LYDD GEORGE WILL NOT BE AT WASHINGTON CONFERENCE

Premier Has Definitely Cancelled His Passage on the Steamer Aquitania—The House of Commons Will Discuss the Proposed Conference on Friday—Text of Motion to Be Presented.

London, Nov. 2.—Prime Minister Lloyd George has definitely cancelled his passage on the steamer Aquitania on which he was to have proceeded to the United States November 5 to attend the Washington disarmament conference. This fact became officially known here tonight for the first time.

A discussion of the Washington conference on limitation of armaments and far eastern problems will take place in the house of commons next Friday in connection with a resolution presented by the Labor members "warmly approving of the conference".

Rt. Hon. Austen Chamberlain, government leader, announced today.

Sir Francis William Lowe, Unionist member from Birmingham, protested against such a discussion at this time because of the adverse effect it might have in the United States and other

countries. Mr. Chamberlain replied that this point had been given most serious consideration.

In Complete Accord

Continuing the government leader said: "We are in such complete accord in our desire to see the Washington conference succeed that the government so as to conduct the discussion, confiding in the discretion of the that it will not prejudice the success of the conference, agreed to the discussion."

That motion will be presented by John Robert Clynes, Stephen Welsh, J. H. Thomas, Arthur Henderson and Thomas Shaw. It reads:

"That this house warmly approves of the meeting of the international

conference at Washington and trusts that a supreme effort will be made to arrive at such measures of agreement as will secure a substantial and progressive reduction of the crushing burden of armaments and prevent the exportation of munitions of war by private firms from one country to another."

In the interest of unity with the labor party it was decided to expunge from the motion that portion reading "and prevent the exportation of munitions of war by private firms from one country to another."

A Glasgow Opinion

London, Nov. 2.—The Glasgow Herald says it thinks the dissatisfaction expressed by Premier Smuts, of South Africa, and by several extreme upholders of the autonomy school in Canada at the failure of the British government to secure separate dominion representation at the Washington Conference is perfectly natural. Inclusion of Canadian and Australian statesmen would seem a voice for imperial Britain, according to the Herald. It is not merely that the Mother Country alone will be heard but from the point of view of the status of the Dominions, which means much to South Africa in the struggle with the Nationalists, there is an undoubted retrogression from the position attained at the international conference at Paris.

America with her devotion to legal form, the Herald says further, does not understand the British Empire at all. "Unpleasant as is the setback, the Dominions must be content to leave to the natural process of development," the Herald concludes, "the full international acceptance of their position, which assuredly will come in time."

Japanese Arrive

Washington, Nov. 2.—The principal Japanese delegation to the armament conference arrived here late today from the Pacific Coast by special train. The party included Admiral T. Kato, Minister of Marine; Prince Iyezo Tokugawa, president of the House of Peers, and a party of advisors and experts.

The delegation was met by Secretary of State Hughes and third assistant secretary Bliss, representing the State Department.

Secretary Denby and assistant-secretary Roosevelt of the Navy Department

ment and a number of other officials also met the delegation.

The Japanese delegation to the conference is now complete, the first of any country to be completed by arrivals here.

The Japanese delegation arrived here, according to its leaders, with the desire and hope of discussing first at the conference the question of limitation of armament and not far eastern problems. The Japanese viewpoint it was explained was that the Pacific and Far Eastern questions might prove full of difficulties and if taken up first the progress of the negotiations might be delayed.

DO LARGE BREATHS HURT? IS YOUR CHEST WHEEZY?

Proper treatment is a vigorous rubbing of the chest, neck and sore side with good old Nerviline. This wonderful liniment sinks into the tissues where the pain is seated and gives instant relief. That catch disappears, all sense of soreness goes quickly. Just try Nerviline for chest tightness, coughs, colds and soreness. It's a wonderful liniment, saves the whole family from numerous minor ills and should be in every home. Large bottles, 35c at all dealers.

PUBLIC MEETING!

MR. STOCKER WILL SUPPORT THE LIBERALS

To the Editor of the Telegraph:

Sir—So far, I have been indifferent to the political situation, but I had an experience today, which I considered an injustice and I propose to lay it before the public for their consideration. Thus I decided to buy a little plant for domestic comfort, and wanted to find out what it would cost me. I asked the agent for the same if I couldn't buy a Canadian plant and save exchange and duty. He told me he could sell me a Canadian or an American plant. He being a friend of mine, said buy the American, you will get better satisfaction. I said I will have to pay exchange and duty. He said there's nothing in that. The Canadian is up to the same price with duty added as the American.

I next called on the man re the fixtures. He advised me to buy American "They are cheaper than Canadian, although the duty of seventy per cent is added" he said. I went to the customs house and asked them what it would cost me to bring into St. John this plant. The answer was this.

Cost of the plant in United States \$500. They add exchange at nine per cent, \$45, a total of \$545. Then they add duty on plant 27 1-2 per cent, also on exchange, \$149.87, or \$694.87 in all. Then the government adds on exchange and duty a four per cent sales tax or \$27.79, a total of \$722.66. In all the plant cost \$500. The government takes from me \$222.66, making a total of \$722.66. The freight is not here.

We don't want free trade. We have to have a revenue and also to foster our industries, but this I think is prohibition, not protection.

This is said with no bias and I ask any fair minded voter: "Do we want the taxes revised?" Before this I was doubtful how I would cast my vote. I have no doubt now.

Thanking you for this space,
JOHN E. STOCKER.
Oromocto, N. B., Nov. 2.

Charged With Theft Of Boots.

Gilbert Richard Morris an employee on the waterworks extension of the Town of Devon, was arrested by the Fredericton police on the complaint of James Butler of Sydney a fellow workman who alleged that Morris stole a pair of his boots. The men working on the waterworks live in small camps and Morris and Butler were in the same one. Monday morning the boots left with him. Butler followed the boots left with him. Butler followed Morris to the city and found him at work wearing the boots. The arrest. The hearing took place this afternoon.

Every householder who has grown weary of taking care of a lawn all Summer understands that it's much better for grass to be let the Autumn leaves lie as they fall. And they hide the fact that the lawns needs another going over with the mower.

Your Home Town Paper What it Can Do for You--

First of all, it can bring to you the NEWS of your own home town. Week after week, it prints in detail the happenings of the community. Faithfully it sets forth the goings and comings of its people, giving careful attention to the homely little items that are ignored in the overcrowded dailies of the big cities.

It can furnish you with more interesting information about people you know, or used to know than could a dozen private correspondents. The one who writes to you may know only a few of your friends at home—but your Home Town Paper knows them all. It tells you about people you are interested in.

Finally, in a good, hard business sense, your Home Town Paper is of value to you. It keeps you posted as to the industrial and commercial growth of a community which familiarity may have caused you to neglect. It often reveals that keen people see, right in your home town, a mine of golden opportunity. The moral is obvious—
