock and the government in importing stock came into direct competition with these men. He thought there was plenty of pure bred stock to be got in the province and he saw no urgent necessity for importing any from outside sources. He would like to see some encouragement given to agricultural societies. There was a lot of such societies in the province comprising a number of the most progressive and up-to-date farmers and their opinion of their own requirements should be the best evidence."

He would like to see grants made to these societies for the purpose. Let the government give dollar for dollar what the societies are prepared to give themselves and thus allow the societies to import what stock they thought best. This plan he thought would result in the bringing in of a large amount of pure bred stock into the province suited to the farmers' exact needs."

This policy has not been carried out. In stead of any encouragement being given to local breeders they have been placed at a decided disadvantage the government beating them unfairly, inviting them to send their cattle to the sale but pay their own expenses, and feed, etc., while the exported cattle were brought there by an appointee of the department and placed in competition with them. This was the kind of treatment shown those who try to improve the breeding of cattle in this province.

Then again, in his speech upon the budget of 1907 Mr. Flemming, criticising the agricultural policy said that: "Under the present commissioner dairying, one thing in which the province ought to be able to compete with all comers is dying out. Naturally the people of the province will not stand still. There has been progress in some districts but this progress has been overbalanced by the failure elsewhere. I want to point out the cost of keeping up the agricultural machinery of the province. Expenses come under three heads. First, executive expenses, which, by the way, should not be charged against agriculture. By counting in these expenses however, the amount is swelled and the farmer deceived. Under this head there has been an increase every year since 1902. In that year it was \$4,603. Last year it was \$4,879.64."

SALARIES, ETC., \$21,352.90

It is well in view of the above from the premier himself when in opposition to show just what the officials cost the province, and what their salaries and expenses are. The figures are taken from the report of the auditor general.

Hon. Dr. Landry, salary \$1,700; appointed March 1908.

W. W. Hubbard, salary \$1,800; appointed 1st July, 1909.

FEARED HE HAD
CONSUMPTION

"Fruit-a-lives" Cured Him

HUGH MCKENNA, Esq.

St. Stephen, N.B. Jan. 17th 1911.
"I wish to tell you of the great good 'Fruit-a-lives' have done for me. For years, I was a martyr to Chronic Constipation and Stomach Trouble. I was greatly run down and my friends feared I had Consumption. I tried numerous doctors and all kinds of medicines, but received no relief until advised to try 'Fruit-a-lives' by Mr. McCready of St. Stephen, and am pleased to say that I now enjoy excellent health. 'Fruit-a-lives' are the best medicine made, and I strongly advise my friends to use them."

HUGH MCKENNA.
"Fruit-a-lives" is the only medicine that will positively and completely cure Constipation. This wonderful compound of fruit juices acts directly on the liver, causing this organ to extract more bile from the blood, and to give up more bile to move the bowels regularly and naturally.
Box 6 for \$5.50, trial size, 25c. At all dealers or send for receipt of price by Fruit-a-lives Limited, Ottawa.

Freeport, Ill., May 18—Hundreds of delegates and other visitors are here for the annual convention of the German Catholic societies of Illinois. The gathering will be opened tomorrow morning with pontifical high mass celebrated by Bishop Muldoon of Rockford. A parade and sacred concerts will be the principal features of the afternoon and evening programme. The business sessions will occupy Monday and Tuesday.

HUMAN HAIR ROOT
Showing Dandruff Germs At WorkWYETH'S
SAGE AND SULPHUR
HAIR REMEDYKills the Dandruff Germ
and Makes the Hair Grow

Restores Gray Hair to Natural Color

FEW people are aware of the number of Dandruff Germs that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelops the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR ARE A SURE SIGN OF DESTRUCTIVE GERMS.

Wyeth's Sage and Sulphur Hair Remedy not only kills the dandruff germs and prevents baldness, but it also restores faded and gray hair to natural color.

Don't Experiment With Old Fashioned Hair Dyes but save your hair and restore it to natural color and luxuriance by using Wyeth's Sage and Sulphur Hair Remedy.

Druggists
