

JAS. W. BURNS APPOINTED TO HIGH SCHOOL

STAFF NOW COMPLETE
WITH FIVE TEACHERS

Latest Appointee Has Special-
ized in Science—Graduate
of U. N. B.—Post-Grad-
uate Courses.

It was announced officially this morning that the teaching staff of the Fredericton High School for the ensuing year had been completed by the appointment of James W. Burns B.Sc. This teacher is a son of W. M. Burns principal of the Model School at Fredericton and is a graduate in Forestry of the University of New Brunswick. After graduation in 1916 he took up research work in chemistry at Yale University and more recently has followed post-graduate work at Queen's University where he had a research scholarship. Prior to entering the U. N. B. he taught school at Middle Sackville under Superior License.

The Present Staff

The staff of the High School now consists of Dr. B. C. Foster, principal, J. E. Page, Miss Sarah Thompson, Miss Gladys Gregory and James W. Burns. This is the first time in the history of the school that there has been more than one female teacher on the staff.

Enjoyable Party.

Miss Helen Scott, B. A., was the hostess yesterday afternoon at a large party given in honor of Miss Green-
ican of Petrolia, Ont.

Attended the Races.

A large number of Fredericton people drove to Woodstock and attended the races in the afternoon. Among the number were Messrs. Alonzo Staples, J. H. Hawthorn, R. B. Van Dine, A. J. Ryan, H. R. Babbitt, John Allen, George W. Ross, John M. Wiley, C. D. Holder, T. Amos Wilson, A. J. Ryan, George E. Howe, Charles E. Clowes and M. B. McNally. They found the roads in fine shape and greatly enjoyed the races.

Attending Summer School.

Sunny Brae correspondence to the Wesleyan says: "Another of our teachers, Mr. H. H. Stuart, Principal of the Sunny Brae Schools, has during his residence here the past two years taken an active part in Christian work. On Conference Sunday and on other occasions he has preached very acceptably, and while living here has proved to be a public spirited citizen, taking part in Temperance work and other measures of reform. Prin. Stuart and the several members of the efficient Sunny Brae school staff will return for another year." (Mr. Stuart at present is attending the N. B. Summer Vocational School here.)

Her Father Dead.

Mr. A. G. Purdy, Postmaster of Springhill, N. S. since 1902 and a highly respected citizen of that town, died last night, aged 75 years. He is survived by a widow and a family of the daughters is Mrs. F. Wayland the daughters is Mrs. F. Wayland Porter of this city. A correspondent of the Sackville Tribune refers to Mr. Purdy as a most efficient and popular postmaster, and goes on to say: "Cumberland has produced sons who have occupied more prominent positions, but not one of them has been more highly esteemed or whose passing will be more deeply regretted. No home in Cumberland County dispensed more bounteous hospitality to a host of people in Cumberland."

Raft Went to Pieces.

Wednesday afternoon when the squall struck the river near here an Indian was riding a raft of drift wood, which he had collected, down stream. In a few moments after the wind first rose a fairly large swell was running and the result was that the raft, which was only loosely put together, fell apart. The Indian, who belongs to St. Mary's Reserve, clung to one of the larger pieces, and it was in this position that he was first seen by Edward Larin, floating about the middle of the river, opposite the hospital. Mr. Laren immediately went out with his boat and took the stranded one off, who received nothing more than a wetting. The wood represented the labor of some days, and is quite a loss.

COMMISSION ISSUES LIST OF VENDORS' PRICES

ALCOHOL NO LOWER
THAN \$26.25 PER GALLON

Duty at Increased Rate Includ-
ed in New Prices—Rebate
of Duty to Hos-
pitals.

Hon. J. F. Tweeddale, chairman of the New Brunswick Liquor Commission, today issued a price list of liquors which will be sold by licensed retail vendors throughout the province. This list is issued under the provisions of an order-in-council and must be posted by each vendor in a prominent place where it can be inspected by the public. The maximum prices which may be charged by vendors are contained in the list.

Duty Included.

Hon. Mr. Tweeddale stated today that the prices in practically all instances are lower than have been paid for some time by the public but that even under that circumstance it must be remembered that the new customs tariff imposed by the Federal Government increased the duties on liquors one hundred percent. The prices in the list are made up on the basis of the new tariff and in the price of each bottle is \$1.60 which is paid to the Federal Government in duty.

The liquors handled by the Commission are all standard case goods and under the system now being followed the public is protected against inferior grades of liquors and exorbitant prices.

Price of Alcohol.

With regard to the price of alcohol Hon. Mr. Tweeddale stated that the Commission purchases alcohol 65 per cent over proof. Duty is charged on a basis of ten dollars per proof gallon which makes the duty on alcohol \$16.50 per gallon. When the original cost, duty sales tax, other incidental expenses with a fair margin of profit to the vendors is taken into consideration it makes it impossible to sell alcohol lower than \$26.25.

The tariff on alcohol makes provision for a rebate of ninety-nine per cent in duty on alcohol distilled in Canada and consumed by hospitals. The hospitals must pay the full duty however, rebate being allowed upon application.

The Prices.

The price list provides the following range of prices:—Scotch Whiskies, \$4.50 to \$5.00; Canadian Rye

FOREST FIRES CHECKED BY RAIN IN ALL PARTS

SMALL PATROLS WILL
BE ABLE TO DO WORK

New Fire Broke Out Thursday
Just Ahead of Rain—
Conditions Much
Better.

Last night's and today's rains are welcomed as a great relief all over the province. While they do not completely extinguish the many forest fires they damp them down and squelch them to a great extent and make conditions such that only small crews of men are required to patrol the fire lines. Any smouldering logs and roots can now be dealt with easily. It would take two weeks of steady rain to extinguish completely all the fires, and a few more days will be of benefit.

Heavy rains are reported from all points, Newcastle and Blackville having heavy electrical storms as well.

New Fire Thursday.

The last new fire to be reported was one about five miles east of the Bald Mountain lookout. It broke out yesterday afternoon and crews were at once organized at Newcastle and sent in, a distance of forty miles. A short time later the lookout reported rain, and it was very fortunate that the rain came just when it did. The only way to get men in to this locality is by portaging, and the outbreak was in the midst of a soft wood forest, in which the fire would prove very difficult to fight.

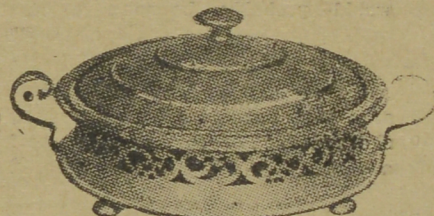

The extreme heat, dry weather and winds have rendered many of the fires very serious, and the rain is a great benefit. Special investigations are to be made into the causes of all the fires, it was announced today by Chief Forester G. H. Prince.

Lookouts of Great Value.

Great credit is to be given to the men stationed in the various lookouts all over the Province. Of these there are three main ones, at Bald Mountain, Penniac and Plaster Rock. The service rendered by these stations has been of great value and it is expected that now that the public are
