Sealed tenders will be received by the undersigned up to 5 o'clock p. m. May 25, 1921, from all trades concerned in the erection and completion of a brick and concrete addition to the Smythe Street School Building, Fredericton, N. B.
Each tender to be accompanied by a certified bank cheque for five per cent of its amount.
The lowest or any tender not necessarily accepted.

Plans and specifications may be seen at the office of the architect, F. Neill Brodie, 42 Princess Street, St. John, N. B., or at the office of the undersigned in the York Street School Building, Fredericton, N. B.

R. D. HANSON,
Secretary School Trustees,
Fredericton, N. B.

AROUND THE TOWN

Who says that the cost of living is not going down! Who says we are not returning to normal conditions! The ten-cent shoe shine is with us once again. The fifteen-cent shine has taken its departure. The fifteen-cent shine was here about two years and never took very well with the populace. Here's hoping that the fifty-cent haircut will soon follow suit.

One of the most interesting relics of old times in Fredericton which has come to public attention recently is a photograph of a water-color depicting Fredericton in 1818. It is the property of Mrs. W. L. Jennings and now is on exhibition. The photograph was taken by the late George Taylor. The water-color shows Fredericton east of the site of the present Officers Quarters and those acquainted with the early history of the city say that at that remote time, more than a century ago, there was very little of the community above that point. Ten points of interest in the sketch are named on the back of the photograph. They are the Collegiate School which stood between Brunswick and George streets not far from the C. N. R. station of today, the Parish Church which stood on the present Cathedral grounds near Queen street, the Minchin House now the Deanery at the corner of Church and Brunswick streets, the Provincial Secretary's office now the Educational Office, the Parliament Building occupying the site of the present building, the building in which the first legislature met in Fredericton which still stands at the corner of Chancery Lane and Queen Street, the Market House which occupied the site of the present Court House, the corner of Regent and Queen streets, the Officers quarters. The photograph was obtained from the photographer by the late William Crowdon, father-in-law of Ald. W. L. Jennings. Buildings which seem to be Farraline Place and the Inches property at the corner of St. John and Queen streets also appear in the picture.

The remarkable change which can take place in a community during a considerable period of time is well illustrated by the picture in question. An important business section of the city at that time was along Waterloo Row. The picture does not show it. Now the section is entirely residential.

With country produce, particularly butter and eggs, striking low levels which have not been even thought of for some years, it is a remarkable thing that the Fredericton country market can keep prices up. Butter has been quoted in Ontario as low as thirty-one cents a pound, but in Fredericton forty cents for large lots has been an extremely low figure. Eggs have touched the low figure of twenty five cents per dozen elsewhere but here the price stays well above that figure in the country market. The only solution of the mystery seems to be that the desire of the towns-people to buy direct from the farm people causes the demand to exceed the supply thus keeping prices higher than they should be.

The Donnelly property at the corner of Northumberland and King streets, recently demolished after a fire, was the scene of the first Roman Catholic service in Fredericton after the French period. When Fredericton first was established it was an outlying portion of the Parish of St. Ann's the church of which was located at French Village. The priest in charge occasionally visited this community and held service in a dwelling.

THE MAN WHO WORKS HARD
SHOULD FOLLOW THIS
ADVICE.

Perseverance and will power he should have, but whether he has strength and vigor is another question. Hard working men often have headaches and suffer from bilious fits. The occasional use of Dr. Hamilton's Pills keeps a man feeling fit and fine, keeps him always at his best. Headaches, indigestion, poor color, are quickly remedied by Dr. Hamilton's Pills. Dr. Hamilton's Pills keep the system clean and pure, tone up the blood, drive away tiredness and lassitude. No medicine for men is better than Dr. Hamilton's Pills. 25c. all dealers or The Catarrhose Co., Montreal.

Mr. Stillman will never succeed in making the divorce business pay as well as banking.

It is clear enough now that Germany would have been the winner in a "peace without victory."

THE INFLUENCE OF ADVERTISING
ON THE PUBLIC MIND

HOW MANY PEOPLE know the names of the highest mountain peaks in the world?

FOR INSTANCE, "Kinchinjanga" is the name of one of the highest mountains in the world. It is 28,156 feet high.

PIKE'S PEAK is only 14,108 feet high—but it gets credit for being higher because it is advertised.

ADVERTISING will bring many unknown things into prominence during the coming years.

NOW IS THE TIME, when so many articles and commodities of trade are flooding already overstocked markets, for the man with goods to sell to let the people know all about it.

THE BEST WAY to let the people know is to advertise in the newspapers.

YOU HAVE SEEN THIS in the Daily Mail—let the public know what you have to sell through the advertising resources of this newspaper.
