HOW TO TREAT ALL SKIN TROUBLE

Greasy Ointments no Use---Must be
Cured Through the Blood

It is not a good thing for people with a tendency to have pimples and a blotchy complexion to smear themselves with greasy ointments. In fact they couldn't do anything worse because the grease clogs the pores of the skin, making the disease worse. When there is an irritating rash a soothing boric wash may help allay the pain or itching, but of course it doesn't cure the trouble. Skin complaints arise from an impure condition of the blood and will persist until the blood is purified. Dr. Williams' Pink Pills have cured many cases of eczema and skin disease because they make new, rich blood that drives out the impurities, clears the skin and imparts a glow of health. The following proof is offered. Mrs. Fred Tremble, Gunter, Ont., says: "For more than a year I was steadily afflicted with salt rheum or eczema. My hands were so sore that I could not put them in water without the skin cracking open. I tried all sorts of ointments recommended for the trouble but they did not do me a particle of good. I was told Dr. Williams' Pink Pills would cure the trouble and began taking them. I took the Pills steadily for six or eight weeks and they completely cured the trouble. This was several years ago and I have never been bothered with it since."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

line of work. In their desire to enjoy their vacations to the last moment the vacationists overlook or pay no attention to the fact that the sudden inrush of thousands of travelers is bound to congest and embarrass the railroad lines leading to the city. On Labor Day this year more than 750,000 persons poured into the city, while at the same time more than 300,000 left the city for their homes in the West, South or New England. It will easily be understood that the capacity of the various railway lines was taxed to its utmost and that the officials of the various lines had plenty of work to keep them out of mischief. To transport these enormous crowds is a large task, but the handling of the mountains of baggage carried by the incoming trains is even a more Herculean task. It is estimated that more than 70,000 pieces of baggage were handled on Labor Day at the Grand Central Terminal alone.

BATHERS WERE SHOCKED

It is a mighty fortunate thing for many women who frequented the beaches in and around New York City that the New York beach crowds are accustomed to all kinds of weird bathing costumes and do not seem to mind them. Atlantic City is not so very far from Coney Island, yet the crowds bathing there seem to be a great deal more fastidious and conservative in their notions as to the propriety of feminine bathing costumes. The wife of a hotel proprietor of Burlington, N. J., visited Atlantic City the day and appeared on the beach in a costume which would have scarcely caused a ripple of surprise at Coney Island. She wore a bright purple bathing suit with a short skirt which was slit on each side from the girth to the waist. The other bathers, strange to say all men, were greatly shocked. They began to crowd around the woman, probably to allow the shock to soak in thoroughly. In a few minutes the woman was surrounded by a mob of several hundred men who gave expression to their moral indignation by throwing handfuls of wet sand at her offensive costume. Of course, the woman became scared and after a few screams she fainted and collapsed. The life guards came to her rescue, carried her to the beach hospital and then escorted her to her hotel to protect her from the crowd of men still lingering on the beach.

BOMB OUTRAGES

Over on the East side, in the congested Italian quarters of the city bomb outrages have become so common that nobody seems to pay much attention to them excepting, perhaps, the persons who may be injured or whose property is destroyed by an explosion. In Coney Island bomb explosions are not yet of common occurrence, notwithstanding the fact that Coney forms the centre of a large Italian settlement. The other day the wife of an Italian grocer in Coney Island found a bomb to which a sputtering fuse was attached, in front of her husband's store early in the morning. She alarmed the whole neighborhood with her screams which was rather fortunate, for the commotion brought another Italian woman to the scene who had lived on the East side of Manhattan until recent-

dam. Part of this sheathing was knocked down. When they saw that the pile-driver was out of control, those working near and beneath it jumped into the river and swam for shore. Arch Smith had a narrow escape but Booker was struck by the falling sheathing just as he was about to jump.

UNFAVORABLE COMMENT.

The manner in which the work at the highway bridge is being carried on is causing unfavorable comment in every quarter. It is claimed that the workmen have practically no protection and that in spite of the fact that an unlimited expenditure of money is permitted in connection with the work.
