## KONETCHY TRADE CONFIRMED AND THEN DENIED

Experts are at Sea With Regard to  
Report Transfer of St. Louis First  
Baseman

St. Louis, Mo., Oct. 22—The report from New York that Edward Konetchy, first baseman of the St. Louis Nationals, is to be sold or traded to New York, is practically confirmed here, although no formal announcement has been made.

Konetchy has been, or is to be, traded for Catcher Wilson, Outfielder Snodgrass, or the Indian Jim Thorpe. The New York Club owes the St. Louis Club a player on a former trade.

Ottawa, Ia., Oct. 22—President Hempstead and Scout Kinsella of the New York Nationals, who arrived with the Giants and White Sox on their world tour, said today that there was no truth in the report that First Baseman Konetchy of St. Louis would become the property of the New York Club in exchange for any New York player. A letter was produced to show that New York was not ready to make a trade.

### OUR PROTEIN SOLD

The Moncton Transcript says: "Mr. J. A. McAnn has sold his speedy trotter 'Our Protein' 2.21 1/4 to Mr. D. W. Wilbur for a good figure. Mr. Wilbur is to be complimented on his purchase, as this is without doubt the fastest trotter in the province. With just three weeks training this season she stepped a mile in 2.15 1/4 in a race with pacers.

### GIANTS BEAT SOX

Sioux City, Iowa, Oct. 23—The New York Giants and the White Sox on their tour of the world, played here today, the Giants winning 6 to 3. The score:

White Sox ..... 101091000—YY  
White Sox ..... 101001000—3 10 0  
Giants ..... 01000203x—6 12 1  
Batteries—Scott and Daly; Fromme and Wingo.

### BRESNAHAN NOT TRADED

Cincinnati, Oct. 23—President Chas. W. Murphy of the Chicago Nationals, who is in Cincinnati, denied today that Roger Bresnahan had been traded to Brooklyn and would succeed William Dahlen as manager of that club. Murphy said there was absolutely no truth in the report.

### SPORTS OF ALL KINDS

"Ikey" Spicer and Charlie Jones, who played with U.N.B. some years ago, both viewed the U.N.B. practice yesterday. They are here writing the law examinations.

Letters from eye witnesses of the Acadia-Wanderer game state that our old friend "Mike" Kitchen is the mainstay of the Garnet and Blue quarters.

Over-confidence can lose more games than under-confidence and in the past U.N.B. teams have suffered from it. Any tendency toward swelled head should have been removed by yesterday's performance against the second team, in which the first team forwards were shown up badly.

## COMMISSION PUTS TROUGH FIRST HOCKEY DEAL

Skene Ronan Goes to Coast With  
Patrick and Carroll Kendall Goes  
to Ottawa

Ottawa, Ont., October 22—The first hockey deal under the new Commission was put through here last night when the Patricks traded Carroll Kendall for Skene Ronan. Ronan played centre for the local team last winter but failed to give the Ottawa team the best he had, mainly owing to differences between him and members of the Executive. The Executive therefore felt that it would be better to get Kendall in exchange for him, especially in view of the fact that Ronan wished to get away while Kendall was anxious to remain here, Ottawa being his home city.

Joe Gorman, the ex-Capital lacrosse star was instrumental in putting through the deal, Gorman being on a flying visit to his home here.

Manager Percy Leseur, of the Ottawas had a line of about a dozen new players for the locals several of whom he declared will be second Fred Taylors. The Ottawas will present a very different line up this winter. Leseur, Shose and Broadbent being about the only members of last year's team who will be retained. The locals are anxious to sell Benedict and Paragh providing they are able to secure a good price for them.

### FAITH IN THE NORTH

Peace River Man Looks for a Gold  
Rush Some Day

Big and bronzed, Sheridan Lawrence of Peace River, unfolded some interesting tales of the northland while on a visit to Winnipeg. For instance, he discovered to the world another Dr. Grenfell, another Dr. Luke of Labrador, in the person of a fine old man named Baldwin, who ministers to the wants to the settlers and the Indians and takes what they can give in return, perhaps a load of wood or the carcass of an elk, but more often his services are free.

That there will some day be a gold stamped to the Peace River is the prophecy of the northerner. In the sand bars of all the rivers there is gold, he said, but so far it could not be panned in paying quantities.

It is 600 miles by water from Edmonton to Fort Vermilion and measured by the map the distance between the two points as the crow flies is almost as great as between Moose Jaw and Edmonton, but here is the word of this man, who has lived at the northern point for over a quarter of a century, that grain planted later matures at the same time as the cereals of Alberta and Saskatchewan. The summer days are longer in the north, with more sunlight, hence the result.

"The conditions in the country are practically the same as when I entered it 26 years ago," said Mr. Lawrence. "Fur trading is the chief occupation. Good prices are paid and there is no want among the Indians. Independent traders have corrupted the morals of the tribes to a certain extent and they are not accorded the same credit as in the early days when they dealt exclusively with the Hudson's Bay, but the Indians are being taught some bitter lessons and they are improving. So far as I can see the Indians are decreasing somewhat in numbers."

In answer to a question as to how he came to go away up into that country where the mail comes in ten times a year, passing all the fertile lands of the west, Mr. Lawrence said that in the early days his uncle, E. J. Lawrence, was located at Fort Vermilion as a church missionary. This uncle induced his father to leave Frontenac county, Ontario, and go up there as farm instructor. They went via Calgary 26 years ago, traveling all the way in carts across an unbroken prairie to the Athabasca River.

## TWO LOCAL RUGBY TEAMS PLAY TOMORROW

OTTAWA N. H. A.

CLUBS AFTER FAST  
AMATEUR PLAYERS

Eddie Gerard and Angus Duford Have  
Received Good Good Offers---No  
Definite Answers Given

Ottawa, Ont., October 22—The new Amateur Hockey League, to include the Victorias and M. J. A. A. of Montreal, New Edinburgh and the Stewarts, of Ottawa and St. Michaels College and the T. R. and A. U. of Toronto has not yet been dropped while in Toronto on Saturday one of the New Edinburgh club officials had a talk to secretary Livingstone and Jimmy Murphy, of the T. R. and A. A. and St. Michaels respectively. A meeting may be arranged within the next week or so in which the matter will be thoroughly discussed. The Ottawa N. H. A. Club are very anxious to land a couple of the New Edinburgh stars and have offered Eddie Gerard \$1,800 and Angus Duford \$1,200 to sign up for the season. Neither of the two players have given the local pros a definite answer as yet.

### HARVEST OF THE SEA

Great Wealth in the Fisheries of the  
Pacific Coast

The halibut of British Columbia have an enviable reputation, for they are less over-grown and of finer texture than the Icelandic and North Sea fish; a length of five to six feet and weight of 250 pounds is exceptional for the British Columbia halibut. The waters between Queen Charlotte Islands and the mainland, especially off Rose Spit, and off the west shore of Banks Island, were at one time veritably overcrowded with halibut.

Very large fish were often taken then, some weighing 150 pounds, but the general weight now is only from 20 to 60 pounds. The halibut are scattered all over the strait, but regular migrations have been noticed, and where the waters of Dixon entrance meet the currents, moving from the south through Hecate Strait, and food appears abundant, the fish congregate in large numbers.

The superabundance of herrings on the coast of British Columbia has been recognized from early times, but, as the local demand was insignificant, no herring fishery can be said to have existed, until about thirty years ago. At intervals, and in a desultory way, various parties engaged in the herring industry, and quantities were converted into oil and guano. Within the last ten years, however, the value of this fishery resource has been realized.

Herring occur all along the coast as far as Alaska, though in sheltered areas, like the waters near Nanaimo, Ucluelet, Barkley Sound, Virago Sound and Queen Charlotte Islands, the schools appear to form solid phalanxes.

U. N. B. Will Meet St.  
John Athletic Club in  
Return Match Here---  
Fredericton High  
School Will Play St.  
John High at St. John---  
U. N. B. Team Will  
Show Some Changes

Two Fredericton Rugby teams will be playing tomorrow, the University of New Brunswick here against the St. John Athletic Club and Fredericton High School at St. John against St. John High. The St. John Athletic Club will be here to meet U.N.B. in a return game. Fredericton High will return tomorrow night from St. John, it having been decided to play no game with Rothesay Collegiate School this year.

### THE U.N.B. TEAM.

The U.N.B. team worked out at the College Field yesterday and showed a vast improvement. The whole half-line was out and all the scrimmage with the exception of Jewett, who is nursing a sore leg. The forwards heeled pretty well and the halves had lots of chances of getting away and took them all. The kicking at goal also showed a big improvement. Turner will be given a place in the first team scrimmage tomorrow, his kicking ability being very noticeable. "Lassie" Brewer will be used as "lock" for part of the game at any rate. Otty will be the full-back and the rest of the team will be unchanged.

### FREDERICTON HIGH.

Fredericton High will have the same lineup as in the last game played against St. John. McLaughlan will be substitute back and Maxwell will be substitute forward.
