

## TO BENEFIT OTHER SUFFERERS

### You May Publish My Letter About "Fruit-a-tives"

Mr. Jones is proud to acknowledge the great debt of gratitude he owes "Fruit-a-tives". He is glad to have his letter published in order that other sufferers may be induced to try these wonderful tablets made of fruit juices.

SARNIA, ONT., FEB. 5TH 1911

"I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors, but derived no benefit whatever. Finally, I read an advertisement for 'Fruit-a-tives'. I decided to give 'Fruit-a-tives' a trial and they did exactly what was claimed for them. I have now taken them for some time and find they are the only remedy that does me good. I have recommended 'Fruit-a-tives' to a great many of my friends, and I cannot praise these fruit tablets too highly."

PAUL J. JONES.

50c a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

## SIR THOMAS TAIT ON AUSTRALIA

(Montreal Telegraph)

Sir Thomas Tait spoke before the Canadian Club this afternoon, upon the country in which he spent a number of years in railway organization—"Australia." He was introduced by Mr. R. Doble.

Sir Thomas believed that Canadians had a rather hazy idea of the dimensions of Australia. That dominion had an area one-quarter that of the Empire, being 2,500 miles from east to west and 2,000 miles from north to south. The area in total was 3,000,000 square miles, one-third of this being within the tropics.

"Rivers are few, and the mountains, as a rule, are hardly deserving of the name," stated Sir Thomas.

"Rain is very scarce, only 15 inches falling in over half of the continent during the year, while other parts have heavy rains at certain seasons."

ONE

During three years he had never seen snow in Western Australia.

A strange fact brought out was that Australia had the largest male population of any other country in the world, yet women had the franchise, and had proven that they were as capable of exercising the vote as men.

Internal matters, he said were run in an excellent manner, yet there were more strikes in Australia than any other country in the world, this being due to the fact that the employer was held responsible and not the employee.

In conclusion he stated that Australia had found in producing her own battleships that they cost more, took longer to build, and were not as perfect.

## THE WOOD FAMILY, BURTON, SUNBURY

(Communicated.)

Mr. Daniel Wood, born June 30, 1868, died August 21, 1847.  
Miss Ann Wood, his wife, born on November 6, 1769, died September 4, 1847.

Their children:  
John Wood, born December 25, 1883, married D. Stennick and G. McElly, widow, died 1870.

Amelia Wood, born October 12, 1791, married to Thomas Mersereau, died 1785.

Margaret Wood, born July 16, 1793, married to John Mersereau, died November 11, 1879.

Ann Wood, born June 7, 1795, married to John Dewitt.

Elizabeth Wood, born March 6, 1798, married to George Morron, died May.

Mary Wood, born March 6, 1800, died July 20, 1801.

Hannah Wood, born March 21, 1802, married to Thomas Stennick, died March, 1846.

Mary Wood, born September 22, 1805, married to Luke Dewitt, died January 7, 1880.

Phoebe Wood, born April 20, 1809, married to Orlo Hoyt, died 1836.

Will some relative of each family of the girls please send me a history of the family to the present date or publish it in this paper, also will some one please inform me of the date of Mrs. John Dewitt's death. If this can be obtained a complete history of the Wood family from 1764 till the present date will be published in this paper.

ALFRED H. WOOD,  
French Lake, Sun. Co.

## NATIONAL GRANGE IN SESSION TODAY

Manchester, N. H., Nov. 12.—Sturdy American farmers with their wives and daughters were the honored guests of Manchester today on the occasion of the opening of the forty-seventh annual meeting of the National Grange, Patrons of Husbandry in whose ranks were enrolled more than 1,000,000 of the most practical agricultural experts in the world.

State and city officials and many of the representative citizens of New England are gathered to do honor to the visitors whose work for the elevation of the American farmer has been recognized and paid tribute by leading statesmen and industrial men of the United States.

The morning was devoted to the organization of the convention. At the afternoon session Oliver Wilson, of Peoria, Ill., national master, delivered his annual address and reports were presented by the other officers. The remainder of the week will be given over largely to the conferring of degrees.

The business sessions will last ten days or two weeks. The relations of the currency bill to the farmer will be a leading topic of discussion. The effects of the new tariff law also will be considered. The principal social function of the convention will be a banquet next week in honor of the officers and delegates. Several speakers of national prominence will be heard at the banquet.

## TO DISCUSS PRO- TECTION OF CHILDREN

Lawrence, Kas., Nov. 13.—The reform of the existing laws of Kansas, so as better to protect the children in this State will be the leading subject of consideration and discussion by leading speakers at the annual joint session of the Kansas Conference of Charities and Corrections, the Institute of Criminal Law and Criminology, and the Probate Judges' Association which met here today at the invitation of the University of Kansas and will remain in session at the campus for three days. An unusually interesting program has been arranged for the joint meetings.

## CANADA'S MINERALS A MIGHTY RESERVE

East and West There is Much Exploration to be Done in Years to Come

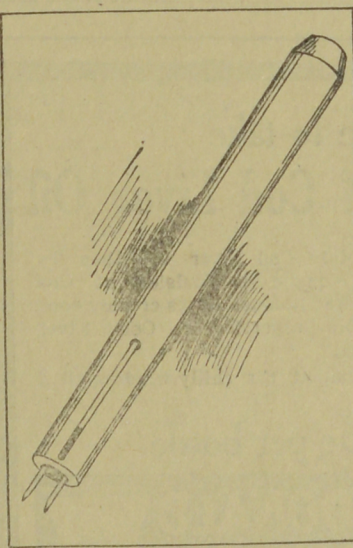

Canada's wealth of minerals is strikingly shown in a pamphlet issued by the Dominion Department of Mines. In a brief introductory statement some interesting data are given respecting the main geographic and geologic features of the country. Its area of about 3,729,665 square miles—larger by 112,000 square miles than that of the United States, including Alaska—comprehends six great physiographic units. Of these the greatest covers an area of over 2,000,000 square miles extending in a more or less U shape from Labrador on the east to Coronation Gulf on the west, bordering the great Hudson Bay Depression. This area, designated the Laurentian Peninsula or Plateau is a region of great potential importance as a producer of minerals of economic value. Within this region occur the phosphate deposits of the Ottawa Valley; the silver mines of Cobalt; the gold deposits of Porcupine; the nickel-copper deposits of Sudbury and the iron mines of the Michipicott district. The importance, the department officials state—already demonstrated as a source of such minerals as graphite, feldspar, mica, corundum, iron ores—both magnetites and hematites—silver, cobalt, copper, nickel and gold—will undoubtedly be greatly extended in the future.

The second regional unit is the Hudson Bay basin, occupying a central depression in the Laurentian Plateau, of which the coastal plain is largely unexplored but is known to contain deposits of rock salt and gypsum. Southeast of the Laurentian Plateau, including that part of Quebec south of the St. Lawrence and east of Sherbrooke, and the whole of the Maritime Provinces is the Acadian region. In its eastern section—Nova Scotia and New Brunswick are found very important coal fields and other mineral products are copper, gold, sulphur, gypsum, oil, gas, sandstones, limestones, clays and building and ornamental stones of various kinds. Next of the regional units is the St. Lawrence plain, extending from Quebec to Lake Huron and including the lowland areas of Ontario. Although essentially an agricultural area it contains salt, gypsum, natural gas, petroleum, building stones, brick clays and the raw material of various cements, limes and mortars. Westward from Winnipeg is the Great Plains Area, extending to the foothills of the Rocky Mountains, a distance of 600 miles, and northward from the boundary to the Arctic Ocean. The southern parts produce natural gas, building stones and raw material for cements and mortars—the northern part is only partially explored but is known to contain deposits of rock salt, gypsum, coal and tar sands. More important are the deposits of lignum coal. Next to this area is the mountain ranges with immense reserve of bituminous coal, while the Cordilleran belt has valuable deposits of economic minerals, and especially silver, gold and copper. This region when fully explored "is destined to become one of the most important mining sections of the world."

## DRIVES STAPLES STRAIGHT

Tool of New Design for Wire Fence Erectors and Other Workmen

In the erection of wire fence it is generally necessary to drive a large number of staples and for the security of the fence it is desirable that the staples should be driven straight and accurately. Owing to the irregularities of the wooden posts and the strain of

TOOL FOR DRIVING STAPLES

the fence wire, which is under a heavy tension when being erected, it is not always an easy matter to put the staples just where they are wanted to be of the most service.

The tool shown in the accompanying cut is designed to accomplish this. With its aid a great many more staples may be driven in a given time and they are driven in a much superior manner. Besides being a convenience to fence erectors there are other mechanics who will find use for this tool such as electricians, box makers, cooper and the like.

### Handy Shipping Box

For shipping poultry, fruit and vegetables an inventor has patented a crate that folds completely for shipping when empty.

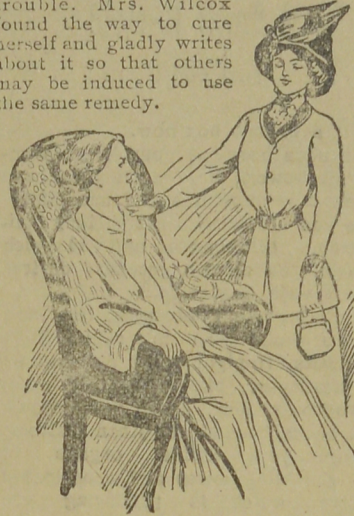

### Uses Lots of Leather

Although the United States has more cattle than any other country except India it is the world's greatest importer of hides and skins.

## Why Do Women Suffer

When They Could Be Well?

It is so easy to be well and strong and able to enjoy life, that it is surprising how many women drag themselves through the day suffering tortures from lame back due to kidney trouble. Mrs. Wilcox found the way to cure herself and gladly writes about it so that others may be induced to use the same remedy.

BIG LORRAINE.

"During the last winter, I was bothered very much with a Weak Back. I was advised by a friend to try GIN PILLS and I did. The first box I found helped me very much and I found when I had taken the second, I was completely cured." Mrs. F. WILCOX.

GIN PILLS do not do all that we say they will—let us know, and we will cheerfully refund your money. Send for a free sample and see for yourself that they will do you good. Then buy the regular boxes at your dealers—50c., 6 for \$2.50.

National Drug and Chemical Co. of Canada, Limited Toronto.

## ALL-AMERICAN ATHLETES SAIL

San Francisco, Cal., Nov. 12.—With the cheers of many enthusiasts ringing in their ears, the quartette of American Athletes who are to pit their prowess in feats of strength, speed and skill against the best of the athletes in Australia and New Zealand, sailed for the Antipodes today. The members of the team are James Power of the Boston Athletic Association, mile champion of the United States and Canada, who is ready to run at any distance from the half of two miles; Alvah Meyer, of the Irish-American A. C. of New York, who is the sprinter on the team; Rufus R. Templeton, of the Olympic A. C. of San Francisco, who will do the hurdles, high jump, broad jump and pole vault; and Reginald Coughy of Ukiah, Cal., who is a shotputter and weight thrower.

## HEAD AND NOSTRILS STUFFED FROM GOLD

Don't stay stuffed! Quit blowing and sniffling! A "Pape's Cold Compound" taken every two hours until three doses are taken will end gripe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores.

## CENTENARY OF SHURMAN'S BIRTH

Columbus, O., Nov. 13.—Veteran politicians remember the day as the centenary of the birth of the late Allan G. Thurman, Ohio's "Grand Old Roman," who, for a generation was the leader of the Democratic party of this State and one of the great men in the United States Senate for twelve years.

## Heart and Nerves Were Bad.

Could Not Sleep.

To the thousands of people who toss on a sleepless pillow night after night, or who pace the bedroom floor with nerves on the jump, the heart action all wrong, and to whose eyes sleep will not come, Milburn's Heart and Nerve Pills offer the blessing of sound refreshing slumber, as they restore the equilibrium of the deranged nerve centres and correct the wrong action of the heart.

Mrs. Charles Teel, Horncastle, Ont., writes:—"Just a few lines to let you know what Milburn's Heart and Nerve Pills did for me. My heart and nerves were so bad I could not sleep, and the least noise or excitement would make me feel so that I used to think I was going to die, and I would tremble until I could hardly stand. I took doctor's medicine, but it did not do me much good. At last I tried Milburn's Heart and Nerve Pills, and can certainly say they did me a great amount of good. I can recommend them to anyone who is suffering as I was."

Milburn's Heart and Nerve Pills have been on the market for the past twenty years, and have done more to steady shaky nerves and strengthen weak hearts, than any other known preparation.

Price, 50 cents per box, or three boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

66 YORK STREET - PHONE 219-31

"In the Case of MY Little Girl—"

In choosing and using a soap for your "Little Fairy" you will find no soap so mild, so neutral, so agreeable to tender skins as FAIRY SOAP.

Being made from products that you could eat, FAIRY SOAP agrees with even the tender skin of a babe.

## FAIRY SOAP

is white—pure—floating. It comes in a handy oval cake. We could charge you five times the price asked for FAIRY SOAP and we could add nothing to its quality.

In higher-priced soaps you are paying for high-priced perfume and fancy wrappers—not better soap.

Made by THE N. K. FAIRBANK COMPANY Montreal

"Have you a little 'Fairy' in your home?"

**IF** You had a sore place, and had to choose between two remedies, one of which went to the sore spot direct, and the other by a round-about way, and might never get there at all, which would you prefer?

When you have a cold, asthma, a sore chest, catarrh, or any lung trouble, you can select between two remedies—Peps, which go to the sore spot direct, and any of the ordinary cough mixtures, cough drops, and doses, which go—not to the lungs and breathing passages, but to the stomach; which is not all right.

Don't ruin your stomach in an attempt to direct to the throat and lungs. Peps go direct to the throat and lungs. Peps are tiny tablets containing certain medicinal ingredients, which when placed upon the tongue immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the capillaries and tiny air sacs in the lungs, thus curing asthma, catarrh, bronchitis, croup, etc.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps (come) there direct, and at once commence their work of healing.

Once you try them you will never use any other remedy but Peps for colds, coughs, sore throat, catarrh, tightness across the chest, "that right cough," and all breathing and lung troubles.

Have you tried this famous remedy? If not cut out this article, write across it the name and date of this paper, and mail it (with 15 cents to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps at 50c. box.
