

THE TORTURES OF RHEUMATISM

Happily Stopped When He Began To Take "Fruit-a-tives"

3 OTTAWA ST., HULL, P. Q.
 "For a year, I suffered with *Rheumatism*, being forced to stay in bed for five months. I tried all kinds of medicine without relief and thought I would never be able to walk again. One day while lying in bed, I read about "Fruit-a-tives" the great fruit medicine; and it seemed just what I needed, so I decided to try it. The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me."
 LORENZO LEDUC.
 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

MY CLOCKS.

Grandfather's clock, stately and tall, Stands soldier-like against the wall; Pendulum swaying to and fro, Rhythmic music, soft and low. Measuring time adagio.

Today the clock in accents clear, As if to stay the coming tear, Sends forth a message which I get To soothe my heart with grief beset— Slowly, slowly—"Don't fret; Don't fret!"

Another clock, small round of face, Upon my desk, innickie case, Merrily tickling with some show Of modern spirit, "git" and go. Counting the minutes staccato.

I turn to it with ear alert To hear a call; decisive pert; Then sit erect, and with a stare Can scarce believe it does declare, Jerking sharply—"Get there! Get there."

MARY CAREY.

SELFISH BRUTE.

Did you ever stop to think, Henery, asked his wife "how much money you could save if you stopped smoking?"

"Yes my dear," replied Henery, and I've often shuddered to think what you would do with that money if I should save it."

"For proof that beauty is only skin deep," remarked the Man on the Car, "I am the first puffed nose that comes within the range of vision."

WHEN DOES BRONCHIAL TROUBLE BEGIN TO GET SERIOUS?

First it was a little throat tickle, then a cough which grows severe. This neglected cough travels down the lungs, and it's mighty hard to treat. To treat throat trouble right, use Catarrhazone. It heals the sore spots, allays irritation, eases the cough, makes breathing regular, clears out the phlegm and frees the nostrils from crusts and accumulations. You can prevent colds, and keep free from Catarrh and bronchial trouble by frequently using Catarrhazone thousands prove this every day. Sold everywhere, two months treatment \$1.00, medium size 50 cents small size 25 cents.

THE FREE TRADE BOGAN EFFECTIVELY DEALT WITH

(Toronto Globe.)

Undeterred by the chilly reception accorded to former declarations that nothing but a Conservative triumph at the polls can save Canada from "free trade," Mr. Meighen continues to swing his pumpkin lantern in the belief that he can scare the Canadian public into granting him a renewal of power. At London he assured his hearers that even if Mr. Crean repudiated the charge that the Farmers proposed to establish free trade in Canada his followers would not be betrayed. "The breath of life of that party," says the Premier, "is free trade. . . . Read it—it denounces protection; it means free trade." By phrases such as these the Conservative Leader seeks to make the idea stick in the electoral mind that failure to return a Conservative majority to Parliament will bring Canada down with a crash to industrial chaos.

The danger is as remote and as unreal as that from a Halloween ghost. Put conditions at the worst with three parties in the new House each having about the same numerical strength. The Farmers' third will demand free trade, if Mr. Meighen does not overstate the case. The Liberal third will stand for a revision of the tariff based on the idea that the revenue needs of the Dominion and the interest of the consuming masses in town and country should be given greater consideration in the framing of tariff laws than the enrichment of a few favored classes of producers sheltered from all outside competition by excessive customs duties. The Conservative third will doubtless accept without reservation the Meighen theory that tariff taxes should be imposed to prevent importation and "to preserve and to expand all our field of endeavor," whatever may be the result in the undue enhancement of commodity prices.

Assuming that Parliament will be thus constituted and remembering that Canada must continue to raise from a hundred to a hundred and fifty million dollars yearly in the form of customs duties, how will the situation be reduced to a working basis? Only a third of the members believe free trade to be desirable under existing conditions even were it possible to secure the needed revenue by other means than tariff taxes. Free trade is therefore out of the question. Only a third of the members believe in the sort of high protection Mr. Meighen preaches the fiscal idol before which he abases himself. High protection is therefore out of the question. The future fiscal policy must inevitably be built upon the Liberal foundation—the middle policy—which avoids either the impossible course of absolute free trade ascribed by Mr. Meighen to the Farmers' organization or the framing of a tariff that will produce in the Dominion

a fresh crop of trusts, combines and mergers sheltered behind duties levied to prevent importation rather than to provide revenue.

In any coming together of the Progressive elements in the next Parliament for the purpose of carrying on the Government the Liberal policy is the only one affording a secure footing. It must prevail not merely because it is the alternative to the impossible extremes of high protection and free trade, but because it represents the attitude of the great consuming population of Canada, which recognizes that high wages are not really high if the cost of all the necessities of life is so great that the week's income is eaten up by the week's expenditure, leaving no balance of savings for days of adversity. Tariff reform will make Canada a more desirable country to live in, and can be brought about without injury to the industrial fabric.

STANLEY.

Stanley, Sept. 6.—Mrs. Sellers Fairley of Boiestown has sufficiently recovered from her recent operation at the hospital to be removed to the home of Wm. Fairley.

Harold Elford of Durham has been undergoing treatment at the hospital. The friends of John Robbins are pleased to see him so far recovered as to be able to drive into Stanley.

Dr. Folkins is also able to be out again after his illness.

Mr. and Mrs. Jas. Keenan are receiving congratulations on the arrival of a son.

Rev. R. A. Robinson has returned from his vacation which was spent in Nova Scotia.

The Roman Catholics are having service during the week by the Mission Fathers.

A. D. Biggs and wife accompanied by Mr. and Mrs. Laughlan are spending two weeks in Boston making the trip by auto.

Mrs. Frederick Brown is visiting her son Earle R. Brown of Plaster Rock.

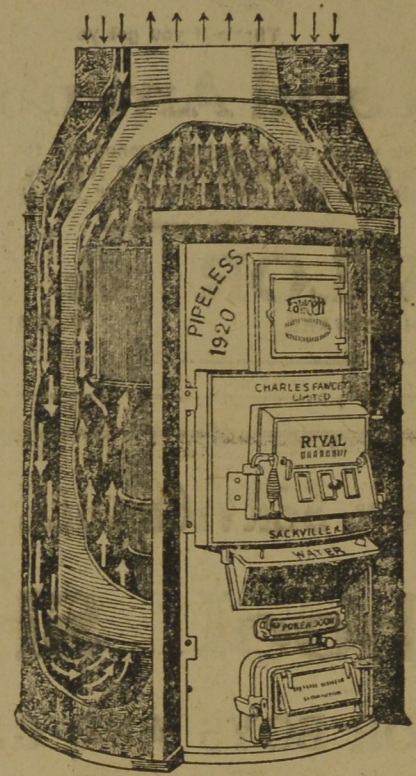

The residents of the village are pleased to once more have a daily train service inaugurated. The service that has been given by the operation of the Motor Bus, has been very unsatisfactory and inconvenient. In the case of an invalid being transported over the branch it was necessary to have stretcher placed in the trailer, and as this vehicle is minus springs one can imagine the jolting one would experience on a trip to Stanley under that arrangement. Your correspondent would like to see some of the officials of the C. N. R. transported in such manner and thinks there would soon be an improved service.

Miss Florence Sansom, student

There are many Pipeless Furnaces on the market to-day but the

FAWCETT "PIPELESS" IS DIFFERENT

IT IS DIFFERENT BECAUSE IT IS BUILT BY EXPERTS TO WEAR AND TO WORK AND NOT MERELY TO SELL.

Before deciding on that new Furnace for next winter be sure to get the little booklet "The How and Why of the Pipeless Furnace". It is just a plain statement of heating facts written so that anyone can understand it, and is free for the asking.

We make wood furnaces and coal furnaces in both the pipe and pipeless styles.

CANADIAN BAR ASSOCIATION

Ottawa, Sept. 6.—Impetus was given the movement in favor of greater racial re-approachment in Canada at the meeting of the Canadian Bar Association today when W. C. Mikel, K.C., of Belleville, Ont., secured the unanimous passage of a resolution bearing on the subject of better understanding between the English and

nurse, of Victoria Hospital, Fredericton, spent Labor Day at her home here.

Mrs. Annie Gregory and Mrs. Annie Whittaker of Fredericton are visiting relatives here.

The school has reopened under the efficient management of Miss Annie Sansom as principal with Miss Barton and Miss Josephine Pringle as assistants.

MOTHERS!

WATCH YOUR TEETHING BABIES

THOUSANDS OF THEM DIE EVERY SUMMER

When the baby starts to cut its teeth, then is the time the poor mother is under the stress of great anxiety. The child's bowels become loose and diarrhoea, dysentery, colic cramps and many other bowel complaints manifest themselves; the gums become swollen, cankers form in the mouth, and in many cases the child wastes to a shadow, and very often the termination is fatal.

On the first indication of any looseness of the bowels, give a few doses of

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

and thus, perhaps, save your baby's life.

For the past 76 years "Dr. Fowler's" has been used by mothers for teething babies so you do not experiment with a new and untried remedy which might be dangerous to your darling's health.

Price 50c. a bottle; put up by The T. Milburn Co., Limited, Toronto, Ont.

STEWART IS HELD FOR TRIAL

Newcastle, Sept. 6.—At the evening session of the James Ross murder case, of Weguac, the prisoner, Millet Stewart, was committed for trial in the Supreme Court, the next sitting of which will be held in Newcastle in the second week in December. When asked the usual questions, the prisoner answered in a firm voice, "I am innocent of the crime with which I am charged and will prove my innocence at the trial." Stewart appears in good health and shows no sign of the strain which he has undergone during the trial. The other prisoners in the case have been remanded until further advice.

Mrs. Stewart, who has attended every session, was present with her son and younger daughter today. During the afternoon session the coat worn by James Ross at the time of his death was produced by the court and identified.

O Little house of happiness
 Whose rooms are each a song,
 Whose doors of welcoming love—
 liness
 Were shut to me so long!

O little house of happiness
 Whose windows light the way,
 Whom gentle wind and sunshine
 bless,
 You took me in today!

French-speaking Canadians. The motion had received the hearty endorsement of the Premiers of all the Provinces and by Rt. Hon. Arthur Meighen, Prime Minister of Canada.

The resolution follows:

"Whereas it is in the best interest of Canada as a whole that there should be a 'better understanding' between the English and French-speaking Canadians; and whereas the lawyer has in the past taken an active part in bringing about useful reforms and in helping humanity to solve its difficult problems;

"Therefore, be it resolved that the Canadian Bar Association urge the members of the legal profession throughout Canada to use their influence to bring about a 'better understanding' between the English and French-speaking Canadians."

YOU BELCH GAS?

If you have sour risings from the stomach, feel bloated and uncomfortable, just try twenty drops of Nerviline in sweetened water. Relief will come quick. Nerviline dispels the gas, sweetens the stomach, makes you fit and fine in a few minutes. As a general household remedy for many of the ills that constantly turn up, nothing is more useful in every home than a 35-cent bottle of good old "Nerviline."

100 YEARS OF BORDER PEACE

Blaine, Wash., Sept. 6.—The little border towns of Blaine, Wash., and White Rock, B. C., were filled to overflowing with holiday crowds here today to witness ceremonies in connection with the dedication of the peace arch on the international boundary to celebrate a century of peace between Canada and the United States. The benediction was pronounced by Right Rev. A. V. Dupencier, Anglican Archbishop of New Westminster, B. C. A Canadian girl, Miss Margaret Tremore, of New Westminster, presented a Union Jack to the United States delegation, while Miss Gretchen Snow, of Blaine, presented a Star and Stripes to the Canadian officials. Samuel Hill, President of the Pacific Highways Association, builder of the memorial, laid the corner stone of the arch.

BOOKS MADE BY ONE MAN

Washington, Sept. 7.—What are believed to be the only books ever produced—from the contents to the printing and binding—by one man working alone have just been placed on exhibition at the Smithsonian Institution.

They are the product of the late Dard Hunter of Chillicothe, Ohio, who wrote two books, designed the type with which they were to be printed, cast the type, set it, printed the production with a hand press and then did the binding. Hunter also manufactured the paper that was used.

This is part of the general exhibition in the division of graphic arts in the building.
