

# FOUGHT WITH LORD ROBERTS

Veteran of Crimean War and Indian Mutiny  
Suffered Horribly With Rheumatism, Until  
"Fruit-a-tives" Brought Welcome Relief.

GEORGE WALKER, Esq.

Chatham, Ont., April 3rd, 1913

"I am a veteran of the Crimean War and the Indian Mutiny, volunteering from the Royal Artillery into the Royal Engineers, and served under Lord Roberts during the Indian Mutiny, and am a pensioner of the British Government. Pierce hand-to-hand fighting and continual exposure, left me a great sufferer from Rheumatism, so much so that my legs swelled up making it impossible for me to walk. My bowels were so constipated that I only had one passage a week until I got to using "Fruit-a-tives." They cured me of both the Constipation and Rheumatism. To-day, my bowels move immediately after breakfast, and in my regular employment, I walk thirty miles a day and enjoy perfect health. No more Rheumatism or Constipation.

You are at perfect liberty to publish this letter and my photo if it will be advantageous to "Fruit-a-tives."

WHY "Fruit-a-tives" cures this trouble. Rheumatism is the result of poisoned blood, due to weakness or faulty action of the bowels, kidneys or skin. In Mr. Walker's case, Rheumatism was the result of excessive Constipation. Waste matter remained too long in the system, was absorbed by the blood and inflamed the nerves and membranes in his legs. When he started to take "Fruit-a-tives," these tablets immediately acted on the liver. More bile was given up to move the bowels. As the bowels were cleaned, the poisonous waste matter was removed, the blood became clear and the nerves were no longer irritated. To-day, Mr. Walker is enjoying vigorous health that was his when he fought with Lord Roberts and helped to plant the British Flag firmly in our Over-Seas Possessions. He is as active as a man of forty and cannot praise "Fruit-a-tives" too highly. Try them yourself, 50c. a box, 6 for \$2.50, trial size 25c., at all dealers or from Fruit-a-tives Limited, Ottawa.

## HARVEY STATION

Harvey Station, Nov. 19.—On Monday past Dr. Holden, of Fredericton, and Dr. B. H. Dougan, of this place, performed an operation on Henry Messer, of South Tweedside or appendicitis. The operation which was a difficult one was successful and Mr. Messer is in a fair way of recovery.

A number went to McAdam this morning to be present at the marriage of Lewis Moffatt, of Coburn, to Miss Lizzie Clifford, of McAdam, which is to take place there today.

Rev. M. J. Macpherson, who has

been ill, was able to occupy his pulpit on Sunday, although not yet fully recovered from his illness.

Miss Nellie Smith, who has been visiting Great Britain, France and Germany during the past summer and autumn, arrived home on Monday, after a very stormy voyage, day, after a very stormy voyage, which lasted nearly three weeks. She landed at Montreal. Miss Smith was one of a small party of tourists, and during her trip visited many places of interest in England and Ireland, and spent over two months in Paris and Berlin.

## "ABOLISH SWEATING," CONFERENCE URGES

London, Nov. 17.—Led by the Duchess of Marlborough, a great call for the abolition of "sweating" among women workers went forth today from a conference of influential people at her home, Sunderland House, in Mayfair. Representatives of society of the church, and of every political party united with the workers themselves demanding the abolition of "sweating." There were Mr. Masterman, Financial Secretary of the Treasury, urging that this was no party question; Lord Lytton condemning this "dry rot sapping the strength of the nation"; J. R. Clynes, a labor M. P., pleading for a place in life for the worst paid worker, and the Bishop of Oxford.

No speech brought home the conditions of "sweating" more forcibly than that of the Duchess herself, who said that when it was remembered that two million women and girls are employed in factories and workshops in Great Britain, and at least 100,000 working for wages in their own homes, the question of "sweating" became surely a matter of great importance.

When Mr. Masterman arose to speak he discovered that suffragettes were present. Several women at the back of the room greeted him with cries of "Votes for Women." As the interruptions continued the Duchess of Marlborough appealed to the suffragette element to desist, with the desired effect.

## M'MANIGAL TO BE DEPORTED

Ottawa, Nov. 16.—If Ortie McManigal, the dynamiter tries to enter Canada he will be stopped by the Immigration authorities and deported. The crimes of which he has been convicted are such that it leaves no doubt that he would be deported. However no word has been received by the officials at Ottawa of his entrance, though it is rumored here he entered Canada at Detroit last night.

## MYSTERY IN HIS MOVEMENTS

Detroit, Mich., Nov. 14.—Ortie McManigal, dynamiter, whose confession aided in sending the McNamara Brothers to San Quentin Prison and thirty-three other Union labor officials to Leavenworth Penitentiary, was in Detroit Wednesday or yesterday, according to a story in The Detroit Free Press today. McManigal was released from the County Jail at Los Angeles, November 3rd.

McManigal was accompanied it is said, by Detective Malcolm McLaren, who arrested the dynamiter in this city three years ago.

On a train running between this and Buffalo, it is said, McManigal and McLaren were joined by Detective William J. Burns and the three men had a conference regarding McManigal's future action. It is understood McManigal intended to cross the Canadian border at Buffalo and that his ultimate destination is London, England.

## NEW WORDS

The English Language is Enriched Daily

Four new words are added to the English language every day, if we may accept the dictionaries as a standard of measurement. During the last three centuries the rate of growth of the dictionaries has been 1,500 words a year. All tongues have been materially enriched by advances in chemistry, botany, aviation, wireless telegraphy, and other sciences. There are now in fact 600,000 English words, but about one-quarter of this number are rare scientific terms or words that are obsolete or obsolescent. Not more than 25,000 are of Anglo-Saxon origin. An American, Mr. Gifford Pinchot, is a most prolific word inventor. He has introduced some thirty terms, most of them relating to forestry and logging. Mr. Roosevelt has added a number of terms to the vocabulary of natural history, and Sir Ernest Shackleton, the explorer, is another whose word coinage has been approved by the etymologists. English continues to be the most widely used language. There are now 160,000,000 persons who speak the tongue of Shakespeare.

## Outdoor Art in Canada

After a sketching trip in Nova Scotia, Archibald Browne, a Canadian artist, said, "I am proud to be a Canadian. There is nothing in Europe that is finer than the Annapolis valley. If there is anything as fine. In fact there is no place in Canada that impressed me so favorably. I feel a touch of romance in that country, while from a craftsman's point of view the motives are varied and the color so charming as to be intoxicating in places. Painters do not need to leave Canada for material."

## Attacked by Timber Wolves

A party of four government surveyors working 35 miles north of Battleford, Sask., were held at bay by timber wolves for three days and later two of the party were drowned in a muskeg. They had fired all their ammunition and were unable to repulse the wolves until relieved by the half-breed who brought in the bodies of the victims to Battleford.

## WHEN APPETITE FAILS AND DIGESTION IS BAD

There is Danger Ahead for the Man  
That Neglects Nature's  
Warning

Dyspepsia Tendencies are Serious and Should  
Be Treated Accordingly

Headaches have never come to those who use Dr. Hamilton's Pills and this fact is vouched for by the Assistant Manager of the Poultry Success Magazine of Springfield, O., Mr. J. H. Callender, who writes: "No better medicine than Dr. Hamilton's Pills. We use them regularly and know of marvelous cures, that resist ed everything else. They cleanse the whole system, act as a tonic on the blood, enliven digestion, help the stomach and make you feel strong and well. For headaches, indigestion that the one prescription is Dr. Hamilton's Pills."

Being composed of natural vegetable remedies, Dr. Hamilton's Pills possess great power, yet they are harmless. They aid all organs connected with the stomach, liver and bowels. In consequence food is properly digested, the blood is pure and nourishing, the body is kept strong and resists disease. All druggists and storekeepers sell Dr. Hamilton's Pills, 25c. per box, 5 for \$1.00, or by mail from the Catarrhons Co., Buffalo, N.Y., and Kingston, Canada.

## An Encounter With a Bear

Chased by a bear, Andrew Craig of Brightside, near Kingston, Ont., had a thrilling experience. He was on his way to get his cows, when he ran across a bear and two cubs. The mother sent her cubs up a tree and then set out to attack Craig and his dog. Craig did not have his gun with him and so was caught at a disadvantage. Believing that to retreat was the best policy, Craig and his dog ran for all they were worth. As he was jumping a fence, Craig slipped and the bear, dog and bear fell in a heap. The bear then coolly walked back to look after her cubs, much to the joy of Craig.

## Grain Storage Capacity

The grain storage elevator of Fort William and Port Arthur is 41,935,000 bushels, and ranks second among the cities of the world as a grain storing centre, exceeded only by Chicago, Ill., with elevator capacity of 45,360,000.

## Cutlery Kept Clean and Bright

Sprinkle a little Old Dutch Cleanser on a damp cloth and rub over the wet knife or fork. Then wash and dry thoroughly. Spots, rust, fruit stains and discolorations disappear instantly.

## WORLD'S "RICHEST WOMAN" IS 78

New York, Nov. 21.—Mrs. Hetty Green, whose wealth is so vast as to make a "twenty million dollar widow" appear as a mere "piker," reached her seventy-eighth birthday anniversary today, but she did not observe nor celebrate the occasion. All week days look alike to Mrs. Green. Apparently she saw no reason why she should vary her usual routine of business just because it happened to be the anniversary of her natal day. She made several calls in the financial district and put in considerable time at her offices at 111 Broadway. Ever since she reached her seventieth year it has been rumored at intervals that "the world's richest woman" intended to retire and turn over the management of her colossal business and financial interests to her only son, Col. E. H. R. Green. The rumor appeared about to be verified a year or two ago when "Ned" Green quit Texas and came to New York to live. He has made his home here ever since, but if his mother turned her affairs over to him nobody knows it.

## Wood's Phosphorine

The Great English Remedy. Tones and invigorates the whole nervous system, makes new blood in old veins, cures nervous debility, mental and brain worry, despondency, loss of energy, palpitation of the heart, failing memory. Price \$1 per box, six for \$5. One will please, six will cure. Sold by all druggists or mailed in plain package on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT. (Formerly Windsor).

## LAXATIVE FOR OLD PEOPLE—"CASCARETS"

Salts, Calomel, Pills, Act on Bowels  
Like Pepper Acts in  
Nostrils

Get a 10-cent box now. Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles. So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all stages but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash cannot be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.

American stocks in London quiet and irregular.

To begin with, it is perfect. To the end it remains perfect—the Edison—

## Blue Amberol Record

No musical mechanical triumph has approached this remarkable invention of Edison. The new composition of which it is made catches and holds the natural beauty of tone of the world's greatest singers, orchestras and bands, and holds it after you have played it over 3,000 times.

The Blue Amberol is a perpetual, practically unbreakable record that reproduces in an amazing way the art of the performers. Don't miss the opportunity to hear it played.
