PALMER'S
Moose Head Brand
Summer Packs & Plow Shoes

SLIP on a pair of Palmer's Summer Packs or Plow Boots, and you will realize what Farm Foot Comfort really means. Added to that you have strength and durability, making a combination of good features seldom found in one pair of boots.

Palmer's Summer Packs and Plow Boots are hand made and hand sewed by expert workmen. The bottoms and uppers are made from Palmer's Famous Skowhegan Waterproof Leather, rich dark brown in color, very soft and pliable. Bottom part of uppers runs clean under a great advantage over the lasted under boot.

Soles are attached by special clincher nailing process or sewed by lock stitch process.

A splendid boot for plowing or any kind of hard outdoor work.

Get a pair from your dealer, or order direct from us. Write us for our catalogue No. 43.

A BOOTLEG AUTOMOBILE STRIKES AN AMBULANCE

Norwalk, Conn., Dec. 2.—An automobile owned by Dr. David W. McFarland, in which his assistant, Geo. W. Dilworth, was taking a nurse and two patients from New York to the physician's sanitarium, was struck by a large touring car on the Post road near here this afternoon. Dilworth and John Zacherino of Brooklyn, who was in the other machine were so badly hurt that they died tonight, and three women and four men are in the Norwalk Hospital injured.

According to the Norwalk authorities the car which hit Dr. McFarland's machine was driven by Harry Ferguson of Brooklyn. Others in it besides Zacherino were Angelo Mace, a Westpoint saloon keeper, whose place has been raided by prohibition enforcement authorities several times. Fred Roberts a Norfolk jitney driver who is under indictment for carrying concealed weapons and who has been accused of bootlegging by the people and Elia Natolitano of Norwalk. Mace and Ferguson have been arrested, charged with reckless driving, and their machine is being held for the Coroner. In the car, the Norwalk police said, they found a quart bottle of whiskey, while the odor of liquor was noticeable all over the machine.

Dilworth had left New York earlier in the day with Miss Peggy Bain, a nurse and two patients. Miss Sarah Schuyler and Mrs. John Waldman of New York. The three women were cut and bruised but at the hospital it was said that they had not been seriously hurt. Both Mace and Ferguson were badly hurt, but physicians said probably would recover. The others were only slightly injured. Both cars were badly damaged.

The accident occurred on Nash's curve, where many fatal wrecks have taken place. A few years ago a carload of Bridgeport Sunday school children returning from a picnic, struck another machine and twelve were killed. About a month later a machine over-turned while making the turn and two were killed. Mace, who is held by the police as partly responsible for today's accident, killed a child on a Danbury road about a year ago. The Norwalk authorities said that the car in which he and the others were riding today was being driven at more than sixty miles an hour when it hit the machine driven by Dilworth.

Since the accident in which two men were killed a string of lights has been on the turn every night. Today's accident, however, occurred before dark. Dilworth died before he was able to tell the police how the accident occurred but the police say that Ferguson was driving the touring car recklessly and disregarded the approach of the McFarland machine.

DO NOT NEGLECT BRONCHITIS

The principal symptom of bronchitis is a cough which is dry, harsh and hacking, accompanied with rapid wheezing, and a feeling of tightness through the chest.

There is a raising of phlegm, especially in the morning after rising from bed. This phlegm is at first of a light color, but as the trouble progresses it becomes of a yellowish or greenish color and is sometimes streaked with blood.

In DR. WOOD'S NORWAY PINE SYRUP you will find a remedy that will stimulate the weakened bronchial organs, subdue the inflammation, soothe the irritated parts, loosen the phlegm and mucous, and help nature to easily dislodge the morbid accumulation.

Mr. John H. Root, 40 Maple Ave., Hamilton, Ont., writes: "I was troubled with bronchitis and had a very bad cough. I had it so long I was beginning to get afraid of other developments. I tried all kinds of cough remedies without relief. I was advised by a friend to try Dr. Wood's Norway Pine Syrup, so I got a bottle and it convinced me to believe that I had at last gotten the right medicine. I used several bottles and am practically well. I have recommended it to others since, and good results followed."

Be sure and get "Dr. Wood's" when you ask for it; price, 35c. and 60c. a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

CALORIES ARE GIVING WAY TO THE NEMS

(New York Sun)

Have you had your proper supply of nems today? This is a most important matter and should not be neglected. If you haven't you should attend to it at once. With an under supply of nems you are likely to fall into a condition that will necessitate a visit to the family doctor. Just when we have got used to calories and vitamins they are going out of fashion, and the nem is taking their place in life. It is a new food unit. You don't have to pay any attention to calories if you get your nems.

The nem is recognized by the medical profession as the basis of the "Pirruet System" as it was invented by Dr. Pirruet of Vienna. He invented the word also, making it up right out of his head by using the first letter of the words "nutrition, element, milk," for the nem is food value to be found in one cubic centimeter of milk. From this basis Dr. Pirruet, with the aid of Mr. Hoover and his food purveyors has been building up the underfed children of Austria to health and strength. He doesn't pay any attention to the calory content of food just to the nem, and that does the business in fine shape.

Vegetables have their place in the food table but they are way down on the list in nems. That old staple potato contains only one nem to the gram while dried vegetables contain 4. Green peas and beans only are figured as half a nem to the gram each, while tomatoes and asparagus are at the foot of the class with one fourth nem to the gram. Fruits are not very strong in nems either unless they are dried when they figure 3.3 nems to the gram. Grape juice figures only 1 1-2 nems to the gram and fresh fruit in general only six-tenths of a nem to the gram. The whole egg is high on the list, 5 nems to the gram and the nuts run strong with 9 nems to the gram.
