TARIFF BILL WILL PASS NEXT WEEK

United States Senate
Makes Rapid Progress
in Consideration of
the Free List

DEBATE ON MEASURE WAS RATHER LIVELY

Washington, Aug. 25.—Ratification of the free list in the tariff bill with reservation of a few commodities for later consideration; agreement by Democrats of the Finance Committee to consider an amendment by Senator Kenyon, which would automatically transfer trust-controlled articles to the free list, discussion of free print paper and the paper schedule, and a lively debate on southern and New England cotton mills enlivened the tariff debate in the senate today.

So rapid was the progress in consideration of the free list that Democratic leaders were led to predict an early passage of the bill, insisting it would be ready for a vote by the middle of next week.

In the midst of this progress, however, were injected several set speeches which precipitated a long colloquy between Senators Lippitt of Rhode Island, and Smith of South Carolina, over southern cotton mills. This occupied several hours and left the schedules considerably behind for the day.

Free raw wool was among the proposals in the free list, approved by the senate in "committee of the whole," but this will come up again

POWER BOAT RACES AT KEOKUK

Keokuk, Ia., Aug. 27.—It is generally predicted that new world's records will be established here this week at the annual regatta of the Mississippi Valley Power Boat Association. The regatta was formally opened today and will be continued until Friday.

Among the contestants are two new boats entered by Commodore Blackton of the Motor Boat Club of America, whose "Baby Reliance III" broke all existing world's records at the association regatta at Davenport last year. The new boats were designed to pass the sixty-mile-an-hour mark. Whether this will be accomplished remains to be seen but the experts who have seen the craft on trial spins are of the opinion that they will turn out to be world-beaters.

Another notable entry in the regatta is "Disturber III," owned by Commodore James A. Pugh of Chicago. This is a big forty-foot hydroplane with the most powerful engine ever placed in an American racing hull.

The scene of the regatta is Lake Cooper, the big sheet of water formed in the Mississippi River above the great Keokuk dam, which was dedicated today. This lake was named in honor of Hugh L. Cooper, the engineer who designed and built the dam.

EXTENSIVE GERMAN ARMY MANOEUVRES

Berlin, Aug. 26.—As a preliminary to the most imposing and extensive German army manoeuvres in years the Kaiser today held an inspection of the 5th Army Corps at Breslau. Later in the week His Majesty will inspect the 6th Army Corps at Posen. These two army corps are to form the opposing forces in the great manoeuvres to be held early next month. The scene of the manoeuvres will be the historic plains at Prussian Silesia. This year aeroplanes and dirigibles are to be used to a greater extent than ever before and every available dirigible flier in Germany will be at the disposition of the two commanders-in-chief of the opposing armies. The aeroplanes will be employed as swift dispatch bearers and for reconnoitering purposes. The dirigibles will be equipped with light wireless outfits and their principal function will be to transmit instructions from the commanders to their officers.

Distinguished Jurist Will be One of the
Speakers at the Meeting of the American
Bar Association at Montreal—Great
Reception is Being Planned for Him—
McGill University to Give Him Honorary
Degree

New York, Aug. 25.—One of the most distinguished foreigners and described as "Quite as big a man as there is in England at the present time," the Right Honorable Viscount Haldane of Cloan, Lord High Chancellor of Great Britain, who sailed from Liverpool last Saturday, is due to arrive in New York late Thursday night or early Friday morning. He probably will not leave the ship until Friday.

From the moment of his arrival and during his trip to Montreal to attend the meeting of the American Bar Association, until he boards the Lusitania on his return journey Tuesday night, Sept. 2, Lord Haldane will be the guest of the association and will be under the special care of the association's reception committee headed by Francis Rawle of Philadelphia.

Lord Haldane will not have much idle time on his hands. He will dine at the Metropolitan Club, inspect West Point, attend a dinner given by Pres. Kellogg of the American Bar Association in Montreal, be introduced to the Bar Association by the Chief Justice of the Supreme Court of the United States, and will then deliver an address. Ex-President Taft and scores of the most eminent men in the United States will be among his hearers.

He will also be the guest of the minister of justice of Canada at a banquet in his honor and after the banquet will attend a reception tendered by the minister of justice of Canada on behalf of the Dominion government. He will then return to New York and will sail for home, all within five days.

The lord chancellor will be accompanied by his sister, Miss Elizabeth Haldane, and Sir Kenneth Muir-Mc-

Kenzie, G.C.B., K.C., who is known officially as clerk of the crown.

The reception committee of the American Bar Association consists of Mr. Rawle, Joseph H. Choate of New York, James C. McReynolds, Attorney General of the United States; Alton B. Parker, ex-Chief Judge of the Court of Appeals of New York; J. M. Dickinson, ex-Secretary of War of Tennessee; Francis Lynde Stetson of New York, Charles Henry Butler of Washington, and C. A. Severance of St. Paul.

Miss Haldane will be met by Mrs. Henry Rawle, the daughter-in-law of Chairman Rawle, Mrs. Hall, the daughter of Judge Parker; Mrs. J. M. Dickinson, Mrs. C. A. Severance, Mrs. Charles Henry Butler and Mrs. Grant LaFarge.

Doherty, Minister of Justice and Attorney General of Canada; Hon. Joseph H. Choate, ex-Ambassador to Great Britain; Hon. Elihu Root, United States Senator from New York, and Hon. Frank B. Kellogg, president of the American Bar Association.

Lord Haldane is undoubtedly as strong a man as there is in England today. At the bar he had a great chancery practice and also before the Privy Council—appeals from the colonies, where questions of foreign law came up. He was raised to the peerage in 1911.

C. MILES MOORE IS DEAD AT WOODSTOCK

(Special to The Mail.)

Woodstock, N. B., Aug. 26.—C. Miles Moore died this morning at his mother's home following a short illness from cancer, aged 48 years. He went to Vancouver a few months ago and only arrived home Wednesday last and failed rapidly until the end.

He leaves, besides his wife, three daughters, one son, one brother and two sisters.

The deceased was a member of the well known lumbering concern of Fred Moore & Sons, who at one time had lumber interests spread over various parts of New Brunswick and Maine. His business career started in Meductic, where he became the junior member of the concern and his ability gained promotion for him and he was recognized as a lumberman of exceptional ability. The funeral arrangements have not yet been completed.

The election will be held Thursday. If the charter is adopted the control of the entire municipal government will be invested in a commission of three, composed of a mayor and two commissioners. WATT MUST PAY DEATH PENALTY

Amherst, N. S., Aug. 25.—Charles Watt, who murdered the illegitimate child of his sister, April 19, 1913, and who was sentenced to death at the June sitting of the Supreme Court in Amherst by Judge Sir Charles Townshend, was informed today that he would have to pay the extreme penalty for his crime, between the hours of six and twelve Thursday morning, Aug. 28.

A strong petition, signed by six hundred Amherst citizens, and several personal pleas for commutation of sentence had been sent to the minister of justice and the evidence of the case was reconsidered. This evidence was of such a nature however, that the sentence of death had to be sustained. Sheriff R. B. H. Davidson received word this afternoon that all appeals had failed. The scaffold is being erected.

Watt is beating up well and is gaining flesh. He does not appear to worry as 'the day of his death' approaches.

Rev. E. H. Ramsay, Presbyterian minister, says that Watt is a converted man and is fully prepared to meet his God. No confession has yet been made.

It is understood that no person, with the exception of the officials, will be present at the execution.

NO ARMED INTERVENTION

President Wilson's
Program Will Not
Likely Affect the
Market

The Investment Demand For Securities
is Showing a Marked Improvement
—C. P. R. a Little off

New York, Aug. 26.—In the light of this morning's press despatches, the financial community was correct in the assumption that President Wilson's ultimatum to Mexico contained no threat of armed intervention. The policy to be adopted apparently is one of non-interference, involving a cessation of all diplomatic relations with the southern republic. This program holds little menace and while the situation may eventually call for more vigorous measures there is nothing alarming in the present outlook. Routine news, on the whole was colorless but the market nevertheless gave evidence of inheriting strength. The investment demand, as reflected by several new railway issues, show distinct improvement and the prevailing level of prices is still low enough to attract more or less constant support from this source.

SCOTT ACT CAMPAIGN AT SUSSEX

Five Well Known Physi-
cians of the Town Before
the Court Charged with
Violating the Act

NORWEGIAN HAD A PAIN AND WANTED PRESCRIPTION

Sussex, N.B., Aug. 25.—Intense interest is being manifested here today in the hearing of a number of alleged violations of the Canada Temperance Act, in which several prominent doctors of the town are charged with violating section 126 part 2 of the Act by illegally giving prescriptions for intoxicating liquor.

The cases are being heard before Magistrate Folkins and at the two sessions held today the court room was packed to the doors. Evidence was taken in three cases, one each against Dr. W. H. White, Dr. D. H. McAllister and Dr. G. N. Pearson. J. Arthur Freeze is conducting the prosecution and G. W. Fowler, M.P., is representing the defendants.

The chief feature of the evidence taken today was the story of Anton Gjerd, a Norwegian, who is said to have come here from Moncton about the first of August and represented himself to the people as being interested in lumber lands. This story seemed plausible, as for some time a party of Norwegian lumbermen have
