C. W. ROBINSON,
Minister of Lands and Mines.

VALEDICTORY ADDRESS AT U.N.B.

(Continued From Page Two.)

that seventy five per cent they have placed in the last four years only one man on the debating team. The "Science" men that have received their degrees today realize that they have lost a great opportunity by not entering more enthusiastically into the work of the Debating Society. The valedictory address usually contains a word of advice to the three undergraduate classes. Our advice is, that both the Science and the Arts men shall work together and by so doing benefit alike by their work as debaters.

APPOINTED A DEAD MAN

Ottawa, May 10—Alexander Johnston, deputy minister of marine and fisheries, was the third deputy head of a department to come before the special committee on the Spinnery bill amending the civil act, and urge that certain appointments be taken from under the jurisdiction of the civil service commission. Mr. Johnston said his department could judge fitness of candidates for employment better than the commission. The operation of the present civil service act had had a most demoralizing effect on his employees.

The unrest in the civil service might not be permanent but Mr. Johnston could not see the end in sight.

Referring to delay in appointments Mr. Johnston said that one man had been appointed by the commission six months after he died.

Hon. W. J. Roche, chairman of the commission, declared that this was a fairy tale. It was classification of the position and not appointment in this case.

able to start a summer camp which we hope may be kept up indefinitely. To this benefactor they extend their sincerest thanks for all that he has done towards keeping them together and developing that feeling of sympathy and common interest, so necessary to students seeking a liberal education.

Word of Farewell

And now, Your Honor, time bids me be drawing to a close. The proceedings of the afternoon have been leading up to no easy task. The associations of the past four years are not easily broken.

To you Mr. Chancellor and Gentlemen of the Faculty we owe a great debt. As Freshmen we entered these halls with the old childish fear of an instructor and his rod. Instead of driving us you have acted as our guides along the path of learning. In the classroom you have treated us as men and women. You have given us the best in culture and learning and your strong personality has won us to our highest endeavors. In years to come, thoughts of our alma mater will bring thoughts of you and what you have done for us.

To the Citizens of Fredericton we extend our thanks. With your proverbial hospitality you have entertained us in your homes, welcomed us into your churches, and smiled at our midnight rackets. Just one more favor we ask of you: When you hear the roar of yonder cannon during the small hours of tomorrow morning, please do not think harshly of the college boys, for it will be the last salute of the 1921 class to its Alma Mater.

To the Undergraduates we must now surrender the helm. You have worked and played with us for the past three years and from our associations with you we know that we can leave the fair name of U. N. B. in no better hands. One word of parting advice: Remember that many hands will make work easy. Divide the offices of your Student's Association amongst many so that the work will not rest on the shoulders of a few. We are certain that you will carry on to the glory of old U. N. B.

Your Honor, just one last word, to the Chancellor and Gentlemen of the Faculty, to the citizens of Fredericton, to the Undergraduates and to our Alma Mater—Farewell.

"Do you drink?"

"No."

"Then hold this quart while I tie my shoestring."

90 tons hard coal, egg size, for the Normal School (Annex).
The coal to be properly screened and the entire quantity to be delivered not later than August 1st, 1921, at the above mentioned buildings, or as may be otherwise directed.

P. J. VENIOT,
Minister of Public Works for New Brunswick.
Department of Public Works,
Fredericton, N. B., May 10, 1921.

Cause of Early Old Age

The celebrated Dr. Michenhoff, an authority on early old age, says that it is "caused by poisons generated in the intestine." When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. 15 to 30 drops of "Seigel's Syrup" after meals makes your digestion sound.

PROPERTY DAMAGE

Another risk you run is that your car may injure or destroy property belonging to others. Such accidents are as likely to occur as those involving personal injuries.

There are all sorts of possibilities in this line, ranging from a collision with another vehicle to the breaking of a fence or garage door. Even spattering a woman's gown with mud is sufficient basis for a damage claim.

OUR DAMAGE INSURANCE PROTECTS YOU against such claims, just as effectively as our Liability Insurance does against claims for personal injuries. It covers claims for damages on account of injury to or destruction of property belonging to others, except such as is carried on the car. Call and see us.
